Instructions:

- Stamp small flowers on card base using Delightful Dijon ink
- Stamp greeting, flowers & leaves on white as shown—before stamping, lay DSP on bottom of white to ensure you stamp high enough, but don't adhere. Just in case your stamping does not come out like you want, you can always flip over and use the other side of the white
- Adhere DSP to bottom of White
- Add pearls to flower centers
- Adhere doily to back of white layer-then attach to card front
- Wrap Bakers Twine around and tie in a bow
