Can This PLR Be Used For Website Flipping?

If you add this PLR to a site and decide to sell it, that's fine.
But it can only be sold on sites that come with a unique domain name.

Can I put this PLR in a Template-style Website for Resale?

This PLR package may NOT be used to create template-style websites filled with these PLR articles and then sell those template websites to multiple buyers. That falls into the category of reselling this PLR as PLR and that is a No-No.
