NASPO Special Pricing by Ameda

Ameda is excited to present special pricing for the month of June to encourage and support breastfeeding and breast milk nutrition for all infants in your communities.

75 years ago, Einar Egnell created the first comfortable and effective breast pump technology that closely mimics the suckling pattern of infants. In the process, he created technology standards that have since become the industry benchmark. Ameda is proud to support and comply with the International Code of Marketing of Breastmilk Substitutes, also known as the WHO code.
