

BELTANE PRIESTESS SPA WEEKEND

Day 2: Personal Creative Retreat

Sister, we invite you to take a moment and create personal ritual space. This is your retreat. We highly encourage you to take the precious time and deepen here.

This may include lighting a candle, some incense, taking a bath, and/or listening to the [spotify list](#).

In whatever creative form calls to you and would bring you joy (journaling, drawing, painting, collage, etc.), we invite you to **create your inner garden**.

If you have been in our temple for some time, then you might want to revisit the "seeds" that came to you for this year and feel into how they're growing, how they're already in abundance.

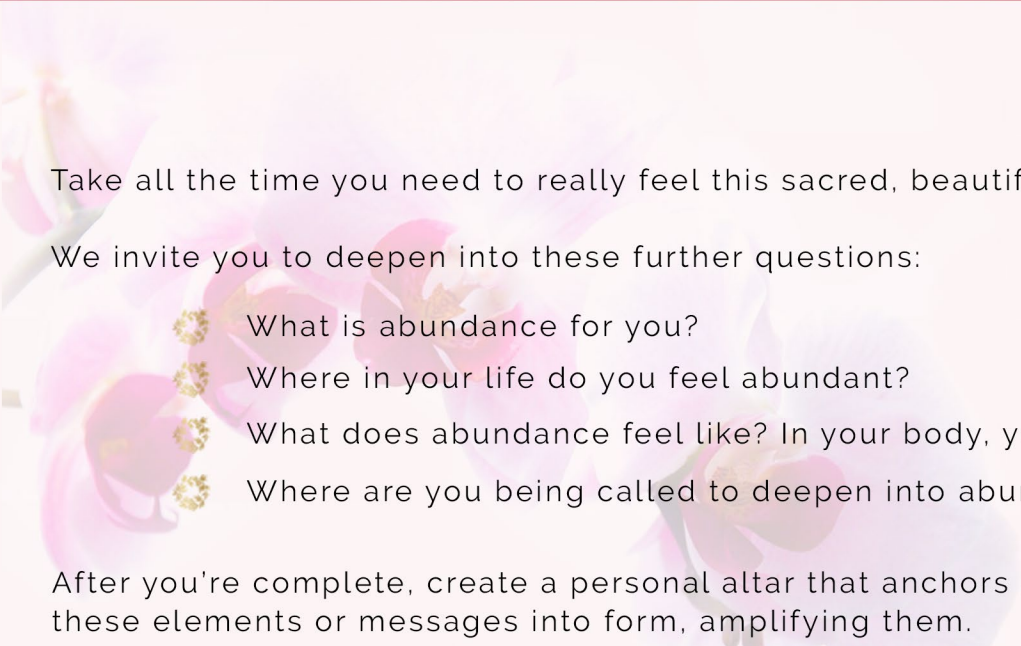

Remember this is the place that lives within your own inner temple spa; it is the place where you nurture abundance and beauty ... where you plant the seeds of all that is to come into fruition.

Consider these questions:

- 🌱 What has been planted there?
- 🌱 What is growing beautifully?
- 🌱 What could do with some nurturance?
- 🌱 Is there anything that needs to be weeded?

Really take some time to deepen into what shows up here. What is most calling you at this time?

Allow yourself to immerse in the symbols, images, sensations, and light food that you receive.

A soft-focus image of pink orchid flowers is positioned in the upper left corner of the page, partially overlapping the text area.

Take all the time you need to really feel this sacred, beautiful place.

We invite you to deepen into these further questions:

- ✿ What is abundance for you?
- ✿ Where in your life do you feel abundant?
- ✿ What does abundance feel like? In your body, your heart, your soul?
- ✿ Where are you being called to deepen into abundance in your life?

After you're complete, create a personal altar that anchors at least one of these elements or messages into form, amplifying them.

If you feel called, we'd love for you to share on the [Facebook temple page!](#)
