nontransferable license to use the portions of the Licensed Material for which activation has been authorized by Contractor, solely on or with the single unit or arrangement of Equipment for which the Licensed Material was delivered, for Purchasing Entity's internal use in the United States.

Purchasing Entity acknowledges and agrees that: (a) Contractor may have encoded within the Software optional functionality, features and/or capacity, which may be accessed only through the purchase of the applicable license extension from Contractor at an additional price (no licenses are granted to such functionality, features and/or capacity unless Purchasing Entity purchases the applicable license extension); and (b) Purchasing Entity may need to obtain a new or additional application key from Contractor to use such Software.

Upon forty-five (45) calendar days written notice, and subject to the State's security requirements, the Contractor may, at its own expense, audit the State's use of the Licensed Materials. Any such audit shall be limited to information reasonably necessary to allow the Contractor to determine if the State's use of the Licensed Materials is in the quantity and under the license type for which it is licensed. In performing the audit, the Contractor shall provide adequate assurances of confidentiality, which may include the execution of a confidentiality Agreement acceptable to the State and the Contractor, prior to conducting any such audit. The State shall cooperate with the Contractor's audit and provide reasonable assistance and access to records that directly relate to the State's use of the Licensed Materials, solely for the purpose of determining whether such use is within the scope of the license granted by the Contractor to the State under this Agreement. RE: NASPO Participating Addendum for Public Safety Communications Products, Services and Solutions, Washington State  
Master Agreement # 00318  
Nokia's Exceptions to Wisconsin State's Participating Addendum and Exhibit A (Participating Entity Modifications to  
Master Agreement)

Dear Mr. Negley,

This correspondence is in response to Nokia's exceptions to:

- 1) Wisconsin State Department of Administration's (DOA) Participating Addendum.
- 2) DOA's Exhibit A (Participating Entity Modifications to Master Agreement).

Nokia's exceptions will be addressed in a point-by-point manner.

**Concerning DOA's Participating Addendum:**

**Page 4 – Section 8 – Shipping Fess:** Nokia stated:

~~"Pursuant to Master Agreement Section 5.2, shipping charges must be mutually agreed to between Purchasing Entity and Contractor and shall be added as a separate line item on the Contractor's invoice. If the purchasing entity agrees to pay for shipping fees, the contractor must provide the shipping fee amount as a separate line item on the written quote and as a separate line item on the invoice. Contractor may not charge the purchasing entity shipping fee without a written pre-approval from the purchasing entity."~~

**DOA's Response:** DOA accepts Nokia's exception. Therefore, Nokia's revision is included in Section 8 of the Participating Addendum.

**Page 4 – Section 9 – Contractor's Software License:** Nokia stated:

~~"Pursuant to the Master Agreement #00318 Section 5.8, Contractor hereby provides its software license agreement. Purchasing Entity shall use all Licensed Materials in accordance with this Section. "Licensed Materials" refers to Software and Documentation. Upon delivery of any Licensed Material and subject to Purchasing Entity's payment of the applicable fees for such Licensed Material and compliance with the other terms and conditions of this Agreement, Contractor grants to Purchasing Entity, and Purchasing Entity accepts, a personal, nonexclusive, nontransferable license to use the portions of the Licensed Material for which activation has been authorized by Contractor, solely on or with the single unit or arrangement of Equipment for which the Licensed Material was delivered, for Purchasing Entity's internal use in the United States.~~

Purchasing Entity acknowledges and agrees that: (a) Contractor may have encoded within the Software optional functionality, features and/or capacity, which may be accessed only through the purchase of the applicable license extension from Contractor at an additional price (no licenses are granted to such functionality, features and/or capacity unless Purchasing Entity purchases the applicable license extension); and (b) Purchasing Entity may need to obtain a new or additional application key from Contractor to use such Software.

This license applies to all updates, upgrades, maintenance releases, revisions, and enhancements for the Licensed Materials which Contractor may supply to Purchasing Entity from time to time.

Purchasing Entity may copy Licensed Materials as reasonably necessary for backup and archival purposes if the copies contain all of the Contractor proprietary notices contained in the original Licensed Materials. All copies of all Licensed Materials (including partial copies) are Contractor Confidential Information. All rights, title and interest in and to the Licensed Materials, including all intellectual property rights, remain vested in Contractor, its suppliers and licensors, and Purchasing Entity is granted only a limited license to use the Licensed Materials in conjunction with the Equipment, as set out in this Section."

"Purchasing Entity shall not directly or indirectly: (a) modify, copy, transmit, alter, merge, decompile, disassemble, reverse engineer or adapt any Licensed Material or portion thereof; (b) encumber, time-share, rent or lease the rights granted herein; (c) manufacture, adapt, create derivative works of, localize, port or otherwise modify any Licensed Material or portion thereof; (d) disclose or otherwise make available any Licensed Material or portion thereof to any third party; (e) enable any Software functionality, feature or capacity which Contractor licenses as a separate product, without Contractor's prior written consent; (f) take any action that may result in the Software becoming subjected to the terms of a license that requires it to be (i) disclosed or distributed in source code form, (ii) licensed for the purpose of making derivative works, or (iii) redistributable at no charge; or (g) use any Licensed Material or portion thereof except in accordance with this Section."

**DOA's Response:** DOA accepts Nokia's exception. Therefore, Nokia's revision is included in Section 9 of the Participating Addendum.

**Page 5 – Section 9 – Contractor's Software License:** Nokia stated:

"Upon reasonable prior written notice, Purchasing Entity shall cooperate with the Contractor and shall grant assistance and access to applicable records, materials, personnel, Equipment, and any other information or products which may reasonably enable Contractor to determine whether the use, copying and disclosure of the Licensed Materials complies with this license."

**DOA's Response:** DOA cannot accept Nokia's exception. Therefore, Nokia's revision is not included in Section 9 of the Participating Addendum.

**Page 5 – Section 9 – Contractor's Software License:** Nokia stated:

"Upon forty-five (45) calendar days written notice, and subject to the State's security requirements, the Contractor may, at its own expense, audit the State's use of the Licensed Materials. Any such audit shall be limited to information reasonably necessary to allow the Contractor to determine if the State's use of the Licensed Materials is in the quantity and under the license type for which it is licensed. In performing the audit, the Contractor shall provide adequate assurances of confidentiality, which may include the execution of a confidentiality Agreement acceptable to the State and the Contractor, prior to conducting any such audit. The State shall cooperate with the Contractor's audit and provide reasonable assistance and access to records that directly relate to the State's use of the Licensed Materials, solely for the purpose of determining whether such use is within the scope of the license granted by the Contractor to the State under this Agreement. The Contractor's audit shall not unreasonably disrupt the State's operations. In the event the Contractor identifies use of the Licensed Materials during the applicable audit period in excess of that for which the State is licensed, the parties shall reconcile such excess use at the State's then-existing discounted rate structure and without penalty or premium of any sort. The State shall pay within thirty (30) days of written notification any fees applicable to the State's use of the Licensed Materials in excess of the State's license rights."

**DOA's Response:** DOA accepts Nokia's exception. Therefore, Nokia's revision is included in Section 9 of the Participating Addendum.

**Page 5 – Section 9 – Contractor's Software License:** Nokia stated:

"Certain Software may be delivered with its own specific license ("Additional License"). In such a case, the terms of the Additional License will be delivered to Purchasing Entity, such as in a separate license.txt file or as part of a tear-open document and will govern use of the Software by Purchasing Entity to the extent Contractor does not have a right to supersede them in this Agreement. Contractor's licensors are third party beneficiaries of this Agreement with respect to their Licensed Materials."

**DOA's Response:** DOA accepts Nokia's exception. Therefore, Nokia's revision is included in Section 9 of the Participating Addendum.

**Concerning DOA's Exhibit A (Participating Entity Modifications to Master Agreement):**

**Page 4 – Section 15 – Delay and Remedy:** Nokia stated:

"If the Contractor fails to remedy any delay or other problem in its performance of its Contract obligations after receiving reasonable written notice from the State to do so (within 30 calendar days of the written notice to the contractor), the Contractor shall reimburse the State for all reasonable costs incurred as a direct consequence of the Contractor's delay, action, or inaction. In case of failure to deliver Deliverables or Services in accordance with this Contract, the State, upon written notice to the Contractor, may procure such Deliverables or Services from other sources as necessary, and the Contractor shall be responsible for any price difference between the Master Agreement price and the replacement or cover price for identical equipment or services, as well as any administrative and/or transaction costs directly related to such replacement procurement – e.g., the cost of the competitive procurement. Purchasing Entity will mitigate damages and provide Contractor with detailed invoices substantiating the charges. ~~the additional cost, including the cost of re-procurement, purchase price and administrative fees.~~ This remedy shall be in addition to any other legal remedies available to the State."

**DOA's Response:** DOA accepts Nokia's exception. Therefore, Nokia's revision is included in Section 15 of DOA's Exhibit A (Participating Entity Modifications to Master Agreement).

**Page 7 – Section 26 – Shipping:** Nokia stated:

"Except as otherwise specified herein, Deliverables shall be shipped, F.O.B. Destination, and the State shall accept legal title of Deliverables at the point of delivery. Freight charges shall not be paid by the State, but rather shall be prepaid by the Contractor. Unless otherwise specified, the Contractor shall determine the mode of freight and shall accept responsibility for payment of freight charges and processing of freight claims.

If the purchasing entity agrees to pay for shipping fees, the contractor must provide the shipping fee amount as a separate line item on the written quote and as a separate line item on the invoice. Contractor may not charge the purchasing entity shipping fee without a written pre-approval from the purchasing entity."

**DOA's Response:** DOA accepts Nokia's exception. Therefore, Nokia's revision is included in Section 26 of DOA's Exhibit A (Participating Entity Modifications to Master Agreement).

**Page 10 – Section 37 – Ownership Rights:** Nokia stated:

"Unless an ownership interest is granted or reserved in this Contract, a State Purchase Order issued under this Contract shall allow the State unrestricted authority to reproduce, distribute, and use any submitted report, data, or material, and any software or modifications in accordance with a mutually agreed upon software license agreement set forth in Section 30, SOFTWARE LICENSING, as well as any associated documentation that is designed or developed and delivered to the State as part of the performance of the Contract. For the avoidance of doubt, the State only gets ownership rights for intellectual property they own, not for intellectual property they do not own."

**DOA's Response:** DOA accepts Nokia's exception. Therefore, Nokia's revision is included in Section 37 of DOA's Exhibit A (Participating Entity Modifications to Master Agreement).

**28. Upon any notice of noncompliance provided by the State, Contractor shall supply proof of compliance with the specifications. The State of Wisconsin is not a party to these purchases or any dispute arising from these purchases and is not liable for delivery or payment of any of these purchases.

The State of Wisconsin will determine the contractor's participation by checking a box below.
