

Exhibit B3-SolutionCertifications

American Power Systems utilizes ongoing training and has developed a DC apprenticeship program to further develop our technicians. We have a written Quality program, and all jobs are reviewed for quality purposes and if needed repairs are performed. APS also has a written battery recycling program and can provide all required documentation to meet EPA and state requirements.

APS has complete sales and service capabilities in the following locations:

Kent, WA.

Anchorage, AK.

Stockton CA.

Anaheim, CA.

Littleton, CO.

Garland, TX.

Indianapolis, IN.

APS is also factory trained/certified by the following manufactures.

DC Power systems

Unipower/C&D Technologies/Ratelco
