

SIZZLER PRO

We've taken the quality construction and affordability of the Summerset Sizzler Series and loaded it up with features inside and out. The Sizzler Professional Series includes 14,000 BTU Cast Stainless Burners for extra power, heat zone separators between burners for extra control, and both interior cooking lights and exterior LED lighting to help take your grilling experience to the next level. The best part is...it won't break your wallet.
