Create a Mask by using a piece of A4 paper. (I used a compass to create the necessary line. You could do it free-hand.) Make a sticky edge to the masks by using **2 Way Glue Pen** and allowing it to dry until it is completely clear - until it is no longer blue. (clear means semi permanent adhesion and blue means permanent adhesion). I also used a couple of pieces of low tack tape to help keep the mask in place on my desktop. Start with **Tempting Turquoise** and sponge sky area in small circular motion. Try not to allow the ink to travel right to the edge as we want to concentrate the colour in the center of this picture, with white space to top/bottom. *Note that I am using a previously used mask hence the blue colour already on mask.*

Remove mask, and replace with second mask, to mask off the sky area in prep for the grass. Use same method to apply Cucumber Crush ink. Remove mask to view.

Stamp your desired images using Memento ink or Basic Black Archival Ink. Using Markers apply colour (Watermelon Wonder - Delightful Dijon) then (Basic Black and Tip Top Taupe) to tires, handles, basket, gears etc.

Finish by applying (White Gel Pen) to create seat stitching, centre of flowers, bike spokes, tire rim etc. Apply a little paper piercing to top right and bottom left corners. I used the straight edge of the tag from the Eclectic Paper Piercing Pack (133778) to give me a straight even line. This could be done free-hand if necessary. Finish by mounting on your chosen mat and card base.
