software for use by employees, program participants, or members of the public unless it provides blind or visually impaired individuals with access, including interactive use of the equipment and services, that is equivalent to that provided to individuals who are not blind or visually impaired. INTELLECTUAL PROPERTY/OWNERSHIP

Mutual Use. Contractor shall make available to State, on a royalty-free, non-exclusive basis, all patent and other legal rights in or to inventions as required for State to enjoy the benefits of the Products provided in accordance with the terms of this Contract. Unless otherwise specified in a statement of work, both parties shall have a royalty-free, nonexclusive, and irrevocable right to reproduce, publish, or otherwise use copyrightable property created under this Contract for its internal use to utilize the Products provided under the Contract. This mutual right includes manuals, training materials, and documentation.

Ownership of Contractor Pre-Existing Materials. The parties acknowledge and agree that the Products furnished under the Contract are off the shelf commercial items and that currently the parties do not anticipate that "work for hire" services will be performed by the Contractor for State under the Contract. To the extent Contractor and State agree to any such development work, they shall enter into an Amendment to this Contract to describe such work and agree upon any applicable terms and conditions. Contractor retains ownership of all literary or other works of authorship (such as software programs and code, documentation, reports, and similar works), information, data, intellectual property, techniques, subroutines, algorithms, methods or related rights and derivatives that Contractor owns at the time this Contract is executed or otherwise developed or acquired independent of this Contract and employed by Contractor in connection with the services provided to State (the "Contractor Pre-existing Materials").

PATENT AND COPYRIGHT PROTECTION

Third-Party Claim. If a third party makes a claim against State that the Products furnished under this Contract infringe upon or violate any U.S. patent or copyright of a third party, State shall promptly notify Contractor and shall furnish copies of all letters and other documents relating to the allegation of infringement. Subject to the terms of this Section, Contractor shall have full and sole authority to defend such claim, action or allegation of infringement in State's name or its own name, as appropriate, but at Contractor's expense. Contractor shall indemnify State against all reasonable costs, damages, attorney fees, and all other costs and expenses of litigation that accrue as a result of such claim. If State reasonably concludes that its interests are not being properly protected, or if principles of governmental or public law are involved, it may enter any action upon advance written notice to Contractor. Notwithstanding the foregoing, Contractor shall not be obligated to defend or settle or be liable for costs, fees, expenses or damages if the infringement claim arises from (a) unauthorized use of

NASPO ValuePoint
PARTICIPATING ADDENDUM

COPIERS & MANAGED PRINT SERVICES

the Products in combination with devices or software not furnished by Contractor, or (b) any modification of the Products made by the State without the written consent of Contractor.

Product Subject of Claim. If any Product furnished is likely to or does become the subject of a claim of infringement of a patent or copyright, then Contractor may, at its option, procure for State the right to continue using the alleged infringing Product, or modify the Product so that it becomes non-infringing. If none of the above options can be accomplished, or if the use of such Product by State shall be prevented by injunction, State will determine whether the Contract has been breached.

CONTRACT OVERSIGHT

CIO Oversight. The Chief Information Officer (CIO) for the State of Montana, or designee, may perform contract oversight activities. Such activities may include the identification, analysis, resolution, and prevention of deficiencies that may occur within the performance of contract obligations. The CIO may require the issuance of a right to assurance or may issue a stop work order.

Right to Assurance. If State, in good faith, has reason to believe that Contractor does not intend to, is unable to, or has refused to perform or continue performing all material obligations under this Contract, State may demand in writing that Contractor give a written assurance of intent to perform. Contractor's failure to provide written assurance within the number of days specified in the demand (in no event less than five business days) may, at State's option, be the basis for terminating this Contract and pursuing the rights and remedies available under this Contract or law.

Stop Work Order. State may, at any time, by written order to Contractor require Contractor to stop any or all parts of the work required by this Contract for the period of days indicated by State after the order is delivered to Contractor. The order must be specifically identified as a stop work order issued under this clause. Upon receipt of the order, Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. If a stop work order issued under this clause is canceled or the period of the order or any extension expires, Contractor shall resume work. The State Project Manager shall make the necessary adjustment in the delivery schedule or contract price, or both, and this Contract shall be amended in writing accordingly. Such a stop work order would not affect the terms and conditions of any applicable lease agreement entered into by a Purchasing Entity.

System Security. Contractor shall ensure systems delivered under this Agreement are adequately secure. For purposes of this Agreement, adequate security is defined to require compliance with federal and State of Montana security requirements and to ensure freedom from those conditions that may impair the State's use of its data and information technology or permit unauthorized access to the State's data or information technology. The State of Montana has established control standards and policies that

align with the NIST Cybersecurity Framework. The latest revision of NIST SP 800-53 is used for control adherence evaluation established after developing a security categorization utilizing FIPS PUB 199. Thus, Contractor shall provide reasonable proof, through independent audit reports, that the system specified under this Agreement meets or exceeds federal and State of Montana security requirements to ensure adequate security and privacy, confidentiality, integrity, and availability of the State's data and information technology. Annual assurance statements shall be delivered to the Contract Liaison. Annual assurance statements must contain a detailed accounting of the security controls provided and must be in the form of a NIST Security Assessment Report or FedRAMP Security Assessment Report. Notwithstanding the foregoing, Contractor's assurance of compliance with this Section's requirements may also be satisfied if Contractor provides written representation that the multi-function devices under this Agreement adhere to the IEEE 2600.2-2009 standard.

Physical Access. Contractor represents and warrants that it has established and during the Term it will at all times enforce:

- (a) Physical protection mechanisms for all information assets and information technology to ensure such assets and technology are stored and protected in appropriate data centers;
- (b) Appropriate facility entry controls limiting physical access to systems that store or process data;
- (c) Processes to ensure access to facilities is monitored and is restricted on a "need to know" basis;
- (d) Controls to physically secure all Confidential Information and to properly destroy such information when it is no longer needed.

Prohibited Activities and Spoofing. Contractor and its officers, employees, agents, subcontractors, and affiliated users, shall not violate or attempt to violate the security of the State's network or interfere or attempt to interfere with the State's systems, networks, authentication measures, servers or equipment, or with the use of or access to the State's network by any other user. Such prohibited activity includes (i) accessing or logging into a server where access is not authorized; (ii) unauthorized probing, scanning, or testing the security or vulnerability of the State's network or other systems; and (iii) attempting to portray itself as the State or an affiliate of the State or otherwise attempting to gain access, without authorization, via the State's network or systems to any account or information technology resource not belonging to Contractor or its officers, employees, agents, subcontractors, and affiliated users ("Spoofing"). Contractor shall not perform unauthorized Spoofing or scanning of any kind, including user account identity. Systems shall not Spoof the mt.gov domain or engage in Email Spoofing. Email Spoofing is the creation of email messages with a forged sender address. For example, Email Spoofing includes creating or sending emails using the State's domain.

Noncompliance with Department of Administration Requirements. The Department of Administration, under the provisions of 2-17-514, MCA, retains the right to cancel or modify any contract, project, or activity that is not in compliance with the Department's Plan for Information Technology, State Strategic Plan for Information Technology, or any

Statewide IT policy or standard in effect as of the date of contract execution. In the event of such termination, State will pay for Products and services delivered to date and any applicable termination fee specified in the statement of work or work order. Any modifications to this Contract must be mutually agreed to by the parties.

5. Lease Agreements: Lease Terms: Equipment leases are subject to the Terms and Conditions as set forth in the Master Agreement **Attachment A** (Canon Lease Agreement), unless otherwise agreed to. To initiate a lease, Purchasing Entity may issue a Purchase Order ("PO") and reference the type of lease (FMV, Straight, or \$1 Buyout Lease) on the PO or may simply sign other transactional documents deemed acceptable to the parties.

Assignment: Contractor may assign, solely for financing purposes, upon written notification to the Purchasing Entity, their right title and interest in and to: (i) the Products subject to the Lease Agreement; (ii) all payments and other amounts due and to become due thereunder with respect to the Products; and (iii) all rights and remedies under this Participating Addendum with respect to the Products, such payments and other amounts due. Any such assignment however, does not excuse Contractor from bearing any obligation, terms and conditions as outlined under either the NASPO ValuePoint Master Agreement #140595 or this Participating Addendum. Contractor intends to assign, solely for financing purposes, rights as set forth immediately above and this paragraph constitutes the required written notification to the Purchasing Entity.

All lease and rental programs must remain with the Contractor or Authorized Dealers through an in-house leasing program, or through the financial branch or subsidiary of the Contractor.

End of Term Notification: Contractor must notify a Purchasing Entity, in writing, of their End of Term options at least sixty (60) to ninety (90) days prior to the end of any Initial Lease or Rental Term. Such notification may include, but not be limited to, the following:

- i. Any acquisition or return options, based on the type of lease or rental agreement;
- ii. Any renewal options, if applicable; and/or
- iii. Hard drive removal and surrender cost, if applicable.

End of Term Options: If a Purchasing Entity desires to exercise a purchase, renewal, or return of the Equipment, it shall give Contractor at least thirty (30) days written notice prior to the expiration of such lease or rental term. Notwithstanding anything to the contrary, if Purchasing Entity fails to notify Contractor of its intent with respect to the exercise of a purchase, renewal, or return of the Equipment, the Initial Lease or Rental Term shall be terminated on the date as stated in the Order and removal of the Product will be mutually arranged.

Contractor will provide timely billing and Customer will notify Contractor, in writing, of any billing concern. In order for Contractor to generate accurate service invoices, Purchasing Entities shall provide meter reads within the Contractor(s) requested timeframe.
