

Nov. 7. 1866. 8, YORK PLACE. W.

My dear Child,

I was thinking of you yesterday before your note came for I had said the two papers.

Your house troubles are shocking enough. I only hope they have not involved you. Do be firm against hodmen, bricklayers, joiners, & all kinds of workmen, but above all against architects who

are master-builders of mass miseries.

11 YORK PLACE, N.Y.

I wish I could come & see you
but I am at least fixed at
home after many wanderings
to the north & west. If how-
ever I come S. E. I will
not fail to look in upon
you.

As to a Priest if I can,
find one to recommend I
will not forget you.

Undeem to the very ill be.

haved people & fewer. I hope
they ~~have~~ not burnt you since
you wrote.

With my kind regards to ^{Dr. G. H. H. H.}
Always very affly yours.
