**OK-MA-145 - Band 2 - VEHICLE MOUNTED VIDEO AND RECORDING DEVICES**

**Supplier Name:** Panasonic System Communications Company of North America, Division of Panasonic Corporation of North American (PSCNA)

Cost Scenarios - Due to the complexity of this initiative, and to allow for new technology and expanding product lines, this section contains different situations which allow the experienced supplier to propose their total suggested project for different types of end users which will be using this contract.

Proposers shall offer solutions for outfitting police and other public safety entities with a turnkey video solution based on the following four (4) examples of law enforcement agency sizes.

Small	{ 1 to 25 Officers}
Medium	{26 to 200 Officers}
Large	{201 to 1000 Officers}
X-Large	{1001+ Officers}

Each Scenario must include good, better, and best technologies. Respondents are reminded that this is a National contract, from small rural local groups to the largest Metropolitan forces. Different styles and budgets are highly anticipated.

Systems should be priced as one complete project, to include all suggested equipment priced per unit, project set up, installation, training, software, storage, and any other equipment relevant to the proposed system. Scenarios should include both self hosted and secured cloud storage solutions if available. (Band 3 only?)

Please provide an itemized cost breakdown for each component.
