The Pharaoh Code, Introductory Lesson

by Azizi Amun

Thank You...And Welcome!

- Thank you SO MUCH for getting your hands on **The Pharaoh Code: Master Your Life With The Secrets Of Ancient Egypt.**
- “When the student is ready, the teacher appears” **...you are READY for this!**
- Everything you’ve experienced in life, all of your trials and tests and lessons and struggles, they’ve all led you right HERE, right NOW. The reason is...
- **If your life isn’t the way you want it to be, there’s one simple reason.**

The Reason You Don't Have What You Want Is...

- Human beings like to think of ourselves as *special, different*, and not subject to the same laws of nature as every other form of life on Planet Earth. We **are** special—YOU **are** special—but not in that particular way. The truth is...
- The same laws of nature that hold the Cosmos together are the same laws that determine how plants grow. They're the laws that keep the ocean tides moving in and out, the laws that determine the rise and fall of different nations and civilizations, and the same laws are true **in YOUR personal life, today. *It's all connected.***
- This course is going to teach YOU what the Ancient Egyptian Mystery Schools taught their Initiates—what those laws of nature are, how they work in YOUR life, and how you can **master these laws to become anything and anyone that you desire.**
- When you begin to live in perfect *harmony* with these laws, your life will unfold in a peaceful, abundant, wonderful, and harmonious way. It's a permanent, powerful change from the **inside-out.**

What You're Going To Learn (And How It Works)

- Each of this course's 7 lessons is going to teach you one of these fundamental Laws of Nature...along with a powerful exercise for you to do, and a worksheet to fill out. More on that in a moment.
- The course **Bonuses** are there to help you achieve your goals sooner, faster and more easily. As you will soon discover, the life you're living is an **outer reflection** of how well you understand and use these laws of nature. When you get the inside right, the outside automatically becomes "right" as well—whatever "right" means for YOU.
- However, this is NOT a "passive" process. You **must** participate, pay fill out each lesson's **worksheet**, and most importantly...**do the exercises** so that this transformation can begin to occur in you. If you want results, you MUST do the work. On that note, let's talk for a moment about Sally, Dave, and Sarah.

Sally

- Sally *really* wants a better life. She's tens of thousands of dollars in debt, she wants a relationship that she doesn't have, and even though she has a good job...life just *isn't* fulfilling for her.
- She discovers material like the "Law of Attraction," she reads about it a lot, she talks about it with friends, and maybe even agrees that it sounds like a pretty good idea. Problem is...
- She doesn't really believe that it can work for her. And because of her limiting beliefs, she never actually learns to **take action**. She hopes and wishes for things to get better, but doesn't do any of the work it takes to get there.
- Because of that, Sally just keeps getting older, while nothing changes in her life. The clock keeps ticking, she feels lonely and sad, and just gets more depressed and anxious with each passing year.

Dave

- Dave's life is similar to Sally's in that he doesn't really wake up every day smiling. Things are OK for him, but they could be a lot better.
- His friends are in better shape, making more money, having more fun than him, and he feels inferior and insecure when he compares his life to those of other people in his social circle.
- He reads the same material that Sally read about attraction and manifestation, he follows a couple "gurus," and actually puts what he's learning to work.
- So he has some success here and there. He can manifest an open parking spot now and then, or maybe a nice new job opportunity or promotion every few years, but that's all he believes he can get—so his results are nothing too impressive, nothing to write home about.
- Dave "settles for what he can get," and never really knows what it's like to live his full potential and **best self**.

Sarah

- Now Sarah does the same thing Dave does—she knows to **take action** and really throws herself fully into the process of transformation.
- Instead of letting **limiting beliefs** and **negative childhood programming** get in the way, she simply does what she's told to do, follows all the exercises, has all kinds of amazing experiences and eventually...it just **“clicks!”**
- Once it does, Sarah *becomes that person with the “magic touch.”* Everything she wants, she automatically manifests and creates around her. She goes to her perfect career, finds her perfect husband there, raises a wonderful family while living her dreams and truly has an amazing life—that she created **from the inside-out**.
- She wakes up every morning, **beaming with joy** and in touch with her power to CREATE. She manifests on autopilot now because she did the work to become that person.
- As you go through this course and do all the exercises, ask yourself—am I being **Sally, Dave, or Sarah right now?** Always do your best to be Sarah.

Introductory Assignment

- The ancient Alchemists used the terms “lead” and “Gold” to describe not *pieces of metal...but states of being*. Ways of living. **Versions of YOU!**
- The life you’re living right now is the “*lead*” version of you. The base material. The clay that you’re going to shape into something amazing.
- The version of YOU that you enrolled in this course to become—the YOU with financial abundance, powerful relationships, wonderful health and more—that’s the “Gold” version of you. That’s who you’re going to become.
- **Assignment:** Download, print out, and fill out the “**My Golden Self Worksheet**” you can find right below this video. You’re going to be using that worksheet for the entire course—so it’s incredibly important that before you continue to **Lesson 1**, you print out and fill out that worksheet so you can have it with you the whole time.
- After that, go on over the **Lesson 1 – Your Mind And The Universe**—and I’ll see you there!
