

THREE FIRE HYDRANTS DAMAGED

Three fire hydrants have recently been broken or damaged as a result of careless driving on the part of Village tenants.

The seriousness of this situation lies not only in the heavy expense of repairing the damage but also in the threat to employes' homes and personal effects if a fire should occur while water pressure is low because of a bad break. Drivers are urged to keep their cars off the lawns and ground around houses and to use the parking spaces provided in the compounds.
