Earliest records give no information as to date or founders of this church. Verbal information from older members state that congregation first met in school house -- later in building for both Methodist and Baptists built by Pepperell Manufacturing Company.

Pepperell Manufacturing Company was begun as Massachusetts Mills when land was purchased in 1895. Mill began production spring, 1896. As village grew, people worshipped at revivals, etc.

Lindale Methodist stopped using church with Baptists which was built by Pepperell in 1904. Met for several years at the Silver Creek Presbyterian Church on alternate Sundays.

Record with church roll was found by R. J. McCamy among his father's possessions.

Present building erected in 1914 - 1917 during Rev. Claud Hendricks pastorate.
