South Georgia – 'In Depth'  
(Featuring onboard Photography Symposium)

South Georgia has rightly been called ‘the greatest wildlife show on Earth’ and after our in depth exploration of this remote island in the South Atlantic, we are certain you will agree. This seldom-visited corner of the planet is a place we know intimately and look forward to visiting every season. Even our experienced expedition staff, some with more than 100 journeys into the polar regions, cherish every visit to South Georgia. It really is that remarkable.

Traditionally, our visits to South Georgia last only three or four days and are part of a much longer itinerary that also includes Antarctica. However, after many years of careful preparation and planning, we now offer the unique opportunity to spend eight full days of exploration. This is more than double the time traditionally spent exploring South Georgia.

This particular departure is timed to coincide with the arrival of spring in the Sub-Antarctic region. Early November marks the beginning of the wildlife migration and commencement of the breeding cycle for many species. Scenes of male elephant seals battling for control of the beaches (and the female harems), the intimate and beautiful courtship rituals of the albatross and antics of the young penguin chicks, will have you believing you are ‘on the set’ of your very own wildlife documentary. While the soft light in the mornings and evenings adds to the colour palette for the photographers at this time of the season. For lovers of remote, small-ship expedition cruising, this voyage ticks all the boxes.

Expedition Highlights

› Outstanding wildlife observation on shore, while Zodiac cruising and from the ship
› Focus on key historical locations including Shackleton's grave and old whaling stations
› Onboard photography symposium
› Learn about the environment, wildlife, history and ecology from polar experts
ON THIS TRIP

- Zodiac excursions
- Onshore hiking options
- Wildlife observation
- Photographer-in-Residence
- Sea kayaking available
- Whale watching
- Photography Symposium
- Educational presentations
- Active Cruising & Wellness

IMPORTANT VOYAGE LOGISTICS

This trip commences in Ushuaia (Argentina). We recommend arriving in Ushuaia at least one day prior to the scheduled voyage departure. This gives you a buffer in the event of any unexpected travel delays between home and voyage embarkation and departure. Here we board our expedition ship, charting a course down the Beagle Channel and into the Drake Passage towards Antarctica.

At the conclusion of the trip, we fly from Stanley to Santiago. A transfer is provided from the airport to a central downtown location. This return flight arrives in the late afternoon and onward international flight connections may be possible.

Full joining instructions are provided in your final travel documentation. If you have questions before this time, please ask us.

YOUR DAY-BY-DAY EXPEDITION ITINERARY

**DAY 1 / USHUAIA (ARGENTINA) (WEDNESDAY, 06 NOVEMBER 2019)**

Our journey to Antarctica commences this afternoon in Ushuaia, in southern Argentina. We gather at our central meeting point and transfer to the pier and embark our expedition ship. After settling in to our cabins and exploring the ship, we meet our expedition team and fellow passengers. Excitement is in the air as we enjoy a welcome cocktail and dinner and cast off, bound for Antarctica and the adventure of a lifetime.

**DAYS 2-4 / AT SEA – TOWARDS SOUTH GEORGIA**

This stretch of the South Atlantic is rich in its bio-diversity and showcases an abundance of astonishing wildlife. We are joined by hundreds of seabirds including the wandering albatross. Giant petrels and smaller Cape petrels are also constant companions as make our way to South Georgia. Photographing these magnificent birds takes patience and skill and our photography expert will be on hand to show you the best techniques. Join the ship’s Captain on the bridge and learn about the operations of our modern research vessel. Throughout the day our onboard experts educate us with a series of presentations about the environment, wildlife and history of the locations we hope to visit in the coming days. History is a key theme of this voyage and the epic story of Shackleton is central to our journey.

**DAYS 5-6 / KING HAAKON BAY & THE NORTHWEST COAST OF SOUTH GEORGIA**

Majestic snow-covered mountains greet us on arrival in South Georgia. Weather permitting, we begin our exploration on the southern coastline. We hope to navigate the ship into the very historic location of King Haakon Bay. It was here that Shackleton and his men made landfall in their small lifeboat – the ‘James Caird’, after completing the perilous ocean crossing from Elephant Island, a century ago. This is a very dramatic place, visited by just a handful of ships each season. From here, we make our way around to the more protected waters of the north-eastern coast.

We can now indulge in an in-depth exploration, navigating into the bays and harbours the entire length of the island. Elsehul Bay allows for great Zodiac cruising and will be a possible location we will launch the kayakers for a paddle. One of the most anticipated sites in South Georgia is Salisbury Plain. The black sand beaches and tussock covered dunes are home to a staggering abundance of king penguin adults and their young. The rookery is estimated to have a population of up to 100,000 adult and juvenile penguins. This is just one of several such king penguin rookeries on South Georgia. At the height of breeding season, the rookeries are believed to have more wildlife per square foot than any other place on the planet. The majestic ‘Kings’ are not the only wildlife on display as we explore the rugged coastline. Fur seals can be seen poking their heads above the water, the elephant seals enjoy lazing about the beach, while the skuas and giant petrels fill the skies above. Meanwhile, the albatross – our constant companion on this journey – is never far away.

**DAYS 7-8 / FORTUNA BAY, STROMNESS, GRYTVIKEN & CENTRAL NORTH COAST**

Fortuna Bay is a majestic three-mile long fjord. It was named after the ship ‘Fortuna’ – one of the original vessels of the Norwegian–Argentine whaling expedition which established the first permanent whaling station at Grytviken - further along the coast. History comes into sharp focus as we continue west to Stromness and onto Grytviken. From 1912 until the 1930s, Stromness (and nearby Leith and Husvik), operated as whaling stations and the rusted and ghostly remnants of these old stations seem out of place in such a pristine environment. This area is key to the Shackleton story and it was here in 1916, that Shackleton and his companions, Frank Worsley and Tom Crean, arrived after their epic mountain crossing from King Haakon Bay on the south coast. This is after having completed their 800-mile journey by small boat from Elephant Island in Antarctica.

If the weather co-operates, we hope to hike in Shackleton’s footsteps, the last few miles across the saddle separating Fortuna Bay from neighbouring Stromness. Eventually we enter the broad expanse of Cumberland Bay, anchoring off Grytviken – the largest of the old whaling stations on South Georgia. A
highlight of our landing here is a visit to the grave site of Sir Ernest Shackleton and his loyal right-hand man, Frank Wild.

**DAYS 9-10 / ST ANDREWS BAY, GOLD HARBOUR & EASTERN COAST**

Our next few days take us to St Andrews Bay and Gold Harbour – places that are teeming with wildlife including fur seals, elephant seals and massive colonies of the colourful king penguins. As with all of our landings we will exercise every opportunity to explore on foot with our experienced guides. Gold Harbour is so called because the sun’s rays make the cliffs yellow with their light in the morning and evening. It’s an exhilarating location. Drygalski Fjord at the far eastern extremity of the island has been called one of the most spectacular sites in South Georgia and we think you will agree.

**DAY 11 / GODTHUL & PRION ISLAND**

Our exploration of South Georgia is not over and we navigate our way back along the northern coastline. There are a few special locations we have in mind – including the old whaling depot at Godthul. There is a terrific hike here up to a beautiful lake. Nearing the end of our visit to South Georgia, we hope to enjoy a shore landing at Prion Island – which many consider the jewel in the crown. This location has been designated as a ‘Special Protected Area’ by the South Georgia Government due to the breeding wandering albatross colonies at this location.

Boasting the largest wingspan of any living bird, typically ranging from 2.5 to 3.5 m (8ft to 11ft), albatross spend most of their life in flight, landing only to breed and feed. Distances travelled each year are hard to measure, but one bird was recorded travelling 6000 km in just twelve days. We are exceptionally lucky to be able to attempt a landing here as the site is closed to visiting ships between late November and early January, due to the concentration of fur seals on the beaches. The boardwalks provide access to several observation platforms where we view nesting wandering albatross in close proximity. As we depart South Georgia, we pause to reflect on our time in this spectacular location and chart our return course towards the Falkland Islands.

**DAYS 12-15 / AT SEA TOWARDS FALKLAND ISLANDS**

Our final days are spent catching up on journal entries, or perhaps downloading and reviewing photos in the multi-media lab with our photography expert. For some, it’s a chance to catch some well-earned rest after a busy ten days of exploration. The wonderful lounge and bar on our ship provides fantastic panoramas and is a great place to sit with a book and a hot drink. The educational presentations continue and we enjoy an entertaining and memorable voyage recap by our Expedition Leader. A particular highlight of our return journey will be frequent sightings of the majestic albatross, petrels and other seabirds as they soar above the ship on the winds of the Southern Ocean. Take the time to enjoy a quiet moment on the outer deck and reflect on a truly remarkable journey to the farthest reaches of the planet.

**DAY 16 / ARRIVE STANLEY (FALKLAND ISLANDS) – VOYAGE CONCLUDES – FLY BACK TO SANTIAGO (CHILE) (THURSDAY, 21 NOVEMBER, 2019)**

This morning we find ourselves back in the port of Stanley. We say goodbye to our crew and after some free time in town, make our way to the airport for our return charter flight to Santiago. On arrival in Santiago our journey comes to an end. Onward regional and international flight connections may be possible this evening. Discuss the options with your booking agent. A transfer is provided to a downtown location for those choosing to stay and explore Santiago and the delights of Chile.

ABOUT OUR ITINERARY: Polar exploration can be unpredictable. Specific sites visited will depend on prevailing weather and ice conditions at the time of sailing. The above itinerary should be read as a ‘guide only’ and may change. The ship’s Captain in conjunction with the Expedition Leader continually review the sailing plan throughout the voyage, making adjustments to the itinerary along the way to take advantage of optimal weather and ice conditions or to maximize our encounters with wildlife. Decades of experience spent exploring these waterways mean we have a large number of outstanding landing sites and zodiac cruising locations to consider, even when the weather conditions may not be ideal or when heavy ice may hinder our planned route. A flexible approach is something we encourage you to bring to the ship.

**ALTERNATIVE OPTIONS FOR ‘SOUTH GEORGIA IN DEPTH’:** Consider a longer voyage that includes Antarctica and the Falkland Islands. See the website for details.
YOUR EXPEDITION INCLUDES:

✓ Comprehensive pre-voyage information package including details to help you prepare for your trip
✓ Transfers from central meeting point in Punta Arenas to the airport on Day 1 and from Punta Arenas airport (to a downtown location) on arrival back from Stanley (Day 15). Plus airport/ship transfers in the Falkland Islands
✓ Scheduled flights (Punta Arenas/Stanley – and return)
✓ Shipboard accommodation in your selected cabin category with daily housekeeping. Cabins feature outside views with windows or portholes that open on each deck
✓ All breakfasts, lunches and dinners on board throughout your voyage with daily afternoon tea
✓ 24-hour tea, coffee, hot chocolate in bar/lounge plus in-cabin tea and coffee making facilities
✓ Experienced Expedition Leader and professional expedition team of marine biologists, naturalists, historians, adventure guides and photographers
✓ Daily off-ship excursions by Zodiac boat breaking into small groups for shore landings
✓ Guided hikes and walks on shore of various durations for guests of all abilities
✓ Visits to wildlife colonies, historic sites, places of outstanding natural beauty and science stations
✓ Educational presentations and talks by polar experts in their field (i.e. marine biologists, naturalists, historians etc). On board or on shore
✓ Resident photography guide available to assist all guests plus access to computers in the multimedia lab for image downloads, file back up and management
✓ An emergency trained medical physician on board every voyage
✓ Dedicated hospitality team including Hotel Manager, four chefs, professional bar staff and Adventure Concierge staff
✓ Onboard sauna, plunge pool, Jacuzzi and fitness centre including massage options (charge applies for massage and treatments)
✓ Sea Kayaking program available (additional charge of US$795pp) – must be reserved at the time of booking your voyage and you must have some prior paddling experience
✓ Access to well-stocked polar reference library
✓ End of voyage video, photos and take-home USB
✓ Port fees and all permits to access visited areas

The right gear for your trip – included ✔️

When you travel with One Ocean Expeditions, you have the use of an expedition gear package free of charge. Containing around US$900 worth of essential equipment, this kit includes a quality waterproof/windproof jacket and bib-pants plus insulated rubber boots designed for extended walking. We also include a set of binoculars and a Nordic trekking pole for use when on shore. A waterproof backpack completes your package. This kit saves you buying expensive clothing and equipment you may only ever use once. It also eliminates the need to carry such cumbersome gear to the ship (total weight around 8kg/17lbs).

The Expedition does not include:

› Any international or local airfare unless otherwise specified in the voyage itinerary
› Visa and passport expenses
› Pre or post-cruise hotel accommodation unless otherwise specified in the itinerary (or pre-arranged)
› Pre or post-cruise transfers unless otherwise specified in the itinerary (or pre-arranged)
› Personal expenses on board such as alcoholic beverages, bar charges or laundry expenses
› Telecommunication charges (i.e. email, satellite phone)
› Baggage, cancellation or medical travel insurance related expenses (travel insurance is mandatory on all voyages)
› A voluntary gratuity at the end of the voyage for expedition staff and ship crew (suggested amount – US$15-20 per day)
RCGS RESOLUTE | THE RIGHT SHIP = THE BEST EXPERIENCE

RCGS Resolute offers exceptional onboard facilities and provides an ideal platform for exploring Antarctica. She features the highest ice classification of any passenger vessel in the world. Outstanding observation areas both inside and from the outer decks allow you to be completely absorbed by the coastal landscapes along the way. Our priority is to craft specially designed itineraries that provide you with maximum time in the pristine locations we visit. The vessel has capacity of just 146 guests and we are able to achieve our daily goals by breaking into smaller special-interest groups. There are hiking options onboard, visiting penguin rookeries and wildlife colonies, historic sites and science bases. Cruising in the Zodiacs photographing the icebergs, or observing marine life is a highlight for many. For the more adventurous, sea kayaking is another memorable Antarctic experience. To learn more about this exceptional vessel, request a copy of the Ship Fact Sheet containing detailed specifications and additional information about cabins and other facilities.

BEFORE YOU BOOK – IMPORTANT VOYAGE DETAILS

ABOUT THE ONBOARD PHOTOGRAPHY SYMPOSIUM
An additional highlight of this departure will be the shipboard photography symposium open to all guests. This program runs alongside our regular series of presentations on history, ornithology, geology and the natural world. The members of the photographic team each have a special area of expertise including wildlife photography, landscape and composition, along with technical elements including gear and equipment and computer based processing, file management and storage. We make regular use of our ship-board multi-media studio for breakout sessions and to review and critique our images throughout the voyage. Our photographic goals on this departure will be formed and led by the light available both onshore and on the water. With a varied and diverse itinerary and flexible plans, we aim to make the most out of the beautiful light, even if outside conventional shore landing times. For the photography buffs, this trip is not to be missed!

COMPREHENSIVE PRE-VOYAGE INFORMATION
Upon receipt of your deposit and booking forms, a detailed booklet will be sent to you providing additional information to help you prepare for your voyage. This resource is full of useful facts and covers practicalities such as suggested clothing, life on board the ship, wildlife, geography and history as well as details about the activities available throughout your voyage. Information regarding passports and visas, budgeting, as well as travel insurance requirements are also found in this helpful document.

TRAVEL INSURANCE
On all One Ocean Expeditions’ voyages, you must have comprehensive travel insurance. Your booking agent can recommend a policy designed to cover participants on these voyages. Your policy must provide coverage for your medical costs in case of hospitalization, emergency travel and repatriation.

Please check the terms of your policy carefully, particularly with regard to limits of cover. Also ensure you are familiar with the procedure for making claims. Once you have paid your deposit or full payment, certain fees will apply if you have to cancel your holiday (see the cancellation provisions in our booking terms and conditions). For this reason you should take out travel insurance at the time of paying your deposit, which should then protect you in such a situation. You will be required to send us travel insurance policy details prior to your voyage.

PASSPORTS & VISAS
You will need a valid passport with you throughout the journey. Some nationalities will be required to pay a ‘reciprocity fee’ for entering Argentina and/or Chile. It is important that your passport is valid for at least six months AFTER the expected finish date of your voyage.

SEA KAYAKING
The sea kayaking program is directed at any passenger with an adventurous spirit and some prior paddling experience. This option MUST be reserved at the time of booking and attracts an additional charge of $US795 per participant. You cannot book sea kayaking on board the ship. You will need to complete a special questionnaire outlining your previous kayaking experience. Ask your agent, or our office for a copy of this document if you are interested in joining the sea kayaking program.

THE ONE CLUB – EXPEDITION ALUMNI
Come as a passenger, leave as a friend. Once you have experienced one voyage with us, it’s likely you will want to experience another. Your commitment to travel with us is rewarded with our commitment to you, our valued guest. As members of the One Club Expedition Alumni, your loyalty is rewarded with a range of great travel benefits when you return for your next voyage — no matter the destination. Ask your booking agent for details.

IMPORTANT: The information provided here is given in good faith and has been compiled with all reasonable care. However, some of the information may become out of date. Please keep this in mind and check with us if you want to be sure about anything. The document was correct at time of printing. If you have any queries, please contact your voyage booking agent or our office. We are here to help you.
Supporting Polar Science
One Ocean Expeditions collaborates with various research partners, who are executing important and relevant projects while on-board our expeditions. These projects are funded and assisted by One Ocean Expeditions and our guests. Research may range from collecting data for critical oceanographic studies, to the tagging and tracking of migrant whale populations for universities and science institutions.

World Leading - the World Over
For several years One Ocean Expeditions and The Royal Canadian Geographical Society have maintained a collaborative relationship grounded in geographical education, exploration, science, social and economic community development, Canadian national identity and experiential travel. We are proud to be the exclusive marine travel partner of The Royal Canadian Geographical Society and affiliates.

The Right Team
Fewer than 100 guests on the ship doesn’t mean fewer staff. Quite the opposite. You will come to appreciate the dedication of our expedition team when onboard the ship. The highest staff to guest ratio in the industry (1:4) allows you to experience the broadest range of activities possible, catering to all interests and abilities. We are known for our flexible, yet professional approach and an ability to ‘make it happen’.

INTERESTED IN THIS EXPERIENCE?

When choosing to travel with One Ocean Expeditions we ensure your experience from start to finish, is straightforward and well organized.

Start by customizing your journey and mapping out the trip ahead.

If this sounds like the right trip for you, please discuss your ideas and plans with your preferred booking agent. They will reserve a cabin for you on your chosen voyage. This provides time to book flights to the embarkation points of this voyage and to plan other pre or post voyage travel requirements. Please remember that you will require comprehensive travel insurance to join our voyages. This is best arranged at the time of booking. Following confirmation of your reservation, you will need to complete a detailed One Ocean Expeditions Booking Package plus other pre-voyage documentation to accompany your deposit. At this point your voyage of discovery is underway.

Take advantage of our experience, which spans decades of expedition travel in the Polar Regions. Should you have any questions, we are here to help at any time.

YOUR NOTES:
