Hillcrest West is devoted to the art of living well...starting under \$100,000. Only twenty 2-bedroom townhouse condominiums will be built, each with 3 levels and an almost forgotten luxury: a full basement. It's your own private neighborhood, set in pleasant rolling countryside minutes from town.

And the extras are something else again.

More city. No doubt about it, a townhouse is a civilized way to live. You can make the interior elegant or easygoing, modern or traditional. Thoughtful details like a gracious covered porch and a roomy front hall closet make it easy to entertain in style.
