

iGEM --- China Teach the Teacher Workshop

There will be three **Teach the Teachers Workshops** worldwide:

- MIT, USA - May 26
- **Tianjin University, China - June 16-17**
- ETH Zurich, Switzerland - June 27

For more details, please refer to: <http://parts.mit.edu/r/parts/igem/index.cgi>

We welcome your participation!

iGEM is the International Genetically Engineered Machine competition, that is, to facilitate the process of engineering biological devices in living cells by providing a library of standardized parts (Biobricks) to design and build genetic machines.

This April, We successfully held the **Tianjin University Synthetic Biology and iGEM workshop April 2007**.

On June 15th – 18th, 2007, we will hold the Asian Teach the Teachers workshop.

We will also hold an iGEM China, regional meeting on October 1st.

Randy Rettberg, head of the Registry of Standard Biological Parts and Professor Tom Knight from MIT will be our keynote speakers.
