

Rogers Methodist Church ²⁸

The Rogers Church was built sometime in the early 1800 in 1808 Rev. J.E. England was the pastor then.

The building was a two story at that time. The Masons used the upper story. Several years after 1884 they tore down the old building & built the present church which stands today. At this early date Auloder Rogers, Union, & Arnold churches were all together.

Records
were not good
& people didn't
remember too much.
