LoiLoNote School Pilot School Program

Heard enough to get interested, but want to **find out for yourself** what the LoiLoNote School app can do? Then our **LoiLoNote School Pilot Program** could be for you!

Our Pilot School Program offers you the following **great benefits**:

- ★ **Unlimited access** to the School/District Account
- ★ **Generous** trial usage period of 1 whole calendar year!
- ★ **Free** unlimited Cloud storage - store as much data as you like!
- ★ **Free** full training and support
- ★ **Unlimited** number of student accounts
- ★ **Handy admin features** to make managing the app even easier
- ★ **Discounted pricing** after the pilot for purchasing schools

With the **School/District Account**, you can create as many Teacher and Student accounts as you like and enjoy limitless Cloud storage for safekeeping student and teacher work. It also comes with one **Admin account** to oversee and manage all the app-related information for your School/District.

BENEFITS FOR YOU

enhanced admin features such as **account personalization** and **SIS integration**

edit registered data such as user and school subject names etc.

import existing class rosters with time-saving **batch data upload**

ongoing support and troubleshooting assistance for the entire trial period

online/onsite **PD webinars/workshops** to help you implement the app in a **meaningful** way and obtain the **results** you want!

All that we ask of Pilot Schools in return is that you complete a **short feedback form** at the end of the pilot school trial period. Simply put, we want to hear about **your experience** of integrating the app in your school, so that we can **share examples** of real-life users' experiences and **improve the app** for current and prospective users.

If you're interested in this opportunity, please **contact us below** and we'll set up your Pilot School account! It doesn't take very long - all we need is a few pieces of (non-personal) information in order to create your school's account, then you can **download the app** onto your tablet devices and **get started** right away!
