## Minnesota Exhibit A

### 1. Definitions.

1.1 CPV Members. The Cooperative Purchasing Venture (CPV) program was established by Minn. Stat. § 16C.03, subd. 10, which authorizes the commissioner of the Minnesota Department of Administration (Commissioner of Administration) through its Office of State Procurement (OSP) to enter into a cooperative purchasing agreement for the provision of goods, services, and utilities” with one or more governmental units and other entities as described in Minn. Stat. § 471.59, subd. 1 and Minn. Stat. § 16C.03, subd. 10. Based on this authority, the Commissioner of Administration enters into a joint powers agreement that designates OSP as the authorized purchasing agent for the governmental unit or other entity. Governmental units and other entities joining the program are given an access code which identifies them as CPV members and permits them to access the OSP website to get information about commodities and/or services available on the State of Minnesota (State) contracts. Governmental units and other entities who are not members of the CPV program are not authorized to use the contract prices. The Contractor agrees to provide the contract to CPV members at the same prices, terms, conditions, and specifications. For additional information, visit the OSP website at [www.mmd.admin.state.mn.us](http://www.mmd.admin.state.mn.us).

1.2 State Agencies. This term applies only to State agencies and departments, as defined in Minn. Stat. §§ 15.01 and 15.021.

1.3 Ordering Entity. This term means the Purchasing Entity, and it applies to any State Agency or CPV Member placing an order under the Contract.

1.4 State and State of Minnesota. These two terms apply to the Minnesota Department of Administration, Office of State Procurement (OSP), representing the State of Minnesota as the contracting agency for the Contract. These terms also apply to the State's Office of MN.IT Services when acting within its statutorily defined contracting capacity.

### 2. Prompt Payment and Invoicing.

2.1 The State will pay the Contractor pursuant to Minn. Stat. § 16A.124, which requires payment within 30 days following receipt of an undisputed invoice, or merchandise or service, whichever is later. Terms requesting payment in less than 30 days will be changed to read “Net 30 days.” Notwithstanding the foregoing, the State may pay the Contractor in advance for purchases as allowed pursuant to Minn. Stat. §16A.065.

The payment for each order will only be made for goods received or services actually performed that have been accepted by the ordering entity, and meet all terms, conditions, and specifications of the Contract and the ordering document. All services delivered under an Order must be performed to the State’s satisfaction and in accordance with all applicable federal, state, and local laws, ordinances, rules, and regulations including business registration requirements of the Office of the Secretary of State. The Contractor will not receive payment for work found by the State to be unsatisfactory or performed in violation of federal, state, or local law.

2.2 Invoicing. The invoice must be in the same format as the sample invoice attached to Supplement 2 to Exhibit A, unless an alternative format is approved in writing by the State Authorized Representative, or delegate. See Exhibit A, Supplement 2, for a list of minimum invoice requirements.

2.3 Retainage. Under Minn. Stat. § 16C.08, subd. 2 (10), no more than 90 percent of the amount due under an Order may be paid until the final product of an Order has been reviewed by the State. The balance due will be paid when the State determines that the Contractor has satisfactorily fulfilled all the terms of this Contract and the Order.

3. **No Automatic Renewals.** The State does not agree to any automatic renewals which require the payment of additional fees.

4. **Assignment, Amendments, and Waiver.**

4.1 Assignment. The Contractor may neither assign nor transfer any rights or obligations under this Contract without the prior consent of the State and a fully executed assignment agreement, executed and approved by the authorized parties or their successors.

4.2 Amendments. Any amendment to this Contract must be in writing and will not be effective until it has been executed and approved by the authorized parties or their successors.

4.3 Waiver. If the State fails to enforce any provision of this Contract, that failure does not waive the provision or its right to enforce it.

5. **Termination.**

In addition to Paragraphs 42 and 44 of Exhibit A to the Master Agreement, the State may terminate this Contract for Insufficient Funding:

The State may immediately terminate this Contract if it does not obtain funding from the Minnesota Legislature, or other funding source; or if funding cannot be continued at a level sufficient to allow for the payment of the services covered here. Termination must be by written notice to the Contractor. The State is not obligated to pay for any services that are provided after notice and effective date of termination. However, the Contractor will be entitled to payment, determined on a pro rata basis, for services satisfactorily performed to the extent that dedicated funds are available. The State will not be assessed any penalty if the Contract is terminated because of the decision of the Minnesota Legislature, or other funding source, not to appropriate funds. The State must provide the Contractor notice of the lack of funding within a reasonable time of the State's receiving that notice.

6. **Indemnification.**

In addition to Paragraph 34 of Exhibit A to the Master Agreement, nothing within this Contract, whether express or implied, shall be deemed to create an obligation on the part of the State to indemnify, defend, hold harmless or release the Indemnifying Party. This shall extend to all agreements related to the subject matter of this Contract, and to all terms subsequently added, without regard to order of precedence.

7. **Delivery.**

7.1 All commodities and services furnished will be subject to inspection and acceptance by the Ordering Entity after delivery.

7.2 No substitutions or cancellations are permitted without approval of the Ordering Entity.

7.3 Back orders, failure to meet delivery requirements, or failure to meet specifications in the purchase order or the Contract authorizes the Ordering Entity to cancel the purchase order, or any portion of it, purchase elsewhere, and charge the full increase in cost and administrative handling to the defaulting Contractor.

8. **Warranty.** The Contractor warrants to the Ordering Entity that materials and equipment furnished under the Contract will be free from defects not inherent in the quality required or permitted, and as provided for in Paragraph 21 of the Master Agreement . Work not conforming to these requirements, including substitutions not properly approved and authorized in writing may be considered defective. The Contractor's warranty excludes remedy for damage or defect caused by abuse, modifications not executed by the Contractor, improper or insufficient maintenance, improper

operation, or normal wear and tear and normal usage. If requested, the Contractor shall furnish satisfactory evidence as to the kind and quality of materials and equipment used.

All installation materials and labor shall be guaranteed for a period of 30 days following the date of final acceptance. During the first year following acceptance, the Contractor shall, upon notification by the ordering entity of any malfunctions, make necessary repairs, including labor, travel, and materials, at the Contractor's expense.

**9. Items Offered as New.** All products, materials, supplies, replacement parts, and equipment offered and furnished must be new, of current manufacturer production, and must have been formally announced by the manufacturer as being commercially available, unless otherwise stated in this Contract.

**10. Subcontracting and Subcontract Payment.**

10.1 Subcontracting Allowed. A subcontractor is a person or company that has been awarded a portion of the Contract by Contractor. Only subcontractors that have been approved by the Contract Administrator can be used for this Contract. The list of approved subcontractors is attached and incorporated into this Contract as Supplement 3 to Exhibit A.

10.1.1 After the effective date of the Contract, the Contractor shall not, without prior written approval of the State's Authorized Representative, subcontract for the performance of any of the Contractor's obligations that were not already approved for subcontracting when the Contract was awarded. During this Contract, if an approved subcontractor is determined to be performing unsatisfactorily by the State's Authorized Representative, the Contractor will receive written notification that the subcontractor can no longer be used for this Contract.

10.1.2 The provisions of the Contract shall apply with equal force and effect to all approved subcontractors engaged by the Contractor. Notwithstanding approval by the State, no subcontract shall serve to terminate or in any way affect the primary legal responsibility of the Contractor for timely and satisfactory performances of the obligations contemplated by the Contract.

10.2 Subcontractor Payment. Contractor must pay any subcontractor in accordance with Minn. Stat. § 16A.1245.

**11. Data Disclosure.** Under Minn. Stat. § 270C.65, subd. 3 and other applicable law, the Contractor consents to disclosure of its social security number, federal employer tax identification number, and/or Minnesota tax identification number, already provided to the State, to federal and state agencies, and state personnel involved in the payment of state obligations. These identification numbers may be used in the enforcement of federal and state laws which could result in action requiring the Contractor to file state tax returns, pay delinquent state tax liabilities, if any, or pay other state liabilities.

**12. Intellectual Property Rights and Intellectual Property Indemnification.**

12.1 Definitions. For the purpose of this Section, the following words and phrases have the assigned definitions:

12.1.1 "Documents" are the originals of any databases, computer programs, reports, notes, studies, photographs, negatives, designs, drawings, specifications, materials, tapes, disks, or other materials, whether in tangible or electronic forms, prepared by the Contractor, its employees, agents, or subcontractors, in the performance of this Contract.

12.1.2 "Pre-Existing Intellectual Property" means intellectual property developed prior to or outside the scope of this Contract, and any derivatives of that intellectual property.

12.2 Pre-existing Intellectual Property. Each Party shall retain ownership of its respective Pre-Existing Intellectual Property. The Contractor grants the State a perpetual, irrevocable, non-exclusive, royalty free license for Contractor's Pre-Existing Intellectual Property that are incorporated in the products, materials, equipment, deliverables, or services that are purchased through the Contract.

13. **Copyright.** The Contractor shall save and hold harmless the State of Minnesota, its officers, agents, servants and employees, from liability of any kind or nature, arising from the use of any copyrighted or noncopyrighted compositions, secret process, patented or nonpatented invention, article or appliance furnished or used in the performance of the Contract.

14. **Publicity and Endorsement.**

14.1 Publicity. Any publicity regarding the subject matter of this Contract must identify the State as the sponsoring agency and must not be released without prior written approval from the State's Authorized Representative. For purposes of this provision, publicity includes notices, informational pamphlets, press releases, information posted on corporate or other websites, research, reports, signs, and similar public notices prepared by or for the Contractor individually or jointly with others, or any subcontractors, with respect to the program, publications, or services provided resulting from this Contract.

14.2 Endorsement. The Contractor must not claim that the State endorses its products or services, or make any representations of the State's opinion or position as to the quality or effectiveness of the products or services that are the subject of the Contract without the prior written consent of the State's Authorized Representative. Representations include any publicity, including but not limited to advertisements, notices, press releases, reports, signs, and similar public notices.

15. **Contractor's Documents.** Any licensing and maintenance agreement, or any order-specific agreement or document, including any pre-installation, linked or "click through" agreement that is allowed by, referenced within or incorporated within the Contract whenever the Contract is used for a State procurement, whether directly by the Contractor or through a Contractor's agent, subcontractor or reseller, is agreed to only to the extent the terms within any such agreement or document do not conflict with the Contract or applicable Minnesota or Federal law, and only to the extent that the terms do not modify, diminish or derogate the terms of the Contract or create an additional financial obligation to the State. Any such agreement or document must not be construed to deprive the State of its sovereign immunity, or of any legal requirements, prohibitions, protections, exclusions or limitations of liability applicable to this Contract or afforded to the State by Minnesota law. A State employee's decision to choose "accept" or an equivalent option associated with a "click-through" agreement does not constitute the State's concurrence or acceptance of terms, if such terms are in conflict with this section.

16. **Insurance.** If applicable, prior to execution of the Contract, the Contractor will be required to provide a copy of a Certificate of Insurance, including workers' compensation insurance coverage requirements of Minn. Stat. § 176.181 subd. 2, and other coverages per the insurance requirements if included in the Contract and per the insurance requirements of Supplement 1 of Exhibit A.

17. **Pricing Changes.** No price adjustments or discount reductions are allowed unless approved by the Lead State for the Master Agreement and adopted by the State of Minnesota through a fully executed amendment to this Contract.

18. **Taxes.** Do not add sales tax to the prices being offered. State Agencies hold a Direct Payment Authorization Letter which is used to pay applicable taxes directly to the Department of Revenue. Contractors may go to <http://www.revenue.state.mn.us> to learn about the applicable sales tax (search "Fact Sheet 142").

19. **E-Verify Certification.** For services valued in excess of \$50,000, Contractor certifies that as of the date of services performed on behalf of the State, Contractor and all its subcontractors will have implemented or be in the process of

implementing the federal E-Verify Program for all newly hired employees in the United States who will perform work on behalf of the State. Contractor is responsible for collecting all subcontractor certifications and may do so utilizing the E-Verify Subcontractor Certification Form available at <http://www.mmd.admin.state.mn.us/doc/EVerifySubCertForm.doc>. All subcontractor certifications must be kept on file with Contractor and made available to the State upon request.

**20. Diverse Spending Reporting.** If the total value of the Contract may exceed \$500,000, including all extension options, Contractor must track and report, on a quarterly basis, the amount paid to diverse businesses both: 1) directly to subcontractors performing under the Contract, and 2) indirectly to diverse businesses that provide supplies/services to your company (in proportion to the revenue from this Contract compared to Contractor's overall revenue). When this applies, Contractor will register in a free portal to help report the Tier 2 diverse spend, and the requirement continues as long as the Contract is in effect.

**21. Debarment by State, its Departments, Commissions, Agencies, or Political Subdivisions.** Contractor certifies that neither it nor its principals is presently debarred or suspended by the State, or any of its departments, commissions, agencies, or political subdivisions. Contractor's certification is a material representation upon which the Contract award was based. Contractor shall provide immediate written notice to the State's Authorized Representative if at any time it learns that this certification was erroneous when submitted or becomes erroneous by reason of changed circumstances.

**22. Federal Funds.** Orders funded with federal funds may have additional contractual requirements or certifications that must be satisfied at the time the Order is placed or upon delivery. When applicable, an Ordering Entity will identify in the Order any alternative or additional requirements related to the use of federal funds. By accepting the Order, Contractor agrees to comply with the requirements set forth therein.

22.1 Compliance with Federal Requirements. Federal money will be used or may potentially be used to pay for all or part of the goods, construction or services under the Contract. The Contractor is responsible for compliance with all federal requirements imposed on the funds and accepts full financial responsibility for any requirements imposed by the Contractor's failure to comply with federal requirements.

22.2 Certification regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion. Federal money will be used or may potentially be used to pay for all or part of the work under the Contract, therefore Contractor certifies that it is in compliance with federal requirements on debarment, suspension, ineligibility and voluntary exclusion specified in the solicitation document implementing Executive Order 12549. Contractor's certification is a material representation upon which the Contract award was based.

**23. Supply Chain Security.** Notwithstanding anything else in this Section, this Section does not and shall not limit any other rights of the State under this Contract, including, but not limited to, warranties, acceptance, and return policy, if any.

23.1 Security Practices and Preventive Controls. The Contractor will use reasonable commercial efforts to ensure that the Contractor and any subcontractors or third parties involved in assembling, manufacturing, packaging, distributing, handling, warehousing, transporting or shipping State goods, including goods intended to be but not yet delivered to the State, meet all applicable security standards and all applicable local, state, federal, and international laws, rules and regulations (hereinafter "supply chain security").

Contractor must maintain certification/accreditation in an official supply chain security program and comply with that program's security standards for all orders sourced from the Contract. Official supply chain security program is defined based on the NIST 800-161 as one of the following: ISO/IEC 20243, SAE AS5553 or other SAE standard (as applicable), Customs-Trade Partnership Against Terrorism (C-TPAT), Authorized Economic Operator (AEO) as applicable, or other program accepted in writing by the State, Office of MN.IT Services (f/k/a Office of Enterprise Technology and d/b/a MN.IT or MN.IT Services)("MN.IT") and the State, Department of Administration's Office of State Procurement ("OSP"). To demonstrate certification/accreditation, Contractor must provide to OSP and MN.IT

within one month following the effective date of this Contract or amendment adding this Section, whichever is later, a letter verifying its certification/accreditation in an official supply chain security program. Contractor will promptly notify OSP and MN.IT of any change to its certification/accreditation.

Alternatively, if Contractor is not certified/accredited or loses certification/accreditation, Contractor must complete a MN.IT security form to confirm that it complies with supply chain security. The form will require supporting documentation of any responses and must be completed to MN.IT's satisfaction.

**23.2 Notification of Supply Chain Security Breach.** Contractor will promptly notify OSP, MN.IT, and the ordering entity, if different from MN.IT, of any breach of supply chain security involving State goods, including goods intended to be but not yet delivered to the State. Breach of supply chain security includes, but is not limited to, cargo theft, tampering, unauthorized access, or other activities that involve suspicious actions or circumstances. Goods received with viruses, malware or similar security deficiencies constitute breach of supply chain security.

**23.3 Return/Rejection of Goods.** Notwithstanding anything to the contrary, if a breach of supply chain security has occurred or the State in good faith suspects a breach may have occurred, including evidence that packaging or goods were tampered with or damaged, the State may reject delivery of those goods or return any of those goods already delivered. Breach of supply chain security has the meaning described in the preceding Subsection "Notification of Supply Chain Security Breach." Rejection of delivery or return of goods shall be solely the responsibility and at the cost and expense of the Contractor.

The State may sanitize or destroy components of the goods prior to returning the goods to Contractor or instruct Contractor to promptly sanitize or destroy goods upon their return. Following the completion of any such sanitization or destruction, and upon request by MN.IT, the Contractor shall provide a Certificate of Data Destruction/Sanitization that meets the requirements of the then current version of NIST Special Publication 800-88 or DOD 5220.22-M Supplement. The Certificate of Data Destruction/Sanitization must be provided to MN.IT, if requested, within one month following the return of the goods.

At no additional expense to the State, Contractor must provide within a reasonable time frame replacement goods for any goods that were rejected at delivery or returned due to a supply chain security breach. Any costs and expenses associated with removal or replacement of the goods, including sanitization and destruction costs and expenses, will be the responsibility of the Contractor.

**24. Security and Data Protection.** To the extent applicable, Contractor is responsible for the security and protection of State data subject to and related to Cloud Services in this Contract. The terms, conditions, and provisions of this Security and Data Protection section take precedence and will prevail over any other terms, conditions, and provisions of the Contract, if in conflict. This Security and Data Protection section, including its sub-sections, survives the completion, termination, expiration, or cancellation of the Contract.

**24.1** For the purposes of this Security and Data Protection section, the following terms have the following meanings:

**24.1.1** "Cloud Services" includes "cloud computing" as defined by the U.S. Department of Commerce, NIST Special Publication 800-145 (currently available online at: <http://nvlpubs.nist.gov/nistpubs/Legacy/SP/nistspecialpublication800-145.pdf>) and any other software, hardware, hosting service, subscription, or other service or product by which Contractor stores, transmits, processes or otherwise has access to State data.

**24.1.2** "State" means the State, or a cooperative purchasing venture ("CPV") member when the CPV member is the ordering entity (if CPV purchases are permitted under this Contract).

**24.1.3** "Data" has the meaning of "government data" in Minn. Stat. § 13.02, subd. 7.

24.1.4 "Not public data" has the meaning in Minn. Stat. § 13.02, subd. 8a.

24.1.5 "Security incident" means any actual, successful or suspected: (1) improper or unauthorized access to, viewing of, obtaining of, acquisition of, use of, disclosure of, modification of, alteration to, loss of, damage to or destruction of State data.

24.1.6 "Privacy incident" means violation of the Minnesota Government Data Practices Act (Minnesota Statutes chapter 13); violation of federal data disclosure or privacy requirements in federal laws, rules and regulations; or breach of a contractual obligation to protect State data. This includes, but is not limited to, improper or unauthorized access to, viewing of, obtaining of, acquisition of, use of, disclosure of, damage to, loss of, modification of, alteration to or destruction of State data protected by such State or federal laws or by contract.

24.2 Data Ownership. The State solely and exclusively owns and retains all right, title and interest, whether express or implied, in and to any and all State data. Contractor has no and acquires no right, title or interest, whether express or implied, in and to State data.

Contractor will only use State data for the purposes set forth in the Contract. Contractor will only access State data as necessary for performance of this Contract. Contractor will not access State user accounts except to respond to service or technical problems or at the State's specific request.

All State data, including copies, summaries, and derivative works thereof, must be remitted, in a mutually agreeable format and media, to the State by the Contractor upon request or upon completion, termination or cancellation of the Contract. The foregoing sentence does not apply if the State Chief Information Security Officer or delegate authorizes in writing the Contractor to sanitize or destroy the data and the Contractor certifies in writing the sanitization or destruction of the data. Within ninety days following any remittance of State data to the State, Contractor shall, unless otherwise instructed by the State in writing, sanitize or destroy any remaining data and certify in writing that the sanitization or destruction of the data has occurred. Any such remittance, sanitization or destruction will be at the Contractor's sole cost and expense.

In the event Contractor receives a request to release any State data, Contractor must immediately notify the State's data practices compliance official. The State will give Contractor instructions concerning the release of the data to the requesting party before the data is released. Contractor must comply with the State's instructions to the extent that such instructions align with industry-standard practice and applicable law. The civil remedies of Minn. Stat. § 13.08 apply to the release of the data by Contractor.

24.3 Notification of Incidents. If Contractor becomes aware of or has reasonable suspicion of a privacy incident or security incident regarding any State data, Contractor must report such incident to the State and the State Chief Information Security Officer as soon as possible, but no later than twenty-four (24) hours after such incident. The decision to notify the affected data subjects and the form of such notice following report of a privacy incident or security incident are the responsibility of the State. Notwithstanding anything to the contrary in this Contract, Contractor will indemnify, hold harmless and defend the State and its officers, and employees for and against any claims, damages, costs and expenses related to any privacy incident or security incident involving any State data. For purposes of clarification, the foregoing sentence shall in no way limit or diminish Contractor's obligation(s) to indemnify, save, hold harmless, or defend the State under any other term of this Contract. Contractor will reasonably mitigate any harmful effects resulting from any privacy incident or security incident involving any State data.

24.4 Security Program. Contractor will make best efforts to protect and secure the State data related to this Contract. Contractor will establish and maintain an Information Security Program ("Program") that includes an information security policy applicable to any and all Cloud Services ("Policy"). Contractor's Program and Policy must

align with appropriate industry security frameworks and standards such as National Institute of Standards and Technology (“NIST”) 800-53 Special Publication Revision 4, Federal Information Processing Standards (“FIPS”) 199, Federal Risk and Authorization Management Program (“FedRamp”), or Control Objectives for Information and Related Technology (“COBIT”).

Upon the State’s request, Contractor will make its relevant Policy available to the State on a confidential, need-to-know basis, along with other related information reasonably requested by the State regarding Contractor’s security practices and policies. Unless inconsistent with applicable laws, Contractor and the State must treat the Policy and related information on security practices and policies that are specific to the State as confidential information and as not public data pursuant to Minn. Stat. § 13.37.

24.5 Data Management. Contractor will not use State data, including production data, for testing or development purposes unless authorized in writing by the State Chief Information Security Officer or delegate. Contractor will implement and maintain procedures to physically and logically segregate State data, unless otherwise explicitly authorized by the State Chief Information Security Officer or delegate.

24.6 Data Encryption. Contractor must encrypt all State data at rest and in transit, in compliance with FIPS Publication 140-2 or applicable law, regulation or rule, whichever is a higher standard. All encryption keys must be unique to State data. Contractor will secure and protect all encryption keys to State data. Encryption keys to State data will only be accessed by Contractor as necessary for performance of this Contract.

24.7 Data Storage. Contractor warrants that any and all State data will be stored, processed, and maintained solely on designated servers and that no such data at any time will be processed on or transferred to any portable computing device or any portable storage medium, unless that storage medium is in use as part of the Contractor's designated backup and recovery processes.

24.8 Data Center and Monitoring/Support Locations. During the term of the Contract, Contractor will: (1) locate all production and disaster recovery data centers that store, process or transmit State data only in the continental United States, (2) store, process and transmit State data only in the continental United States, and (3) locate all monitoring and support of all Cloud Services only in the continental United States. The State has the right to on-site visits and reasonable inspection of the data centers upon notice to Contractor of seven calendar days prior to visit.

24.9 Security Audits & Remediation. Contractor will audit the security of the systems and processes used to provide any and all Cloud Services, including those of the data centers used by Contractor to provide any and all Cloud Services to the State. This security audit: (1) will be performed at least once every calendar year beginning with 2016; (2) will be performed according Statement on Standards for Attestation Engagements (“SSAE”) 16 Service Organization Control (“SOC”) 2, International Organization for Standardization (“ISO”) 27001, or FedRAMP.

Upon the State’s reasonable, advance written request, Contractor will provide to the State a copy of the Contractor Security Audit Results Report.

Contractor will make best efforts to remediate any control deficiencies identified in the Contractor Audit Report in a commercially reasonable timeframe.

If the State becomes aware of any other relevant Contractor controls that do not substantially meet the State’s requirements, the State may request remediation from Contractor. Contractor will make best efforts to remediate any control deficiencies identified by the State or known by Contractor, in a commercially reasonable timeframe.

24.10 Subcontractors and Third Parties. Contractor warrants that no State data will be transmitted, exchanged or otherwise provided to other parties except as specifically agreed to in writing by the State Chief Information Security Officer or delegate. Contractor must ensure that any contractors, subcontractors, agents and others to whom it

provides State data, agree in writing to be bound by the substantively same restrictions and conditions under this Contract that apply to Contractor with respect to such data.

Compliance with Data Privacy and Security Laws and Standards. Contractor shall comply with all applicable State and federal data privacy and data security laws, rules, and regulations.

24.11 Remedies. Contractor acknowledges that the State, because of the unique nature of its data, would suffer irreparable harm in the event that Contractor breaches its obligation under this Security and Data Protection section, and monetary damages may not adequately compensate the State for such a breach. In such circumstances, the State will be entitled, in addition to monetary relief, to injunctive relief or specific performance as may be necessary to restrain any continuing or further breach by Contractor, without showing or proving any actual damages sustained by the State.

24.12 Business Continuity. Contractor shall have written business continuity and disaster recovery plans that define the roles, responsibilities, and procedures necessary to ensure that Cloud Services provided under this Contract shall be maintained continuously in the event of a disruption to the Contractor's operations, regardless of the cause of the disruption. Such plans must, at a minimum, define the Contractor's actions to address the impacts of the following key areas likely to cause a disruption to Contractor's operations: loss of key personnel, loss of facility, and loss of information technology. Contractor must conduct testing and review of its business continuity and disaster recovery plan at least annually. Upon State request, Contractor must also participate, at mutually agreed upon times, no more than once per year, in State business continuity and disaster recovery testing, training, and exercise activities.

Any term or condition that allows the Contractor to terminate the Contract for any or no reason (i.e., termination for convenience) is null and void. In the event of termination or cancellation of this Contract for any reason, the Contractor shall continue to provide any then-existing Cloud Services for as long as the State needs to transfer its data, software and other assets to an alternate service or service provider. After any such termination or cancellation, the State may purchase the continuing Cloud Services at the pricing in effect prior to such termination or cancellation. The fee for any such purchase shall be prorated for the period of time needed, as determined by the State, and shall be reduced by the amount paid for Cloud Services that were not used prior to such termination or cancellation. The amount of any such fee reduction shall be determined on a pro-rata basis. The Contractor shall refund to the State any unused portion of payments for Cloud Services.

24.13 Background Checks. Contractor represents that it has conducted and will conduct background investigations into all of Contractor's agents, employees, and subcontractors that will provide Cloud Services to the State. Such background investigations must have been or will be conducted by investigating local, state and federal criminal records, local, state and federal civil case records, and employment references.

If any provision of this sub-section is found to violate any applicable laws, rules, or State policies, then the Contractor will be relieved of all obligations arising under such provision. Notwithstanding anything to the contrary in this sub-section, this sub-section is only applicable and effective to extent that it is consistent with applicable laws, rules, and State policies.

24.14 Secure Coding. Contractor warrants that all Cloud Services are free from any and all defects in materials, workmanship, and design. Contractor warrants that all Cloud Services are free from any and all viruses, malware, and other harmful or malicious code. Contractor must scan all source code for vulnerabilities, including before and after any source code changes are made and again before being placed into production, and must promptly remediate any and all vulnerabilities. Contractor must follow best practices for application code review and the most current version of the OWASP top 10.

24.15 Compliance with Data Privacy and Security Laws and Standards. Contractor shall comply with the applicable State of Minnesota Information Security Policy & Standards incorporated herein by reference and available at <https://mn.gov/mnit/government/policies/security/>, to the extent that such policies and standards (1) align with industry standard security frameworks (e.g. NIST, ISO 27001, etc.), (2) do not materially increase the cost of providing services under this Agreement, (3) do not endanger Contractor security, and (4) do not violate confidentiality obligations.

Contractor shall comply with the Health Insurance Portability Accountability Act ("HIPAA"), the HITECH Act, and other similar privacy laws. Contractor also shall comply with the HIPAA Privacy Rule, HIPAA Security Rule, and other similar rules, regulations, and laws, including future amendments thereto.

Contractor shall comply with all applicable requirements, restrictions, and conditions set forth in the Criminal Justice Information Services ("CJIS") – Security Policy, Version 5.3, dated 8/4/2014, including, but not limited to, conducting FBI fingerprint background checks on all of Contractor's agents, employees, and subcontractors that have or will have access to Criminal Justice Information ("CJI").

Contractor acknowledges that for the purposes of this Contract when storing, processing, transmitting or otherwise accessing State data subject to the Family Educational Rights and Privacy Act ("FERPA"), it is designated as a "school official" with "legitimate educational interests" in State data and associated metadata, as those terms have been defined under FERPA and its implementing regulations, and Contractor agrees to abide by the limitations and requirements imposed by 34 CFR 99.33(a) on school officials. Contractor shall use State data only for the purpose of fulfilling its duties under the Contract and it will not monitor or share such data with or disclose it to any third party except as provided for in this Contract, as required by law, or as authorized in writing by the State. By way of illustration and not of limitation, Contractor will not use such data for Contractor's own benefit and, in particular, will not engage in "data mining" of such data or communications, whether through automated or human means, except as necessary to fulfill its duties under this Contract, or as specifically and expressly provided for in this Contract, as required by law, or authorized in writing by the State. Contractor agrees, upon request, to provide the State with a written summary of the procedures Contractor uses to safeguard State data.

Contractor shall comply with IRS Publication 1075, Exhibit 7, which is incorporated herein.

For the term of this Contract, Contractor will maintain a provisional Authority to Operate (ATO) at the Moderate Level from the Federal Risk and Authorization Management Program (FedRAMP) Joint Authorization Board (JAB) or Federal Agency for any and all Cloud Services provided under this Contract.

For the term of this Contract, Contractor will maintain an ISO 27001 Certification for any and all Cloud Services provided under this Contract.

**25. Organizational Conflicts of Interest.** In addition to Paragraph 19 of Exhibit B to the Master Agreement, to the best of Contractor's knowledge, execution and performance of this Contract does not give rise to a Conflict of Interest (as defined below). Each party agrees to promptly notify the other if, at any time during the term of this agreement, either party becomes aware that it has an actual or potential conflict of interest, including any relationship that may impair the party's objectivity or ability to perform its obligations hereunder (a "Conflict of Interest"). Upon such notice, the parties will meet and engage in good faith negotiations to resolve the alleged or potential conflict in accordance with the dispute resolution provision set forth in the Master Agreement. If the parties are unable to resolve the conflict after a reasonable time, the parties may mutually agree to terminate this Addendum.

**26. State's Rights and Remedies Cumulative.** All rights and remedies provided in the Contract are cumulative and not exclusive of any other rights or remedies that may be available to the State, whether provided by law, equity, statute or otherwise.

**27. No Mandatory Mediation or Arbitration.** Any term or condition that requires the parties to mediate or arbitrate is null and void. Voluntary dispute resolution procedures are valid to the extent allowed by law.

Sample Quote and Invoice**

Attached is a sample invoice and quote.

Contractor is required to use the sample quote and sample invoice for all transactions under this Contract. Contractor may not materially change either document unless the change has been approved in writing by the State's Authorized Representative. Contractor may not modify the sample quote or sample invoice to provide less detail regarding purchases under this Contract. Contractor hereby waives the right to enforce any term in either sample which contradicts or modifies any term of the solicitation or any Contract that may result, including subsequent amendments to the Contract, or would result in an unencumbered expense if enforced against the state or its CPV members. The State anticipates the sample quote and sample invoice will contain, at a minimum:

- Customer name
- State Contract number field
- Item/service description
- Item quantity or service hours
- List price
- Price after discount
