

IMPROVE

PHOTOGRAPHY

Hi there!

When you're ready to install your presets, we have an easy-to-follow video that shows you exactly how to do it step-by-step. We highly recommend following the video install method rather than others that you'll find floating around the internet.

You can access the easy install tutorial by typing the following URL into a web browser.

improvephotography.com/lightroominstall

Thanks again,

Jim Harmer - Founder
