

## Hoschton Methodist Church

In the early years of the Hoschton Church, the people use to meet with the Presbyterians. The services were held in the Presby. Church on the odd Sundays of the month. The people were all members of the Bethlehem Church but the roads were not good and the church was a good way from town, so the Meth. met in Hoschton.

In 1905, the first official body was formed and in 1906 the first church building was erected. It still stands in Hoschton. The materials for the church came from different men. Mr. Hosch gave the lumber, Mr. Wilson gave the paint, Mr. Lott gave some of the furnishings, and Mr. Sell gave all of the nails. Then too the people gave of their time in the building of the Church. Not one cent was spent in the labour and just a small sum was spent in the actual building. This was the second church to grow out of the membership of Bethlehem.

The parsonage was built in the same year as the church building.
