BCM has strict policies for wearing face masks, social distancing and decontamination of instruments and common work surfaces for the safety of its employees and visitors. Research subjects must wear a face mask in order to enter BCM facilities and undergo screening at security that includes measuring temperature. Subjects will be met at security by Principle investigator, or a member of that lab, and escorted to and from the facility. Upon entering CAMRI subjects will be provided a once use disposable surgical mask and other appropriate PPE.

If a research subject tests positive for COVID19 after a visit to CAMRI they should self-report to BCM Occupational Health (OHP): phone 713.798.7880
