

# Porzio Compliance Modules

*Simplify Your Compliance Efforts*

With federal and state legislation and regulations in a constant state of flux, your compliance program must be adaptive and comprehensive.

**Porzio Compliance Modules (PCMs)**, available on the Internet or CD, feature color-coded matrices that provide at-a-glance information on state-specific laws and regulations. Our PCMs cover the latest compliance regulations and reflect our continual review of voluminous statutes, agency rules and mandates.

## **Web-Based Modules**

### **Legend Drug and Controlled Substance Sampling Modules**

Each module provides an overview of regulations for traditional and alternative sampling methods, specifically coupons, vouchers and rebates. Modules address the means of compliant prescription drug sampling to physicians, including representative sample distribution, common carrier programs and alternatives to sampling.

### **Distribution: Trade & Sample**

Module details regulations related to product distribution, including record keeping mandates, requirements for applications and licenses, storage and handling procedures, and violations.

Contact us today for details on our products and services.

### **Transparency and Limitations**

Provides an overview of laws, regulations and pending legislation pertaining to industry interactions with healthcare practitioners and consumers. Module includes a summary of state and federal requirements and restrictions related to marketing and sales, prescriber data, drug pricing, PBMs, clinical trials and advertising.

### **Pedigree Requirements**

Module offers updates on both enacted and pending pedigree requirements in the PDMA, all 50 states and the District of Columbia.

## **Customized Modules**

### **Mid-level Practitioner Sampling Authority**

Module addresses sampling of legend and controlled substances of 12 distinct classifications of practitioners. It can be customized to include state sampling restrictions on your company's drugs and all classes of mid-levels.

### **Other**

Modules designed to your specifications that focus only on the critical components of your compliance strategy.
