

Steve Chapman – Ward 8 - 9 – Calgary Board of Education

Education Priorities

1. What specific steps would you advocate to improve the quality of education?

School trustees do not improve the quality of education.. they are a means for which parents and teachers can do so within a cost effective structure.

2. What are the main directions we need to take to develop the full potential of all students?

Communicate with students, teachers and parents so that we focus on the process and not the milestones. Passion with purpose.

3. Please indicate if you strongly disagree, disagree, agree, strongly agree or have no opinion on the following statements

	Strongly Disagree	Disagree	Agree	Strongly Agree	No opinion
Schools currently have enough specialized staff and resources to develop the full potential of all students.		X			
Increased class sizes will hurt the high school completion rate.				X	
The board should provide support for community schools rather than expanding alternative programs.		X			
The school board should make sure that students with special needs should be provided additional supports.				X	
School boards should work with the provincial government to assure access to early childhood education and quality before and after school care programs.				X	
School boards should advocate for the Alberta government to fully fund junior kindergarten and full-day kindergarten as recommended by the Alberta Commission on Learning.				X	
School boards should advocate for the Learning Commision recommendation on class sizes at all grade levels.				X	
School boards should advocate for renewed emphasis on the arts, trades and language learning in their schools.				X	
School boards should advocate for appropriate programs and supports for ESL students.				X	

Please comment on any of the above statements:

The Roles of the Trustee

1. What are the most important changes that need to be made regarding the role of school boards in Alberta?

We need to stop thinking of ourselves as a solution but as a means to a solution.. Nothing is more powerful than an aware and focused electorate.

2. How can the school board and you as trustee most effectively influence the financial and policy decisions made by the provincial ministry of education?

understand the needs of our students, create an effective and functional budget - present the accurate numbers to the province for funding

3. Please indicate if you strongly disagree, disagree, agree, strongly agree or have no opinion on the following statements

	Strongly Disagree	Disagree	Agree	Strongly Agree	No opinion
A trustee must be a team player and always defend the decisions of the board, even if the trustee disagrees with those decisions.		X			
All business of the board should be dealt with in open public sessions except when the board is required to protect the privacy of employees or students.				X	
Trustees should actively consult with constituents and school councils on important policy matters.				X	
At times, school boards need to take more active public stands on education issues, even if it means being critical of the provincial government.				X	
The provincial government has seriously undermined the power and authority of trustees and school boards.			X		

Please comment on any of the above statements:

Education Funding

1. In light of the current funding situation, what strategies should the board use to meet the needs of students and the community?

There is enough money... it is not a funding problem but a spending problem

2. What changes respecting the funding of education would you advocate for?

We need to fully focus on what we are trying to gain and rethink our spending model.

3. Please indicate if you strongly disagree, disagree, agree, strongly agree or have no opinion on the following statements

	Strongly disagree	Disagree	Agree	Strongly agree	No opinion
Education is adequately funded. School boards can live within their means by "cutting fat".		X			
If a school board cannot balance its budget without harmful cuts to education programs, it should be prepared to run a deficit.				X	
Provincial funding for building and maintaining schools is adequate.				X	
Provincial funding should be sufficient to cover increases to teacher and staff contracts.		X			
<i>Please comment on any of the above statements: teachers are the cornerstone of our product to the consumer. Without them we are buildings that provide day care. adequate compensation should be a critical concern of the school board</i>					

Privatization and Commercialization

1. Should the provincial government continue to use Public Private Partnerships (P3s) for building new schools, what guidelines would you propose be placed on P3 contracts?

Yes.. P3 contracts can work very effectively if properly used

2. What limitations, if any, should the school board place on the involvement of private firms in schools?

Sorry.. too broad a question to answer adequately here at this time

3. Please indicate if you strongly disagree, disagree, agree, strongly agree or have no opinion on the following statements

	Strongly disagree	Disagree	Agree	Strongly Agree	No opinion
Private sector businesses can operate schools more cheaply and efficiently and should be allowed to do so.		X			
The financing, construction and maintenance of a school should be undertaken as a public private partnership.				X	
Parents should be expected to contribute towards the cost of their children's education by paying school fees and fundraising.				X	

School boards should ban commercial advertising in schools.	X	
Students should be provided with all necessary books and learning materials at no cost.		X
The public interest is best served by schools that are publicly owned and operated.	X	
To address funding shortfalls, schools should be allowed to have corporate sponsors, including naming rights.		X

Please comment on any of the above statements: Our final and overwhelming focus must be to educate our children to the best of our ability. We must start thinking of new strategies to ensure that happens. Funding outside the government is crucial

School Infrastructure

1. What reasons, if any, might you vote for the closure of a school?

Schools are more than just buildings. Communities are always in flux and change. What worked 20 years ago may not be the most effective use of resources today and we have to keep an open mind to what is going to work best with the resources we have.

2. Please indicate if you strongly disagree, disagree, agree, strongly agree or have no opinion on the following statements

	Strongly disagree	Disagree	Agree	Strongly agree	No opinion
Additional government funding should be provided to address the infrastructure deficit.			X		
Community schools with small enrolments should be closed so that larger schools can offer more programs.					X
The school board should work with the province to provide wrap around services in schools.			X		
Some schools should be closed so that the province will build new schools in new neighbourhoods.			X		
Schools are a part of the community and should be open to other community activities.				X	
Boards should advocate for changing the province's school utilization formula to account for space used in after school care and other community uses.			X
