Circle the two letters that are the same in each row.

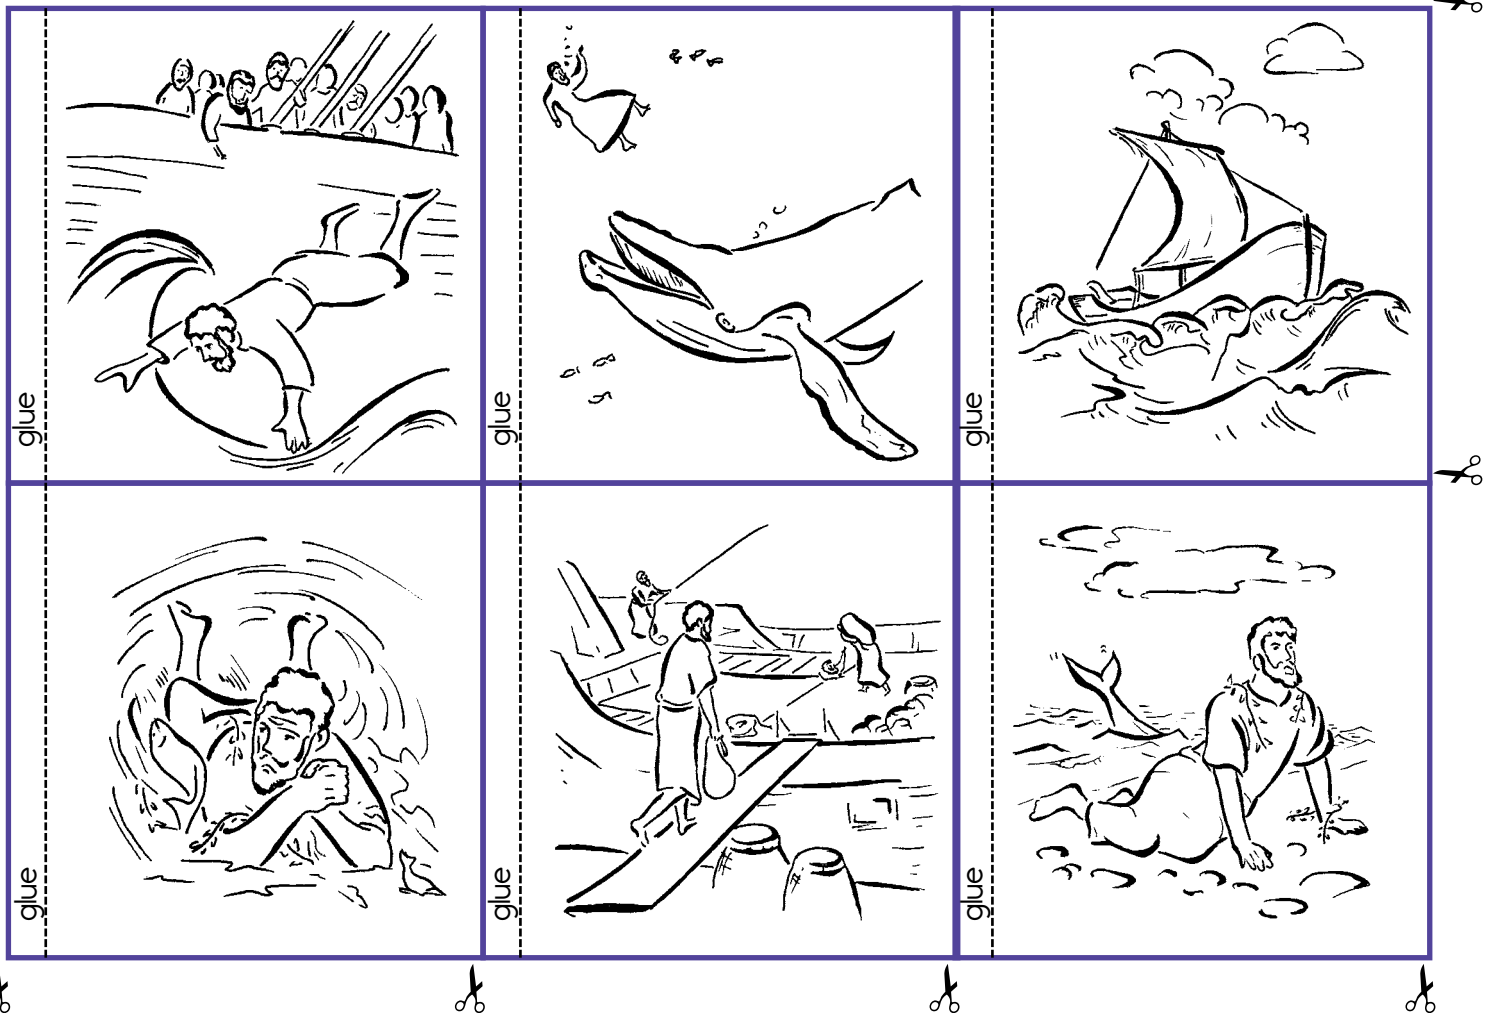

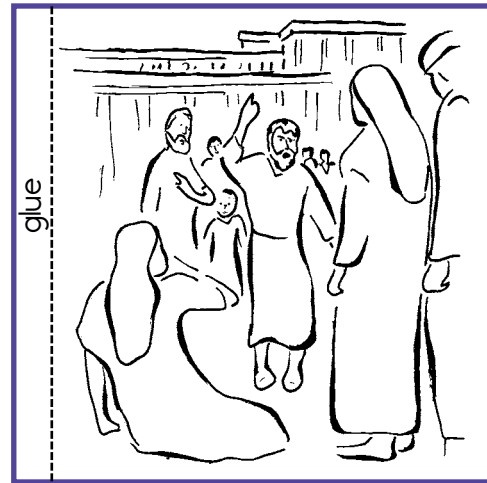

Top: Introduce **over** and **under**. Discuss the picnic table picture. Draw a cloud **over** the forest. Draw a mouse **under** the desk. **Bottom:** Draw the dot maps.

Children separate the pages by cutting out the pictures below on the purple lines. Make sure the pages are in the correct order. The one at the top is the last page. Put glue only on the tabs of each page to make a little book. Using the pictures, children tell the teacher the Bible story of Jonah.

Hint: Stick glue works best.

The pictures above tell the Bible story of Jonah and the whale. Can the child find the pictures in the correct order and tell you the story? If not, you can tell the story to the child and have him point to the right picture as you come to it. (Jonah 1-4)
