

Bill Christie - Red Deer Public School Board

Education Priorities

1. What specific steps would you advocate to improve the quality of education?

No Response

2. What are the main directions we need to take to develop the full potential of all students?

No Response

3. Please indicate if you strongly disagree, disagree, agree, strongly agree or have no opinion on the following statements

	Strongly Disagree	Disagree	Agree	Strongly Agree	No opinion
Schools currently have enough specialized staff and resources to develop the full potential of all students.		X			
Increased class sizes will hurt the high school completion rate.				X	
The board should provide support for community schools rather than expanding alternative programs.		X			
The school board should make sure that students with special needs should be provided additional supports.			X		
School boards should work with the provincial government to assure access to early childhood education and quality before and after school care programs.				X	
School boards should advocate for the Alberta government to fully fund junior kindergarten and full-day kindergarten as recommended by the Alberta Commission on Learning.				X	
School boards should advocate for the Learning Commission recommendation on class sizes at all grade levels.				X	
School boards should advocate for renewed emphasis on the arts, trades and language learning in their schools.				X	
School boards should advocate for appropriate programs and supports for ESL students.				X

The Roles of the Trustee

1. What are the most important changes that need to be made regarding the role of school boards in Alberta?

The Provincial Government must support and validate School Boards and their local decision making authority. For to long now Prov. Ministries of Education have been centralizing decision making to the Ministry when really the best decisions are made locally. I am in support of persuing the Assurance Model.

2. How can the school board and you as trustee most effectively influence the financial and policy decisions made by the provincial ministry of education?

Open and honest two way communication with the Gov't. and our MLA's. Base our submissions on well prepared business cases with support if need be from our local education partners ie. teachers, parents, students, administration, cupe, media, special local interest groups or societies and perhaps include the City and College as well. A joint submission backed by all of these groups would be very hard for the Government not to consider.

3. Please indicate if you strongly disagree, disagree, agree, strongly agree or have no opinion on the following statements

	Strongly Disagree	Disagree	Agree	Strongly Agree	No opinion
A trustee must be a team player and always defend the decisions of the board, even if the trustee disagrees with those decisions.			X		
All business of the board should be dealt with in open public sessions except when the board is required to protect the privacy of employees or students.				X	
Trustees should actively consult with constituents and school councils on important policy matters.				X	
At times, school boards need to take more active public stands on education issues, even if it means being critical of the provincial government.				X	
The provincial government has seriously undermined the power and authority of trustees and school boards.				X

Education Funding

1. In light of the current funding situation, what strategies should the board use to meet the needs of students and the community?

Teachers and Administration have to evaluate all or most programs that are not required for High School Graduation. Boards in consultation with their staff and community should look at possible ways of increasing

local revenue to offset as much of the Provincial Funding Shortfall as possible.

2. What changes respecting the funding of education would you advocate for?

Just once I would like to see our Special Needs Students programs and assistance 100% funded which it is not. The Prov.Gov't. may try to say that it is but really it is continually underfunded. This means that dollars are taken from other programs to assist.

3. Please indicate if you strongly disagree, disagree, agree, strongly agree or have no opinion on the following statements

	Strongly disagree	Disagree	Agree	Strongly agree	No opinion
Education is adequately funded. School boards can live within their means by "cutting fat".	X				
If a school board cannot balance its budget without harmful cuts to education programs, it should be prepared to run a deficit.		X			
Provincial funding for building and maintaining schools is adequate.		X			
Provincial funding should be sufficient to cover increases to teacher and staff contracts.				X	

Please comment on any of the above statements:

Privatization and Commercialization

1. Should the provincial government continue to use Public Private Partnerships (P3s) for building new schools, what guidelines would you propose be placed on P3 contracts?

No Response

2. What limitations, if any, should the school board place on the involvement of private firms in schools?

No Response

3. Please indicate if you strongly disagree, disagree, agree, strongly agree or have no opinion on the following statements

	Strongly disagree	Disagree	Agree	Strongly Agree	No opinion
Private sector businesses can operate schools more cheaply and efficiently and should be allowed to do so.	X				
The financing, construction and maintenance of a school should be undertaken as a public private		X			

partnership.

Parents should be expected to contribute towards the cost of their children's education by paying school fees and fundraising.

X

School boards should ban commercial advertising in schools.

X

Students should be provided with all necessary books and learning materials at no cost.

X

The public interest is best served by schools that are publicly owned and operated.

X

To address funding shortfalls, schools should be allowed to have corporate sponsors, including naming rights.

X

School Infrastructure

1. What reasons, if any, might you vote for the closure of a school?

I have been through this before and it is not easy. Consideration should be on the numbers of students in the building, costs of operation, education program viability (determined by Administration taking into consideration what is best for the students). I would not want to close a rural school if at all possible as these buildings are usually the church, community hall and meeting place etc. if you close the rural school sometimes it is also means that the community around it will decline as well.

2. Please indicate if you strongly disagree, disagree, agree, strongly agree or have no opinion on the following statements

	Strongly disagree	Disagree	Agree	Strongly agree	No opinion
Additional government funding should be provided to address the infrastructure deficit.			X		
Community schools with small enrolments should be closed so that larger schools can offer more programs.	X				
The school board should work with the province to provide wrap around services in schools.				X	
Some schools should be closed so that the province will build new schools in new neighbourhoods.	X				
Schools are a part of the community and should be open to other community activities.				X	

Boards should advocate for changing the province's school utilization formula to account for space used in after school care and other community uses.
