# Infusing Interprofessional Activities and Simulations into Health Care Professions Programs

# Learning Objectives

- Explore potential barriers and facilitators that may impact IPE implementation
- Identify measures and assessment tools that can be used to evaluate the impacts and effectiveness of IPE programs
- Create ways to effectively incorporate IPE activities and simulations into curricula

# SVSU College of Health and Human Services

- Occupational Therapy
- Nursing
- Social Work
- Kinesiology
- Athletic Training
- Medical Lab Sciences
- Health Science
- Physical Education

# IPE activities for students

# IPE activities for faculty

# Lessons Learned

- Barriers encountered
- Facilitators for success
- Opportunities
- Impacts on faculty, community and students
- Future.....

# Discussion
