Definition of zones: Special Flood Hazard Area (SFHA) zones have a 1-percent-annual-chance flood (or 100-year) and are labeled A or V. Moderate flood hazard areas are labeled Zone B and the areas between the limits of the 1-percent-annual-chance and the 0.2-percent-annual-chance flood (or 500-year). The areas of minimal flood hazard, which are the areas outside the SFHA and higher than the elevation of the 0.2-percent-annual-chance flood, are labeled Zone C or Zone X. Areas in zone D have not been mapped, but may still participate in the National Flood Insurance Program. For more information visit <https://www.fema.gov/national-flood-insurance-program>.
