

STATE OF UTAH COOPERATIVE CONTRACT AMENDMENT

AMENDMENT #: 2

CONTRACT #: AR2470

Starting Date: Unchanged

Expiration Date: Unchanged

TO BE ATTACHED AND MADE PART OF the specified contract by and between the State of Utah Division of Purchasing and AT&T Corp. (Referred to as CONTRACTOR).

BOTH PARTIES AGREE TO AMEND THE CONTRACT AS FOLLOWS:

The NASPO Master Agreement AR2470 Attachment D – Pricing Discounts Attachment is hereby amended to include the attached, updated Attachment D. Upon the effective date of this Amendment, the updated Attachment D shall supersede and replace previous versions.

Effective Date of Amendment: As of the last signature date below.

All other terms and conditions of the contract, including those previously modified, shall remain in full force and effect.

IN WITNESS WHEREOF, the parties sign and cause this contract to be executed.

Subtotal	AT&T Cloud Professional Services – Project Fees							

Notes:
 AT&T prices our services for a given consulting project based on the estimated man-hours/ Level-of-Effort (LOE) of the consultants assigned to the project, software tools, and engagement management for quality assurance. Based on our experience with other government agencies, however, we have created standard project fees based on an assumed Level-of-Effort for different agency/project sizes under this RFP for each of the categories of se

Cloud Solution Planning Workshop

AT&T's on-site Cloud Solution Planning Workshop helps clients determine where opportunities may exist to benefit from cloud services. Typically, during a Cloud Solution Planning Workshop we work with you to:

- Establish a vision for cloud services relevant to your business and its goals
- Review common industry use cases
- Discuss relevant business requirements / IT imperatives
- Identify target applications / services for cloud strategy and business case development
- Establish next steps for your Cloud Strategy development or Implementation

Level-of-Effort

2 weeks*

*includes custom preparation/research, 1-2 day on-site workshop, and findings report preparation

Cloud Strategy and Roadmap

During a Cloud Strategy and Roadmap, AT&T Consulting works with you to develop a long term cloud adoption strategy, and an optional migration plan for a specific application that you use or plan to use. Because each organi

- Gathering detailed business requirements
- Performing application infrastructure discovery, including platforms, storage, and database
- Reviewing current operations model
- Determining the appropriate target cloud deployment model
- Developing proposed cloud services architecture and design
- Performing security and risk management assessment
- Creating strategic (18-24 month) roadmap for cloud adoption
- For a specific pilot application area, we can optionally:
 - Develop a detailed business case for Cloud service migration
 - Develop a specific migration plan

Level-of-Effort

Small, Medium, & Large

Cloud Implementation and Governance

Cloud Implementation and Governance focuses on the detailed development, implementation, and program management of a migration plan to cloud services.

The duration for this service depends on the complexity of the cloud project including:

- Number of applications
- Application and database interdependencies and integration points
- Pilot program development requirements and criteria
- Unique security and risk management considerations for compliance
- Service integration points (e.g. process and workflow integration, helpdesk and e-bonding, etc.)
- Custom reporting and operational SLA requirements

Level-of-Effort

Small, Medium, & Large

Cloud Security and Compliance Assessment

This assessment ensures that security compliance requirements are met when using Virtualization or Cloud-based resources, approaching your proposed deployment from an assessor's point of view. The offering focuses on e

Key Highlights:

- Evaluate security readiness for cloud computing
- Discover and assess vulnerabilities and risks specific to the target cloud operating model
- Assess external providers, internal structures and application architecture for security threats
- Identify and recommend remediation activities to help achieve compliance when leveraging cloud or virtualized solutions
- Penetration Testing: internal, external, application, and social engineering
- Payment Card Industry (PCI) Trusted Advisor and Compliance Assessment Services
- Optionally, support of remediation activities

Level-of-Effort

Small, Medium, & Large

Prolexic Connect						
Prolexic Connect	Notes:					
	A customer buys a primary Connect for a certain usage tier. Additional Connect can be purchased for a specific usage tier, and usage is aggregated and then overage is assessed at the combined usage tier. The largest Connect must be the primary Connect. Connect usage should be aggregated to one line on the order form. The aggregate Connect usage should have one overage rate on the order form.

Enhanced Support SLA					
ESLA		Notes:			

Fixed MRR when sold as an add-on to Standard Support. Enhanced Support SLA and unlimited number of support cases are included with the base fee. Under the % Fee Model, the base fee equals 5% of the total committed value (using wholesale rates) for non-services products, including and committed delivery charges (minimum of \$200). This is calculated at time of deal and entered as a fixed-MRR item. This fee will be adjusted at renewal by applying the same calculation to the new committed value.

ESLA	Base Fee:				
	<i>Enhanced Support SLA - Sold on Standard Support (% price model; i.e. % of total committed value for non-services products):</i>				
	Monthly				5.00%

Integration					
Integration		Notes:			

Fixed MRR billed One Time/Monthly. Integration fees are charged per specific product integration. Emergency integration fees are charged in addition to the Standard or Managed integration fee. The number of hours (LOE) do not appear on the order form. If a specific number of hours needs to be called out, then the rep will use the SOW option and attached it to a PS Enterprise deal.

Integration	Web Experience - Consumer:

Enterprise Traffic Protector (ETP)							
ETP	Notes:						

Pricing will be based on number of Users/Locations, it will be flat for the term of the contract and rightsized at the end of the contract term. ETP includes all features of the ADI/ETP Bundle & Guest Wifi but also includes the ETP Client Connector and Security Connector. These features allow customers with the ability to selectively proxy risky traffic to unknown domains and, to provide protection to off-network clients with the ETP Client application, and to identify devices by-IP that have been blocked for clean-up/remediation.

ETP	Commitment:						
	Users	Monthly	0	200		7.27	6.34
	Users	Monthly	201	400		5.45	4.76
	Users	Monthly	401	1000		2.75	2.23
	Users	Monthly	1,001	3,000		2.06	1.67
	Users	Monthly	3,001	5,000		1.74	1.41
	Users	Monthly	5001	10,000		1.47	1.19
	Users	Monthly	10,001	20,000		1.28	1.04
	Users	Monthly	20,001	999,999,999		1.01	0.81

ETP	Commitment:

	Locations	Monthly	11	50		40	27.86
	Locations	Monthly	51	100		30	18.57
	Locations	Monthly	101	500		15	9.29
	Locations	Monthly	501	2,000		11.25	6.97
	Locations	Monthly	2,001	999,999,999		7.5	4.64

Enterprise Traffic Protector - Advanced							
ETP - Advanced	Notes:						

Pricing will be based on number of Users, it will be flat for the term of the contract and rightsized at the end of the contract term. Including all of the features of ETP, ETP Advanced is for those customers that require the most advanced defensive actions for prevention of threats and remediation. Advanced threat adds the ability to do in-line payload analysis where all risky domains are inspected against multiple anti-virus engines to detect the latest threats.

ETP - Advanced	Commitment:						
	Users	Monthly	0	200		10.91	9.51
	Users	Monthly	201	400		6.83	5.96
	Users	Monthly	401	1000		4.13	3.34
	Users	Monthly	1,001	3,000		3.09	2.51
	Users	Monthly	3,001	5,000		2.61	2.11
	Users	Monthly	5001	10,000		2.21	1.79
	Users	Monthly	10,001	20,000		1.92	1.56
	Users	Monthly	20,001	999,999,999		1.52	1.23

ETP - Advanced	Commitment:					
		Locations	Monthly	0	999,999,999	Custom Custom

Enterprise Traffic Protector - Guest WiFi

ETP - Guest WiFi	Notes:	
-------------------------	---------------	--

Pricing based on the number of locations, it will be flat for the term of the contract and rightsized at the end of the contract term. Provides DNS-based acceptable-use policy enforcement. For those customers with Guest-Wifi or networks where the concern is only to prevent users from accessing unacceptable content ETP Guest WiFi provides a list of over 50 curated categories that prevents customers from accessing unacceptable content (e.g. adult websites, cyberbullying, gambling, etc).

ETP - Guest WiFi	Commitment:					
		Locations	Monthly	1	10	25 18.57
		Locations	Monthly	11	50	20 13.93
		Locations	Monthly	51	100	15 9.29
		Locations	Monthly	101	500	7.5 4.64
		Locations	Monthly	501	2,000	5.63 3.49
		Locations	Monthly	2,001	999,999,999	3.75 2.33

Enterprise Traffic Protector - ADI/ETP Bundle

ETP - ADI/ETP Bundle	Notes:	
-----------------------------	---------------	--

Pricing for ETP is based on the size of the internet circuit. ETP when bundled with ADI gives customers the ability to block known Malware, Ransomware, Command & Control (C&C), and DNS Exfiltration attacks and optionally add acceptable-use policy enforcement as well. One or many unique policies can be selectively or holistically applied across all locations.

ETP - ADI/ETP Bundle	Commitment:

AudioCodes EMS License for a single M2000	One-time charge	\$ 600.00	25%	\$ 450.00
Important: AudioCodes analog VoIP gateways comply with IEC61000-4-5 1KV surge levels as required by EN55024 and EN300-386. However in locations where the analog lines are routed outside the building, voltage due to lightning may exceed 1KV. In this case, primary surge protectors connected between Tip to Ground and between Ring to Ground on each FXS port are required. Failure to install primary surge protectors, and failing to comply with the grounding instructions or any other installation instructions, may cause permanent damage to the VoIP Gateways. Surge damage is not covered by Mitel warranty. Please refer to the Lightning Protection document embedded in the Info tab for more information.				
Enhanced 911 Gateway:				
Emergency Gateway-Redundant Pair, includes 2500 station licenses	One-time charge	\$ 49,500.00	25%	\$ 37,125.00
Emergency Gateway 2,500 station add-on license	One-time charge	\$ 12,000.00	25%	\$ 9,000.00
Emergency Desk Alert Module - unlimited user licenses	One-time charge	\$ 8,250.00	25%	\$ 6,187.50
