First Student Drivers to Compete at NSTA Event 2-2-2-2

Drivers qualified for the event by placing in the top 10 of their state or province competition. Many First Student drivers competed in regional, state and provincial competitions throughout the spring leading up to the International event.

At First Student, the safety and security of the students we transport is our core value and something our drivers take very seriously. All First Student drivers receive more than 50 hours of training before driving one of the company's school buses. In addition to each state's mandated training, First Student drivers participate in in-service safety meetings throughout the year to discuss various topics.
