

Trip Handicapping AND OptixNOTES

1. Why is trip-handicapping so important?
2. What is different about OptixNOTES?
3. Can you separate the contenders from the pretenders just by using OptixNOTES?

1. Why is trip-handicapping so important?

It's not just about how FAST/SLOW a horse runs, but how they did it. Were there factors that positively or negatively effected their performance? What was the trainer's intention for the race (i.e was it a **PREP?**). What does the effort mean to future performances? (i.e will this horse **IMPROVE?**, **REGRESS?** off this effort).

Numbers and Statistics are important, but they don't tell the whole story

NUMBERS: MEASURED DATA

How fast/slow did the horse run?

DESCRIPTIONS: OBSERVED DATA

How did the horse run fast/slow?

2. What is different about OptixNOTES?

With OptixNOTES, our experts combine their handicapping ability along with their **visual expertise** to create an accurate assessment of a horse's **past, present, and future performance**, enabling you to isolate **contenders and eliminate pretenders** in a way that no other handicapping product can provide.

Traditional v. OptixNOTES

	HORSE	M/L	GRADE	KEYWORDS	PROJECTIONS	COMMENTS
Traditional	MY EMINENCE	12/1				Between foes, willingly
OptixEQ	MY EMINENCE	12/1	B-	TRAFFIC, TROUBLE	STRETCH?	

OptixNOTES Extended Comment: less than ideal trip in debut, tight between through majority of early stages, had lane taken final few yards, acts like a two turn grinding style runner, could probably be super dangerous if able to clear on the stretch-out.

Trip Handicapping AND OptixNOTES

1. Why is trip-handicapping so important?
2. What is different about OptixNOTES?
3. Can you separate the contenders from the pretenders just by using OptixNOTES?

Using OptixNOTES to compare recent
Form vs. Odds in wide-open event

1/8 GP R7
took up sharply inside, forced to check hard and get shuffled back, finished with late interest never really asked

12/19 GP R2
stretch traffic waiting behind horses
