**ASSIGNMENT, TRANSFER AND SUBCONTRACTING:** Contractor shall not assign, transfer or subcontract any portion of the Contract without the express written consent of the Participating Entity. (Section 18-4-141, MCA.)

**COMPLIANCE WITH LAWS:** Contractor shall, in performance of work under this Contract, fully comply with all applicable federal, state, or local laws, rules, regulations, and executive orders including but not limited to, the Montana Human Rights Act, the Equal Pay Act of 1963, the Civil Rights Act of 1964, the Age Discrimination Act of 1975, the Americans with Disabilities Act of 1990, and Section 504 of the Rehabilitation Act of 1973. Contractor is the employer for the purpose of providing healthcare benefits and paying any applicable penalties, fees and taxes under the Patient Protection and Affordable Care Act [P.I. 111-148, 124 Stat. 119]. Any subletting or subcontracting by Contractor subjects subcontractors to the same provisions. In accordance with 49-3-207, MCA, and Executive Order No. 04-2016 Contractor agrees that the hiring of persons to perform this Contract will be made on the basis of merit and qualifications and there will be no discrimination based on race, color, sex, pregnancy, childbirth or medical conditions related to pregnancy or childbirth, political or religious affiliation or ideas, culture, creed, social origin or condition, genetic information, sexual orientation, gender identity or expression, national origin, ancestry, age, disability, military service or veteran status, or marital status by the persons performing this Contract.

**REDUCTION OF FUNDING:** Participating Entity must by law terminate this Contract if funds are not appropriated or otherwise made available to support State's continuation of performance of this Contract in a subsequent fiscal period. (18-4-313(4), MCA) If state or federal government funds are not appropriated or otherwise made available through the state budgeting process to support continued performance of this Contract (whether at an initial contract payment level or any contract increases to that initial level) in subsequent fiscal periods, State shall terminate this Contract as required by law. Participating Entity shall provide Contractor the date Participating Entity's termination shall take effect. If this Contract is terminated under this section, State will reimburse Contractor for the supplies or services properly ordered and/or properly performed until the effective date of said termination (whether or not they have been fully paid for as of the date of termination). ## **CONTRACT OVERSIGHT**

**CIO Oversight.** The Chief Information Officer (CIO) for the State of Montana, or designee, may perform contract oversight activities. Such activities may include the identification, analysis, resolution, and prevention of deficiencies that may occur within the performance of contract obligations. The CIO may require the issuance of a right to assurance or may issue a stop work order.

**Right to Assurance.** If State, in good faith, has reason to believe that Contractor does not intend to, is unable to, or has refused to perform or continue performing all material obligations under this Contract, State may demand in writing that Contractor give a written assurance of intent to perform. Contractor's failure to provide written assurance within the number of days specified in the demand (in no event less than five business days) may, at State's option, be the basis for terminating this Contract and pursuing the rights and remedies available under this Contract or law.

**Stop Work Order.** State may, at any time, by written order to Contractor require Contractor to stop any or all parts of the work required by this Contract for the period of days indicated by State after the order is delivered to Contractor. The order must be specifically identified as a stop work order issued under this clause. Upon receipt of the order, Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. If a stop work order issued under this clause is canceled or the period of the order or any extension expires, Contractor shall resume work. The State Project Manager shall make the necessary adjustment in the delivery schedule or contract price, or both, and this Contract shall be amended in writing accordingly.

**Internet Neutrality Requirements.** Contractor shall comply with the State of Montana Executive Order No. 6-2018, providing for Internet neutrality principles.

**Definitions.** As used in this agreement, the following definitions apply:

1. "Broadband Internet Access Service" means a mass-market retail service by wire or radio that provides the capability to transmit data to and receive data from all or substantially all Internet endpoints, including any capabilities that are incidental to and enable the operation of the communications service, but excluding dial-up Internet access service. This term also encompasses any service that the State finds to be providing a functional equivalent of the service described in the previous sentence, or that is used to evade the protections set forth in this section.
2. "Reasonable Network Management" means a network management practice that has a primarily technical network management justification but does not include other business practices. A network management practice is reasonable if it is primarily used for and tailored to achieving a legitimate network management purpose, taking into account the particular network architecture and technology of the Broadband Internet Access Service.
3. "Tiered Internet Access Service" means offering end users a choice between different packages of service with clearly disclosed speeds, prices, terms and conditions, but, subject to reasonable network management, does not include packages of service that offer different speeds, prices, or terms and conditions of service on the basis of content of media or traffic.

In the event of a dispute as to the definition of any other term in this section, a term that is defined in the State Financial Services Division's Internet Neutrality Principles in State Procurement Policy shall have the definition set forth in the Policy.

**Public Disclosure.** Contractor shall publicly disclose to all of its customers in the State of Montana (including but not limited to the State itself) accurate information regarding the network and transport management practices (including cellular data and wireless broadband transport), performance, and commercial terms of its Broadband Internet Access Services sufficient for: a) consumers to make informed choices regarding use of such services and for content,

application, service; and b) device providers to develop, market, and maintain Internet offerings. Compliance with the Federal Communications Commission's transparency rule, as amended by 83 Fed. Reg. 7852, 7922 (Feb. 22, 2018), satisfies Contractor's public disclosure requirements under this paragraph.

**Provision of Services.** In providing Broadband Internet Access Service in the State of Montana and subject to reasonable network management practices, Contractor shall not, with respect to any customer in the State of Montana (including but not limited to the State itself):

1. Block lawful content, applications, services, or compatible non-harmful devices, unless part of an opted-in customer service or reasonable network management that is disclosed to the customer;
2. Throttle, impair or degrade lawful Internet traffic on the basis of Internet content, application, service, or use of a compatible non-harmful device, subject to reasonable network management that is disclosed to the customer;
3. Engage in paid prioritization that harms consumers or competition; or
4. Unreasonably interfere with or unreasonably disadvantage:
  - a. End users' ability to select, access, and use Broadband Internet Access Service or the lawful Internet content, applications, services, or compatible non-harmful devices of their choice; or
  - b. Edge providers' ability to make lawful content, applications, services, or devices available to end users.

Paid prioritization does not include the provision of Tiered Internet Access Service to an end user if the Tiered Internet Access Service is neutral as to content of media and class of provider.

The following create a rebuttable presumption of harm to consumers or competition:

- interfering with end users' ability to select, access, and use the lawful Internet content, applications, and
- services of their choice; favoring the content of affiliated providers or unaffiliated providers who pay for priority;
- favoring or impeding any forms of expression or points of view;
- blocking or disadvantaging particular providers or classes of providers;
- degrading the level of service provided to non-prioritized content;
- interfering with edge providers' ability to make lawful content, applications, and services available to end users;
- and
- impairing competition, innovation, consumer demand, or investment.

The requirements in this Provision of Services section do not supersede any obligation or authorization Contractor may have to address the needs of emergency communications or law enforcement, public safety, or national security authorities, consistent with or as permitted by applicable law or contract, or limit Contractor's ability to do so.

## **Federal Terms and Conditions (Non-Construction)**
