

PERRIN

2015+ WRX Turbo Inlet Hose

2015-03-24

Thank you for purchasing this PERRIN product for your car! Installation of this product should only be performed by persons experienced with installation of aftermarket performance parts and proper operation of high performance vehicles. If vehicle needs to be raised off the ground for installation, the installer must use proper jacks, jack-stands and/or a professional vehicle hoist for safety of the installer and to protect property. If the vehicle is lifted improperly, serious injury or death may occur! Please read through all instructions before performing any portion of installation. If you have any questions, please contact our tech department prior to starting installation. We can be reached in any of the following methods:

GENERAL MODIFICATION NOTE

Modifications to any vehicle can change the handling and performance. As with any vehicle extreme care must be used to prevent loss of control or roll-over during sharp turns or abrupt maneuvers. Always wear seat belts, and drive safely, recognizing that reduced speeds and specialized driving techniques may be required. Failure to drive a vehicle safely may result in serious injury or death. Do not drive a vehicle unless you are familiar with its unique handling characteristics and are confident of your ability to maintain control under all driving conditions. Some modifications (and combinations of modifications) are not recommended and may not be permitted in your state or country. Consult the owner's manual, service manual, instructions accompanying these products, and local laws before purchasing and installing these modifications. You are responsible for the legality and safety of the vehicle you modify using these components.

SPECIAL NOTES:

- The use of a factory service manual is highly recommended. This can be downloaded at <http://techinfo.subaru.com>.
- This part contains stainless steel has wire reinforcement throughout inside of hose. During installation, if the hose gets bent or flattened, simply bend hose back into shape using your hands.

Parts Included with the PERRIN Turbo Inlet Hose:

- (1) PERRIN Turbo Inlet Hose for 2015 WRX
- (2) Size 48 hose clamp

Installation

1. Raise vehicle off ground using vehicle hoist or proper jack and jack stands. Never support vehicle with a jack as death or injury may occur.
2. Using proper panel removal tool or flat head screw driver, locate and remove (3) plastic fasteners in each left and right wheel well. See picture below.

- Using proper panel removal tool or flat head screw driver, locate and remove (7) plastic fasteners and (2) 12mm headed bolts from lower portion of splash guard. See picture below.

Remove (7) Plastic Fasteners and (2) Bolts

- Remove splash guard from car and move off to the side.
- Locate and remove (2) plastic fasteners and (1) 10mm headed screw from right side fender liner.

Remove (2) Plastic Fasteners and (1) Screw

- Using a flat head screw driver or 8mm nut driver, loosen both clamps securing OEM rubber hose to turbo and intake system. **Note: Hose clamp on intake side of hose may be in a hard to reach location. Using an 8mm socket might be an easier method for removal.**
- Remove OEM rubber hose from engine.
- Install supplied size 48 hose clamps on both ends of PERRIN Inlet hose and install onto engine. **Note: Each end of the hose is a different inside diameter. The large end goes toward the turbo and smaller end goes toward the intake system.**
- Ensure hose is completely pushed onto turbo and intake, then tighten clamps by hand to secure.
- Start engine and make sure it runs normally before proceeding. If car stalls or idles poorly, recheck entire installation.
- Reinstall fasteners into right side fender liner. Then reinstall lower splash guard to vehicle.
- Lower car from vehicle hoist or jack stands and take for a test drive.
