Heartbeat
Carrie Underwood

Verse 1
I love it when we're at a party in a down-town crowd
But I can hear you call me, baby, with the music up loud
Red wine, good times, no I don't mind being with everyone else
And then there's nights like tonight that I, I want you to myself

Chorus
And tonight I wanna drive so far we'll only find static on the radio.
And we can't see those city lights and I love the way you look in a firefly glow
Saying everything without making a sound, a cricket choir in the background
Underneath a harvest moon, standing on your shoes in my bare feet
Dancing to the rhythm of your heartbeat

Verse 2
And I wanna feel it like a kick drum, beating faster in your chest
I wanna feel you holding onto me and make me hold my breath
You pull me closer, my head on your shoulder, baby, we won't need a song
We'll make a fallen star wish, one more slow kiss, what are we waiting on?

Chorus
And tonight I wanna drive so far we'll only find static on the radio.
And we can't see those city lights and I love the way you look in a firefly glow
Saying everything without making a sound, a cricket choir in the background
Underneath a harvest moon, standing on your shoes in my bare feet
Dancing to the rhythm of your heartbeat

Bridge
I wanna feel it like a kick drum, beating faster in your chest

Chorus
And tonight I wanna drive so far we'll only find static on the radio.
And we can't see those city lights and I love the way you look in a firefly glow
Saying everything without making a sound, with a river rolling in the background
Underneath a harvest moon, standing on your shoes in my bare feet
Dancing to the rhythm of your heartbeat
