. What specific steps would you advocate to improve the quality of education?

Those solutions offered on Public interest Alberta's website are some of the most apparent and pressing issues that our children are facing today. I will utilize my experience, passion and hard work to ensure that improvements are achieved.

2. What are the main directions we need to take to develop the full potential of all students?

Students can only achieve their full potentials when adequate funding is sustained, opportunities(programs) are available and are increasing not decreasing and learning support services are available and improving.

1. What are the most important changes that need to be made regarding the role of school boards in Alberta?

We already have the sound educational practices. Now we need to be able to obtain the required funding, year after year (inflation indexed), to maintain the high standard of education that EPSB delivers without exception.

2. How can the school board and you as trustee most effectively influence the financial and policy decisions made by the provincial ministry of education?

We need to be steadfast in our bottom line to adequately fund the EPSB year upon year and we must rally the Community to back us in this mission whether it be through public outreach or contact with their MPs.

A trustee must be a team player and always defend the decisions of the board, even if the trustee disagrees with those decisions.		X			
All business of the board should be dealt with in open public sessions except when the board is required to protect the privacy of employees or students.		X			
Trustees should actively consult with constituents and school councils on important policy matters.				X	
At times, school boards need to take more active public stands on education issues, even if it means being critical of the provincial government.				X	
The provincial government has seriously undermined the power and authority of trustees and school boards.				X

1. In light of the current funding situation, what strategies should the board use to meet the needs of students and the community?

Regardless of the situation, we have to work within our financial means. One of the best ways to reinforce and improve our voice is by having strong community supports and a strong voice.

2. What changes respecting the funding of education would you advocate for?

No Response

Education is adequately funded. School boards can live within their means by "cutting fat".	X				
If a school board cannot balance its budget without harmful cuts to education programs, it should be prepared to run a deficit.				X	
Provincial funding for building and maintaining schools is adequate.				X	
Provincial funding should be sufficient to cover increases to teacher and staff contracts.					X

1. Should the provincial government continue to use Public Private Partnerships (P3s) for building new schools, what guidelines would you propose be placed on P3 contracts?

I don't believe that this is the best option for our children given that (P3s) are already experiencing a variety of challenges ranging from overcrowding to inadequate maintenance. Another issue is that they do not offer the community any after hours service.

2. What limitations, if any, should the school board place on the involvement of private firms in schools?

I feel that the private firms are reaping personal gain at the expense of tax dollars by utilizing the experience and branding of the EPSB among other things.

3. Please indicate if you strongly disagree, disagree, agree, strongly agree or have no opinion on the following statements

Students should be provided with all necessary books and learning materials at no cost.				X	
The public interest is best served by schools that are publicly owned and operated.				X

1. What reasons, if any, might you vote for the closure of a school?

If it has a very low enrollment, it is simple not cost effective to operate and, therefore, must be considered for closure.

Some schools should be closed so that the province will build new schools in new neighbourhoods.		X			
Schools are a part of the community and should be open to other community activities.				X
