- Red, Early Espresso, Crumb Cake, Pecan Pie and white cardstock
 - Gift - Scrap of designer series paper
 - Pop Out Mechanism - Cut 1 Pecan Pie to 8-1/2" x 2". Score at 2", 4", 6" and 8"
 - Inside Panel - Cut 1 Basic White cardstock to 5-1/4" x 4"
2. Use the Forever Plaid 3D Embossing Folder to emboss one of the Real Red mats measuring 5-3/8" x 4-1/8". Adhere the panel to the card front using liquid glue.
 3. Adhere the three panels measuring 3-7/8" x 1-1/4" from the Reindeer Days Designer Series Paper to the card front. I selected the pine tree print, holly print and lights print. The panels are adhered towards the top of the card and there should be an equal distance showing between the panels and the Real Red embossed panel. Use liquid glue when adhering these panels.
 4. Stamp the "Merry Christmas" sentiment onto the piece of white cardstock measuring 5" x 1-1/4" in Real Red ink. **Stamp the sentiment towards the right of the card stock.** Use the long slender die from the Greetings of the Season Dies to cut out the sentiment. Set aside for now.

5. From the Reindeer Fun Dies, die cut 1 holly three-leaf image from Garden Green cardstock and 1 set of berries from Real Red cardstock. Use a Sponge Dauber to darken the edges of the holly leaves in Garden Green ink. Adhere the berries to the center of the holly leaves using a small drop of liquid glue. Adhere the holly and berries to the left side of the sentiment label (to the left of the stamped "Merry Christmas" sentiment). Loop a small length of Silver & White Sheer Ribbon through the hole in the sentiment label, then use a length of Real Red & White Baker's Twine to tie a bow around the Sheer Ribbon. Adhere the sentiment label to the card front diagonally using Stampin' Dimensionals.

6. On the inside panel, stamp the "May all your days be full of cheer" in Real Red ink. Stamp the tree image two times onto the lower right corner of the panel in Garden Green ink. Adhere the panel to the remaining Real Red mat, then adhere this to the inside of the card.
7. On the Pop Out Mechanism, score all lines as mountain folds. Adhere the 1/2" section to the inside of the opposite end of the mechanism to form a tube. I used Stampin' Seal + to adhere the ends together. With the join seam facing to the back corner, adhere a Real Red 1-7/8" x 1-7/8" mat to the two front facing squares on the Pop Out Mechanism. The two remaining (unmatted) sides will get adhered to the inside of the card. Apply Stampin' Seal + to one of the tube sides to be adhered to the inside of the card, fold the Pop Out unit flat, then line up the back score line of the Pop Out with the center score line on the inside of the card and carefully close the card to adhere the Pop Out unit. Apply Stampin' Seal + to the remaining side of the Pop Out to be adhered, fold the Pop Out flat, then close the card to adhere this second side.

8. Die cut and assemble the components for the Pop Out using the Reindeer Fun Dies then follow any additional directions.
 - Die cut 1 wreath from Garden Green cardstock
 - Die cut 1 bow from Real Red cardstock
 - Die cut 1 each of the three Reindeer Head pieces from Pecan Pie, Crumb Cake, and Early Espresso. Assemble the Reindeer Head, then adhere the lower front of the Reindeer to the lower back of the wreath. Adhere the bow to the Reindeer's neck. Adhere the Reindeer to the left side of the Pop Out.
 - Stamp the tree image in Garden Green ink onto a piece of Garden Green cardstock, then die cut. Die cut 1 small gift from a scrap piece of one of the designer series papers. Die cut 1 bow from white cardstock. Adhere the bow to the gift. Adhere the tree to the right facing side of the Pop Out, then adhere the gift in front of the tree.

9. Stamp the tree image onto the envelope front. Note that because this card has some thickness to it, I did not adhere any of the designer series paper to the envelope flap.

This completes the card! This card makes a great display card!
