Instructions:

1. Take your 3-7/8" x 5" Basic White paper and stamp the "Merry Christmas" sentiment from the Santa's Delivery Stamp Set in Real Red Ink. Stamp the sentiment on the bottom right hand corner of the Basic White paper.
2. Turn your Real Red card base upside down so that the 1/2" section is on your left side and line up the card base on your Paper Trimmer at the 1" mark. Line your cutting blade up on the 3/4" mark of the cutting track and then press on to your card base and cut down to the 4-3/4" mark on the cutting track. See photo below for reference.

3. Apply Adhesive Sheets to the back of the Silver Foil then die cut a full train track and a partial train track from the Santa's Train Dies out of the Silver Foil paper.
4. Adhere the Santa Express DSP above where the cut line has been made in the Real Red card base.
5. Trim then adhere the Silver Foil train tracks directly under where the cut line

is in the Real Red card base.

6. Use your 1-1/2" Circle Punch (retired) and punch out a small crescent on the right hand side of the card in both layers of the paper.

7. Take the 1/2" x 3" and 1/4" x 3" slider mechanisms and insert them into the cut line so that a small amount is poking out the bottom of the front of the card over the train tracks. Then apply Mini Stampin' Dimensionals to the slider mechanisms. See photo below for reference.

8. Die cut a santa train from the Santa's Express DSP using the Santa's Train Dies then remove the backing from the Mini Stampin' Dimensionals and adhere the train wheels over the dimensionals covering up the mechanisms.

9. Apply Tear & Tape to the back of the slider mechanisms then make sure the train slider mechanism is as far to the left as it will go, remove the Tear and Tape backing and line up the Basic White piece with the edge of the card and adhere to the mechanisms to secure in place.

10. Use 2 strips of Tear & Tape on the 1/2" section of your Real Red card

base and close your card up.
