

LAUNDRY SERVICE

The facilities of laundries throughout the country are being taxed to the limit due to the tremendous increase in the volume of business since the beginning of the war. One of the results of this increase in volume has been a lengthening of the time required to clean and launder clothing. For this reason the local Laundry cannot promise less than ten to twelve days service than can be obtained at laundries in the surrounding communities.

Your local Laundry is striving at all times to give you the very best in quality of work and as good service as is possible to obtain under present conditions.

The full cooperation of the residents of this community will materially assist the Richland Laundry in giving the kind of service that you expect and that they are making every effort to deliver.

Won't you help by observing the following suggestions:

1. Don't count on less than twelve-day laundry and dry cleaning service, however at times it may be less.
2. For your own protection, make a duplicate laundry list, keep the original and put the copy in your bundle. Check and double check to be sure this list is correct before turning in your bundle. The Laundry cannot be responsible for laundry unless this list is submitted.
3. With the exception of a 20-minute closing period necessary for sorting returned laundry and dry cleaning, the Laundry is open from 10:00 A.M. until 8:00 P.M. After this time, laundry may be deposited in a chute provided at right of door.
4. Please keep in mind that the actual dry cleaning and laundering is done in Yakima, Washington. It is therefore at times impossible for the local Laundry to give you an accurate price on certain types of pressing and dry cleaning. This is particularly true of women's wearing apparel. The local Laundry will always be glad to make an estimate when the actual cost is not known.
5. Laundry is sent to Yakima for processing just after noon each day. In order to get the quickest possible service, be sure that your bundle is at the Laundry previous to this time each day, otherwise it may not go out until the following day.
6. "Your laundry is as close to you as your telephone" - Use your telephone before making a special trip to the Laundry to see if your laundry has been returned. The Laundry will be glad to give you this information - Just call Richland 62.
7. The Laundry will be glad to serve you in every possible way, however, please don't be unreasonable in your requests.
8. Mrs. Martha T. Kelley, Laundry Manager, will be glad to answer any further questions regarding the Laundry. Phone Richland 62.
