

## Quality Assurance Analyst Employment Positions through *Autism2Work*

### ODP Announcement 19-047

#### AUDIENCE:

Western Region Adult Autism Waiver (AAW) Supports Coordinators and Employment Providers

#### PURPOSE:

To share information about Quality Assurance Analyst employment positions opened to individuals with Autism via the Autism2Work initiative with participants that meet the requirements and qualifications

#### DISCUSSION:

CAI is seeking multiple Quality Assurance Analysts in Pittsburgh, PA.

This is a long term opening that includes a competitive salary, 401k, and full medical benefits.

**In 2013, Computer Aid, Inc. (CAI) launched their Autism 2Work Program with a strategic mission of helping the underemployment of many affected with ASD (Autism Spectrum Disorder) that are looking for opportunities where they can do more, learn more and develop a career in Information Technology.**

This ground-breaking Initiative employs IT professionals that have been affected by Autism. In order to be considered for this role, candidates must have a diagnosis which is on the Autism Spectrum.

In this role, the QA Analyst will provide basic software testing and analytical support to CAI's client businesses both internally and externally. The QA team members will work under the supervision of a QA test lead. This position allows for individuals to gain hands

on knowledge of the QA industry best practices while supporting the client's quality assurance team project release schedules.

- Read and understand business requirements, use cases, scope documents and technical specifications
- Identify, document, track and retest for defects.
- Create and update test scenarios/scripts
- Execute test script within specified timelines.
- Provide proper documentation of test results and output.
- Participate in team activities such as requirements gathering, stand ups and test demos.
- Navigate multiple systems/applications simultaneously.

#### Education and Experience

- Bachelor's degree in any field
- IT industry related background a plus

#### Key Competencies

- Strong problem-solving skills.
- Attention to detail.
- Decision making skills
- Aptitude for technical learning.
- Ability to process new materials on a frequent basis.

Applicants interested in positions can send their resumes to the [Autism2Work@compaid.com](mailto:Autism2Work@compaid.com) and someone will follow up with them for additional steps.
