## Education Priorities

### 1. What specific steps would you advocate to improve the quality of education?

more transparency is how dollars are actually being spent and lobbying the government for more money.

### 2. What are the main directions we need to take to develop the full potential of all students?

More money alone wo't t fix all the problems. We need to tap into the community for volunteers. If a grade 2 class has 30 students and the teacher doesn't have time to individually read with all the kids who are struggling, why can't stay at home mums help by volunteering in the classroom. It takes a community to raise children. I know I wanted to help in the classroom but the teacher didn't approve
