Delivery Options

Delivery of parcels to a closed school facility is not permitted. If your order will be delivered in the summer, provide an address where someone will be present to receive it. To qualify for the Early Order Discount but receive the order later, place your order and ask that it be held. We will invoice your order and prepare it for shipment, then store it until you call to release it. If your order is over \$2,000, provide a valid truck delivery address. This ensures that your boxes arrive together, with less chance of damage.

MARCH 2023 THROUGH FEBRUARY 2024

Applies in the U.S. & Canada. Under \$70, pay a flat rate of \$7.00. More details can be found on our website or on page 12 of the Curriculum Order Forms.

Are teachers overwhelmed or frustrated?

Are your students picking up wrong values?

Are your students struggling with your current curriculum?

With Christian Light curriculum you can:

Say good-bye to creating your own quizzes or tests.

Stay within your budget without sacrificing academic quality.

Instill your deeply held values rather than spend time teaching against patriotic or unbiblical values in curriculum.

Successful Students

EFFECTIVE TEACHERS

Biblical worldview anchors your students in God's truth.

Acknowledgment of God as Creator and Master influences the way every subject is presented so that your students grow in wisdom and understanding.

Lessons teach new concepts in bite-size increments for better mastery.

Sunrise Edition Math, Language Arts, and Reading courses introduce new concepts in bite-size increments. Students master concepts more easily because each new increment builds on and expands concepts that were previously taught.

Systematic daily review cements skills and concepts in your students' memory.

Daily review sections are essential for the spiral learning approach in Sunrise Edition courses where multiple threads are taught simultaneously. The structured system of review exercises keeps concepts fresh in your students' minds.

Workbook design frees your students for productive study.

The distraction-free design of Sunrise Edition LightUnits focuses students and enhances their learning. Instead of cartoon-style illustrations, the high-quality artwork sparks interest, illustrates the text, and grounds learning in real life.

Daily lessons make scheduling easy.

Sunrise Edition courses are divided into 160-170 lessons for the year. As a teacher you can easily make lesson assignments and chart your overall progress for the year.

Frequent quizzes and tests gauge your students' success.

With two quizzes and one test in each LightUnit, measuring progress is simple. You can monitor how well your students are grasping the material and help them with trouble spots so they succeed in learning.

Will Christian Light Work FOR MY SCHOOL?

In its early years using curriculum adapted from Alpha Omega Publications, Christian Light was associated mostly with individualized school settings. Back then, both Christian Light and Christian day schools were part of what was still a fledgling movement.

Today, a broad range of schools effectively use curriculum developed by Christian Light. These include single-grade classrooms, multigrade classrooms, and individualized study classrooms.

The LightUnit format enables teachers to teach equally well in all three settings. LightUnits include content that can be taught in class, along with exercises that students can work on independently. We continue to develop and improve both LightUnits and textbooks to serve your needs—and your students' needs—even better.

See for yourself!

60-Day Curriculum Review

We want to make it easy for you to get the information you need to make careful curriculum decisions. Sometimes that includes getting a hands-on look.

We will send you your choice of courses, and you can return them to us if you decide not to purchase. Schools in the United States and Canada may order up to \$500 of curriculum to examine for 60 days at no obligation.

After 60 days, we will contact you. You can either return or pay for and keep the curriculum samples. Payment or the returned books are due within 30 days of being contacted. Returned items must be in saleable condition, and you pay the return postage.

Resources to Help You Serve YOUR STUDENTS AND PATRONS

Invite a rep to your school.

Christian Light school representatives are available to visit your school, answer curriculum questions, assist in starting new schools, give presentations on curriculum, and more. Please feel free to e-mail or call them for consultation. See page 81.

Attend a teacher training session.

Christian Light Teacher Training is a week-long session that covers principles of successful teaching and school management. In addition, you'll learn about Christian Light curriculum and how it works. See page 77.

Learn and grow at Christian Educator's workshops.

One-day teacher's workshops are held in various locations throughout North America each fall. Topics include specific academic concepts, school board leadership, classroom management, and spiritual inspiration for teachers. All teachers, patrons, and school leaders are invited to attend. We send the program and schedule to schools on our mailing list, or you can call us or check our website for information: www.christianlight.org/workshops.

Enroll in a recordkeeping program.

Add Christian Light to your school team as a supportive partner. See page 78 for more details on Christian Light's School Support & Recordkeeping service.

FOUR WAYS YOUR SCHOOL CAN Stretch Your Budget

1. Order before June 30 for a 5% discount.

Place your fall school order between April 1 and June 30, and deduct 5% from your order subtotal. To qualify, the subtotal must be over \$1,000. (If prepaying, you may deduct an additional 2% for a total discount of 7%. See #2.) Please allow at least three weeks for processing. Orders placed after June 30 will generally be processed in the order in which they were received.

Early Order returns received by September 30 qualify for 100% credit. Early Order returns received between October 1 and November 15 qualify for 50% credit. See the Returns policy on the order form for other details.

2. Pay when you order for a 2% discount.

We'll give you a 2% discount on any order subtotal amount if you pay using a check or credit card prior to order processing, or upon pickup.

3. Get free Teacher's Guides when you switch to Christian Light.

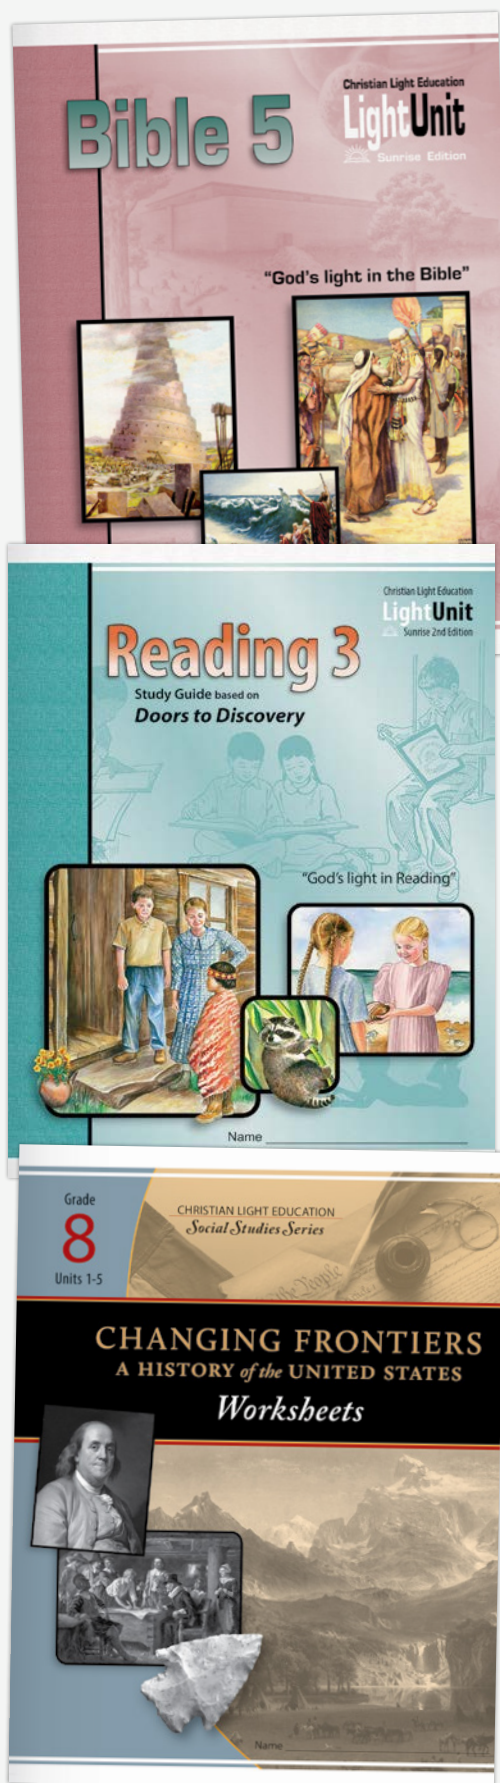

When you order a Christian Light course that is new for your school, you get the Teacher's Guide for free or half-price. If ordering a course for three or more students, the Teacher's Guide is free; for fewer than three students, the Teacher's Guide is half price. This offer is available for both new and current schools. A course is described as one subject for one grade level. Please request your free Teacher's Guide when ordering.

4. Enjoy incentive rebates every year.

Each spring Christian Light gives a rebate to private school accounts based on how much Christian Light consumable materials your school purchased during the previous year. This includes LightUnits, Worksheets, and Quizzes & Tests.

This rebate is given as a credit on your account, which you may use for purchases through May 31 of the following year. See the chart for additional details.

Total Purchased	Rebate
\$1,500 to \$3,999	10% on qualified items
\$4,000 to \$7,999	12% on qualified items
\$8,000 to \$14,999	14% on qualified items
\$15,000 or more	15% on qualified items

What is a LightUnit?

A LightUnit is a workbook that includes exercises, quizzes, and test all in one. The lesson text is also in the LightUnit, except for Reading and some Social Studies courses. The quizzes are perforated sheets in the back of the workbook, and the final test is stapled into the center. Remove the quizzes and the test before handing the LightUnit to your student.

A LightUnit typically contains fifteen to seventeen days of student work. A full one-credit course usually consists of ten LightUnits. Some courses consist of five LightUnits.

Price: \$4.95

Sunrise Edition Sunrise Edition

Most LightUnits are in Sunrise Edition format with daily lessons and two quizzes. See page 10 for more information.

Non-Sunrise Edition

Some older courses are not yet available in Sunrise Edition. In these LightUnits, the material is presented in sections rather than lessons. Each section ends at a Self Test, which is similar to a quiz. The following courses are not yet available in Sunrise Edition:

Bible: Grades 10-12

Math: Grades 10 and 12

Science: Grades 3, 4, 7-12

Social Studies: Grades 9-12

Study Guide LightUnits

A Study Guide LightUnit does not contain the lesson text. Rather, it accompanies a textbook or reader and provides only exercises, quizzes, and a test.

Price: \$4.20 each

(except when two Study Guides are combined in one book: \$8.40)

What are Worksheets?

A few courses have a worksheet option as an alternative to LightUnits. Worksheets accompany a textbook or reader and are designed for classrooms where teachers are more actively involved in providing guidance, instruction, and review. Students complete a two-sided worksheet that covers the textbook material of the lesson. The worksheets are bound in two booklets. Quizzes and tests are sold separately as a pack. Currently we offer worksheets for Grades 6, 7 & 8 Social Studies, Grades 2 & 3 Reading, and Literature 1.

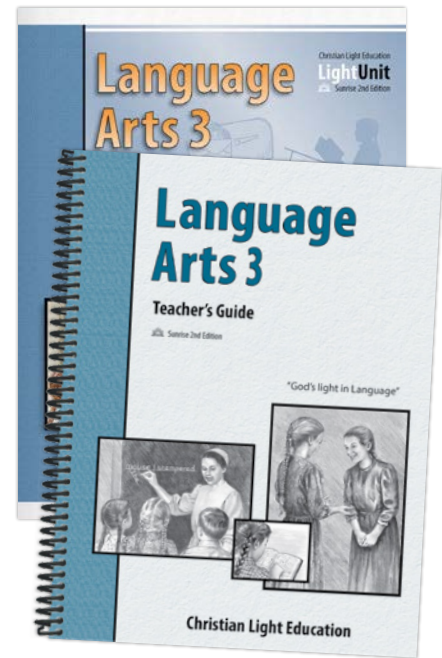

Price: \$8.95 each

What is included in Teacher's Guides?

The content of Teacher's Guides varies but typically includes review questions, instructions for teaching new concepts, and appendixes with scope and sequences and alternate LightUnit tests. Lesson plans in lower-grade Sunrise Teacher's Guides are more detailed than those in higher grades. Many Sunrise Teacher's Guides contain student pages with the answers filled in (math Teacher's Guides include solutions).

Do I need to buy Answer Keys?

If you are purchasing a Teacher's Guide that includes answers, you do not need to purchase a separate Answer Key unless you want students to score their own work. To determine if a Teacher's Guide has answers, check the course description or refer to the chart on page 11.

How It Works

Sunrise Edition curriculum uses a spiral learning method. Here is how it works to make learning easier for students:

Incremental teaching. In language arts, math, and reading, new material is introduced in small steps, making the learning process less overwhelming and more efficient.

Students' daily work is based on a 30-to-70 ratio, with approximately 30 percent of the exercises being new material and 70 percent being review material. The “learning thread” on a particular concept is simple in the beginning and expanded in later lessons so that learning is cumulative.

Picture a train winding up and around a mountain. For example, the fraction train starts in Grade 1 with cars carrying a light load of simple fractions. As the train winds up and around the track, it pauses at stations, filling the cars that were partially filled with more difficult concepts about fractions and adding new cars carrying small loads of new concepts. The train chugs to the top a few years later with cars filled with facts and concepts.

Systematic continuous review. Part of the incremental approach is a system of continuous, comprehensive review. After a concept is introduced, students review it multiple times through exercises in following lessons. Students gain mastery by continually reviewing concepts.

Reading

THAT DEVELOPS WISDOM
AND DISCERNMENT

Reading well is an essential life skill. In addition to fostering a lifelong love of reading, Christian Light's Reading program helps students develop the reading and analytical thinking skills they need in today's world. With a foundation of good stories and poems, the curriculum emphasizes vocabulary, comprehension, and literary elements, techniques, and genres.

Overview

Christian Light Reading begins with Learning to Read, our comprehensive phonics-based reading program (pages 26 & 27). Phonics continues in Language Arts 1 & 2. After Learning to Read, first-grade students are ready to begin with the reader *I Wonder* in Reading 1. Reading 1 focuses on comprehension and oral reading with limited phonics review.

Grades 2 & 3 each have ten LightUnits to accompany their hard-cover readers. Teacher's Guides contain aids to teaching and are integral to Grades 1-3.

Grades 4-8 consist of one reader and five LightUnits per grade. This lighter workload allows more subjects to be studied while still honing reading comprehension and literary analysis. The average student can complete most of the work with little teacher help.

A Look up the vocabulary words in the glossary. Complete each definition.

1. intact: _____; having _____ part
2. jaunty: having a _____ or _____ manner
3. somber: _____ and _____; dark _____
4. teeter: to _____

Story Comprehension

B Read the introduction and write an answer to the question.

The bobcat could not catch a bird that was able to run underwater as well as fly, but she tried to use her eyes and nose to find the nest where Mrs. Ouzel and her babies were hidden.

The story title gives you a hint about what will happen in the story. What can you predict by reading the title?

△ 5. _____

C Check your prediction by writing an answer to each question.

- Who was the enemy looking for the Ouzel's nest? _____
- How did the Ouzel outwit the bobcat? _____

Things we cannot know for sure, "I think it will rain."

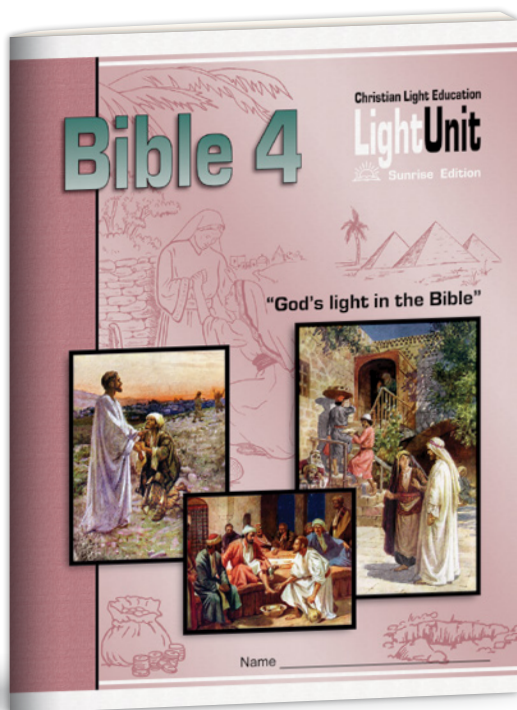

Write two Study Words with the ed suffix. _____

Write know or think in the blanks. _____

_____ the boy in the story was named Ted.

Readers These readers not only keep children turning pages, but also teach character and Biblical values through timeless stories and poems. Many stories are adapted from early American readers.

Bible

THAT DEEPENS KNOWLEDGE OF GOD

The goal of our Bible program is to point students to Jesus Christ, strengthen their love for the Word, and deepen their desire to surrender their hearts in devotion to Him. Students will gain a thorough knowledge of Bible facts and increase their understanding of and appreciation for God's timeless principles.

Overview

In the lower levels, Christian Light Bible teaches Bible stories in chronological order, introducing simple truths along with Bible history, geography, and cultures of the Old and New Testaments.

Sunrise Bible is available in Grades 1-9, but is an optional subject in the first two grades. There are no quizzes or tests in Grades 1 & 2, giving students the opportunity to develop a positive attitude toward Bible learning without pressure. Grades 3-9 follow the Sunrise format of lessons, quizzes, and a final test.

The Bible stories in elementary levels are retold in fresh, readable language that brings the Bible to life for students. Realistic pencil drawings illustrate most stories.

Grades 10-12 are being developed to fit the Sunrise model. Until then, these grade levels consist of ten self-study LightUnits. A day's work consists of selected Bible readings and corresponding exercises. Students can complete most lessons on their own.

Most lessons include an illustrated Bible story in Grades 1-8.

Grade 3 LightUnit sample

Lesson 1

One word is used three times in the story. Read these sentences and see if you can fill in that word without looking back to the story.

3. _____ people are born sinners.
4. God loves _____ people born in the world.
5. Jesus came to bless _____ people and give His life for their sins.

If the sky is clear tonight, go outside and look at the stars. See how many you can count. Astronomers estimate there are about 100 billion (100,000,000,000) stars in our galaxy, the Milky Way. There are perhaps billions of other galaxies in the universe. We can't count the stars and neither could Abraham.

6. Can we count the descendants God promised Abraham? _____

For Me Today

Color each shape with a star in it. You will see the word that means "happy" in the last paragraph of the story.

7.

8. _____ sentences where this answer would be true.

9. _____ nts.

10. _____ brother pick up toys.

11. _____ when it gets in my way.

Lesson 8

By the time Herod found out that the wise men had tricked him, those men were well on their way to the Far East. At the same time Jesus was traveling south, safe in His mother's arms. The King of the Jews had escaped the wicked king of Jerusalem.

From the Story

Write L for Jewish leaders, H for Herod, W for wise men, S for shepherds, or J for Joseph.

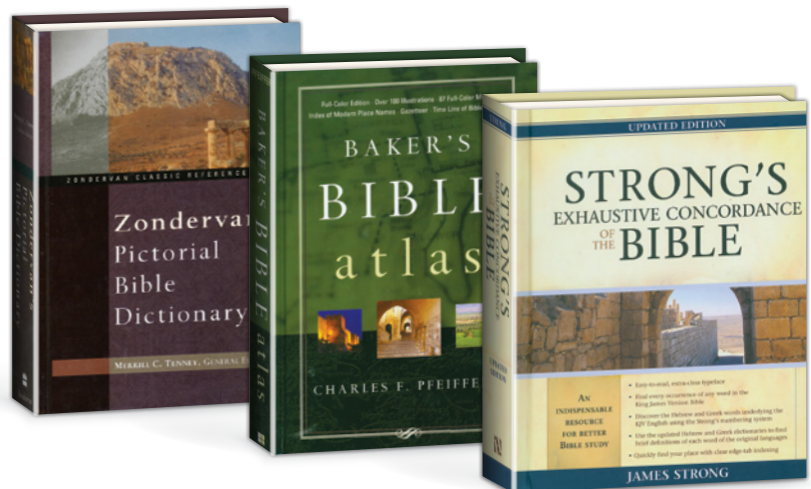

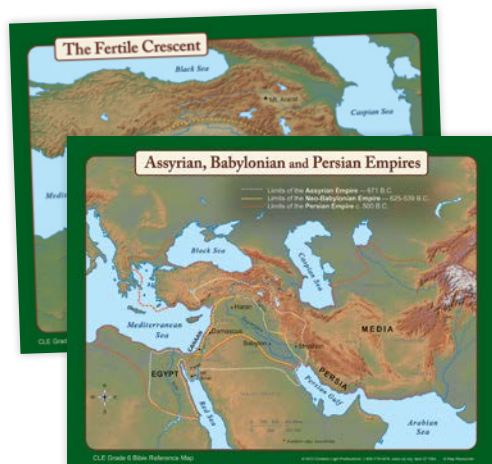

1. _____ Wanted to find and get rid of the newborn King.
2. _____ Knew the Scriptures said Christ would be born in Bethlehem.
3. _____ Went home a different way.
4. _____ Rich nighttime visitors.
5. _____ Fled to Egypt for safety.
6. _____ Poor nighttime visitors.
7. _____ When he was troubled, so was everyone in Jerusalem.

Language Arts

**THAT ENABLES CLEAR,
GODLY COMMUNICATION**

The Sunrise Language Arts program provides tools for communicating with clarity and purpose. More than simply teaching proper grammar and punctuation, we strive to equip students to become able writers, careful listeners, adept speakers, capable researchers, and lifelong students of positive, wise communication.

Overview

Grades 1 and 2 Language Arts are required to complete our phonics program begun in Learning to Read, but can also be used with any phonics-based learning-to-read program.

In Language Arts, students study grammar, language mechanics, and the use of resource books, while also becoming adept at researching and writing. Each day a new concept is introduced in a small easily mastered increment. A review section covers a variety of old and new increments to ensure mastery. The lesson ends with penmanship and spelling practice so that you do not need a separate spelling program.

Creative writing assignments are included in the LightUnits in Sunrise 2nd Edition. In Grade 8 creative writing depends on teacher initiative and uses the handbook *On Teaching Writing*.

Perspectives of Life in Literature and *Perspectives of Truth in Literature* challenge high school students with selections from Bunyan, Frost, Hawthorne, and others (page 51).

Verbs That Do Not Show Action Lesson 12

You have learned that verbs show action: run, talk, and laugh. A few verbs do not show action. Am, is, are, was, and were are verbs that do not show action.

Andrew was at his desk.
The rabbits are in their hutch.

Verbs That Do Not Show Action

Put two lines under the verb that does not show action.

- Jane was my teacher.
- I am in second grade.
- Those horses are strong.
- Ann is in the first grade this year.
- Justin and Joshua were at Grandmother's house.

Find these words in the glossary. Match the words and meanings.

- series • words that have opposite meanings
- antonyms • a list of three or more things in a sentence

Mathematics

**THAT UNLOCKS THE
SECRETS OF GOD'S ORDER**

Sunrise Math takes a systematic approach to learning. New concepts are introduced in small increments, followed by comprehensive daily review. Story problems and exercise themes promote Biblical values in finances, family living, and in our understanding of the created world.

Overview

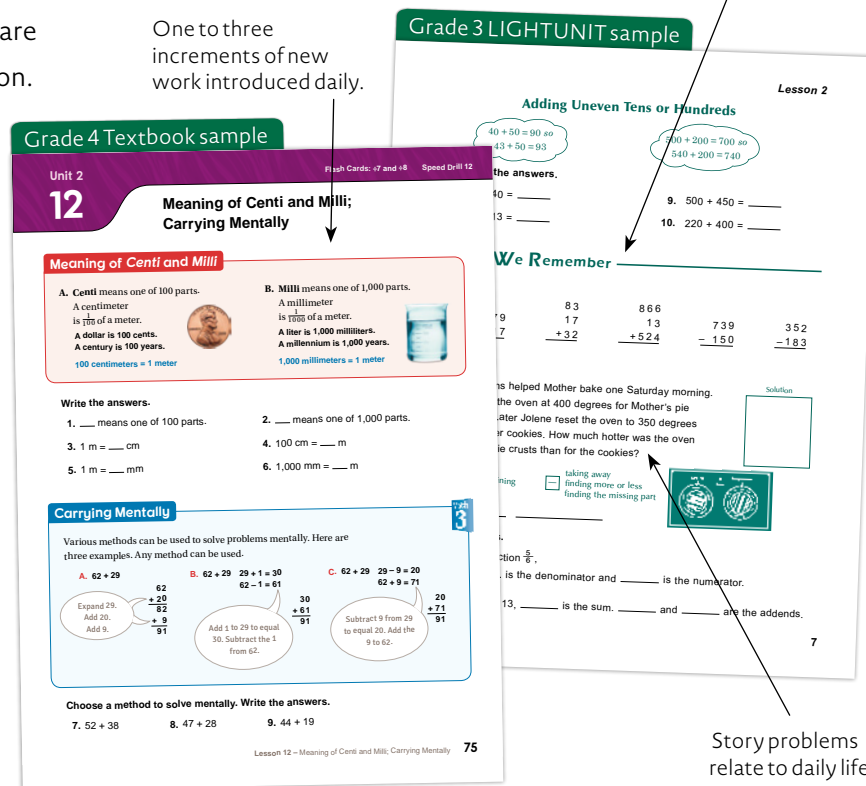

Strands such as geometry and algebra are introduced early to build a solid foundation.

Students learn the U.S. and metric measurement systems together to become proficient in both. The unique flash-card system, along with daily speed drills, helps students master basic facts with higher efficiency. We offer support items such as a counting chart, a clock with gears, and a calendar book, but most hands-on activities use simple items available anywhere.

For high school, only Algebra I and Algebra II (preliminary edition) are available in the sunrise format.

One to three increments of new work introduced daily.

Mixed review keeps previously learned concepts fresh.

Textbook Study Components

Students have been successfully learning with Sunrise Math LightUnits since 2001. We also offer Math textbooks for Grades 4 through 7, and Grade 9. The textbook for Grade 8 is in development.

Textbooks Attractively formatted with colorful pictures and illustrations. They cover the same material and use the same learning approach as LightUnits: spiral, incremental learning, and continuous review.

Student Material Includes consumable quizzes, tests, and daily speed/mastery drills that review math facts and measurement equivalents.

Teacher's Guides The full-color Teacher's Guide contains reproductions of the textbook pages with answers. A CD inside the back cover includes printable posters, charts, and practice sheets.

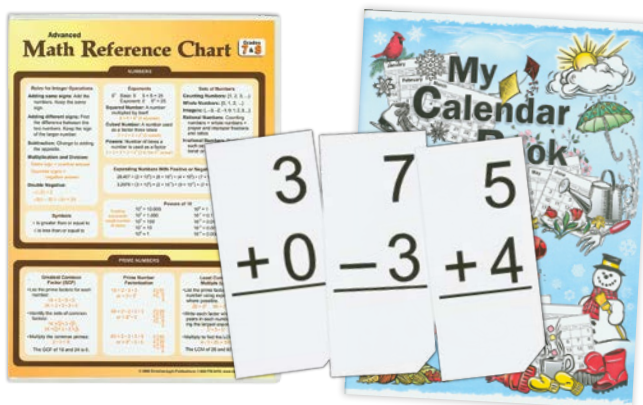

Full Solution Answer Keys Show each problem with its solution for the textbook, quizzes, and tests.

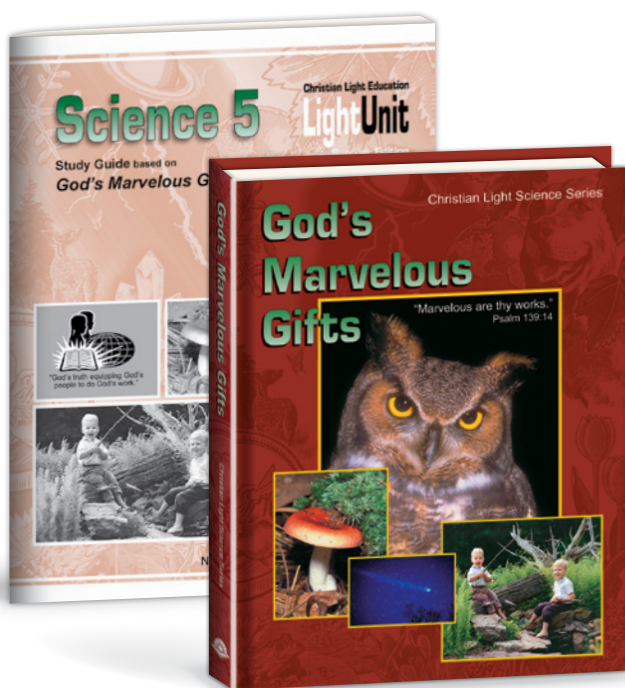

LightUnit Study Components

LightUnits Each LightUnit contains student exercises and a test. The first LightUnit in Grades 2-8 is a diagnostic review of the previous grade.

Teacher's Guides Teacher's Guides for Grades 1-8 have teacher tips and contain reproductions of the student LightUnit pages with solutions. Answer Keys for these grades are optional.

Support Materials (see pages 31 & 72)

Science

THAT DECLARES THE
CREATOR'S GREATNESS

Christian Light Science takes students on a journey of exploration into the fascinating world of science. The study of the natural world and how things work is never complete without recognition of the awesome Creator who designed it all, from the intricacies of the atom to the infinity of space.

Overview

Our elementary science program uses many simple experiments and hands-on activities to lead students to explore and learn scientific laws. Health studies are integrated into the science program. Emphasis is given to stewardship and our responsibilities to use and protect the environment in which God placed us.

Sunrise Science is a supplemental course in the first two grades. In Grades 3-12 each level consists of five to ten self-study LightUnits. Each LightUnit provides lesson material for about three weeks and includes a final test.

High school courses include general science, biology, chemistry, and physics.

We offer some Apologia Science courses as alternatives to our own while new Christian Light science courses are under development.

Sections of information are followed by written exercises.

Students learn science vocabulary.

PHYSICAL CHANGES

Matter can be found as a solid, liquid, or gas. A solid has a fixed size and shape. The solid may be big like a brick. A solid may be powdery like sand or sugar. A solid may change its shape but stay a solid. A block of ice may be smashed into smaller pieces. The smaller pieces are still solid. Each solid piece has a fixed size and shape. If the ice melts into water the shape changes. When the solid melts, a liquid forms. A liquid has a fixed size, but no fixed shape.

Try this!

You will need these things:
diet scale or balance scale (with gram units)
baby food jar ice cube

Follow these directions. Put a check in the box when you do each step.

- ☐ 1. Put the baby-food jar on the scale.
- ☐ 2. The mass of the jar is _____ grams.
- ☐ 3. Put the ice cube in the jar.
- ☐ 4. The mass of the jar and cube is _____ grams.

Social Studies

**THAT SEES THE WORLD
FROM GOD'S PERSPECTIVE**

Christian Light Social Studies presents students with a Biblical view of God's dealings with mankind since the beginning of time. These courses recognize God's sovereign hand in history and His loving care for His people. Studying people and places, past and present, students will realize that the world is much larger and more complex than just their neighborhood.

Overview

A primary focus in our social studies is to prepare students for a life of service—serving God by strengthening the church, blessing the community, and fulfilling the Great Commission. Written from an Anabaptist perspective, these courses clearly teach the two-kingdom concept of separation between church and state.

In the first two grades, social studies is a supplemental course for students needing additional work.

Grades 3-8 consist of one textbook per grade with corresponding student material. Study Guide LightUnits are available for each textbook and offer the simplest way to cover the textbook. For teachers wanting more interaction with students, we also offer worksheets (see page 8) and other materials that can be used in conjunction with the questions in the textbook. See specific grade-level descriptions for more information.

Grades 9-12 each consist of ten self-study LightUnits with no textbook.

Students are directed to read sections in the textbook.

Biblical applications where relevant.

Learning to Read

teaches all consonant sounds, consonant digraphs, long and short vowels, most two-letter vowel sounds, and many sight words. It integrates handwriting, spelling, and listening to create a complete language program for beginners.

How Learning to Read works

Each sound is introduced with a letter card followed by a story focusing on the picture and new sound. For example, for the t sound, the story of children discovering a turtle with a house that “just fits” captures the child’s attention and motivates him to learn the sound.

The story ends with a fun rhyme to connect the sound with the letter—“t, t, t, t/ Turtle Tim takes his house on top of him.”

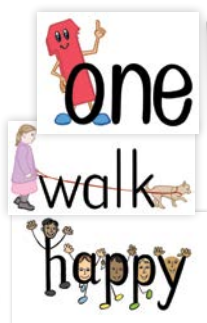

Learning and repeating the rhyme rivets the combination in the child’s mind. Questions about the story help develop comprehension. The new sound is further reinforced in the LightUnits with a variety of activities—coloring, writing, listening for the new sound, oral drill, and spelling.

Teacher's Guides

Learning to Read is the first part of our reading and phonics program.

Reading is continued in Reading 1 with the reader, *I Wonder*.

Phonics is continued in Language Arts 1 and completed in Language Arts 2. Some elements are reviewed in Reading 1 and 2.

Learning to Read includes ...

LightUnits Sunrise 2nd Edition

Ten LightUnits integrate phonics, visual discrimination, listening, hand-writing, and spelling.

Primers

Four delightful books that motivate children with the thrill of reading. The reading level advances to match the student's progress.

Teacher's Guides

Two Teacher's Guides provide reproductions of student pages with answers and step-by-step instructions. They also include teaching tips, activity ideas, reinforcement games, and more.

Letter Cards

These colorful cards match the rhymes in Learning to Read with a letter and a picture. Available in two formats:

Flash Cards The back contains the letter and accompanying rhyme. 4" x 5½"

Wall Cards For classroom settings. 8½" x 11"

Word Flash Cards

This boxed set of 224 cards uses words the student is learning in the LightUnits. Essential in helping students improve in blending sounds and recognizing words.

Phrase Flash Cards

This boxed set of 228 cards helps the student progress beyond reading one word at a time to reading sentences quickly.

Optional Items

Sight Word Flash Cards

These cards teach Learning to Read sight words through colorful art and descriptive sentences. Use them in Learning to Read teaching sessions as a fun way to speed up the process of memorizing sight words. The cards do not focus on spelling patterns but promote instant word recognition. 90 cards. 5" x 7"

Sound Slider

A plastic device with sliding letters teaches blending of sounds.

Practice Sheets

Two booklets of reproducible worksheets provide extra practice.

Reading Sunrise 2nd Edition

Reading 1 follows Learning to Read. The stories and poems in the full-color I Wonder reader develop reading skills while building character. Stories teach honesty, good habits, thankfulness, and trust. The LightUnits give practice in reading analysis and comprehension—applying stories to real life. This course includes five LightUnits and a Teacher's Guide. Skills and concepts are introduced gently and reviewed systematically.

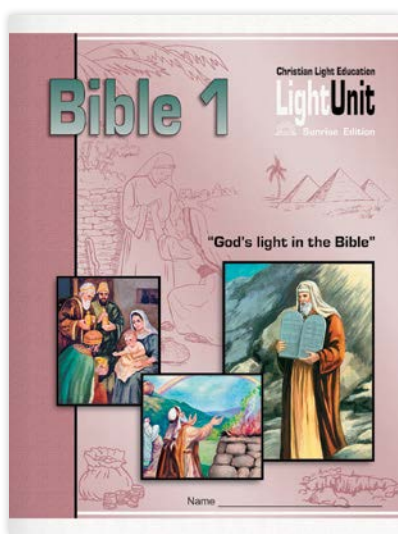

Using the Course

Successful completion of the Learning to Read program is necessary before attempting this half-year course. Students may do some exercises independently. Self checks and tests measure the child's mastery of the material.

The Teacher's Guide includes oral reviews, reproductions of each LightUnit page with answers, explanations for the exercises, ideas for class discussion, and silent and oral reading activities. Beginning teachers can successfully use this manual to teach reading.

Bible Sunrise Edition

Bible 1 familiarizes students with the major Bible stories from both the Old and New Testaments. The first page of each lesson contains a simply written story to capture the child's imagination and bring the Bible to life. The second page contains a corresponding activity such as coloring, finding hidden pictures, solving mazes or puzzles, connecting dots, numbering events in order, cutting and pasting, or matching items. This course contains no quizzes or tests. It allows the child to simply enjoy the Bible and learn its truths without academic pressure.

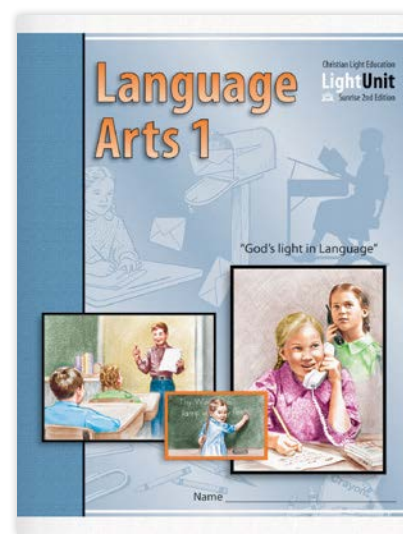

Using the Course

Each of the five LightUnits has sixteen lessons, providing two or three Bible lessons a week for a full school term.

The Teacher's Guide contains the corresponding Bible references, a more detailed version of each story to read aloud, and short meditations to inspire the teacher. Reproductions of the student activity pages with answers are also included.

Language Arts Sunrise 2nd Edition

Language Arts 1 is an integral part of our phonics program and works well with any phonics-based, learning-to-read program. Students also learn about suffixes and prefixes, sentences, phrases, and basic punctuation. LightUnits 107-110 include creative writing. Penmanship begins with LightUnit 105 after Learning to Read is finished. Spelling begins with LightUnit 106.

Using the Course

Students complete the first four LightUnits of Learning to Read before they begin this course. Use I Can Write Manuscript for more penmanship practice. For more Language Arts drill, use the Extra Practice Sheets. The Phonics Cards illustrate spelling and phonics rules.

The Teacher's Guide is required to teach this course. It includes lesson plans, answers, spelling word lists, scope and sequence, alternate LightUnit tests, and more teaching aids.

Math

Christian Light Education

In Math 1, daily speed drills and flash-card exercises cement the basic addition/subtraction facts from 1-18. Students are exposed to geometry, money, and mental math. Story problems with a Biblical worldview relate math to real life. Metric and U.S. measurements are taught together.

Using the Course

No previous math instruction is needed. You'll need the Counting Chart, My Counting Book, and our special flash-card system to teach the course as the daily lesson plans direct.

The Teacher's Guide contains LightUnit answers, oral exercises, hands-on activities, teaching tips, and alternate tests. It is required for the course.

Bible Christian Light Education Sunrise Edition

Bible 3 is based on the New Testament. LightUnit 301 is a fictional story acquainting students with Jewish culture during the time of Christ.

LightUnits 302-305 begin a study of the Gospels that continues into fourth grade. Each lesson contains an interesting story from Jesus' life. Activities include matching exercises, true or false items, mazes, puzzles, coded messages, and map work. Beautiful, realistic pencil drawings bring life to each Bible scene the children read about.

Using the Course

Each LightUnit contains sixteen lessons, providing two or three Bible lessons a week for a full school term. Each LightUnit includes two quizzes and a test.

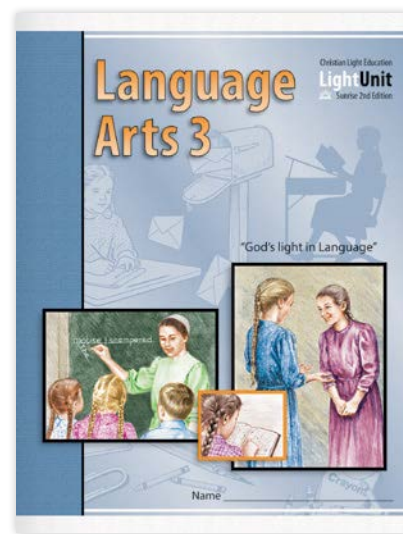

The Teacher's Guide gives objectives and suggestions for teaching each lesson and provides alternate LightUnit tests. Reproductions of the LightUnit pages, quizzes, and tests are included with answers.

Course Components

Language Arts Christian Light Education Sunrise 2nd Edition

Language Arts 3 teaches grammar, spelling, and penmanship. Students identify nouns, verbs, adjectives, and sentence subjects, and begin diagramming. Language mechanics include punctuation, capitalization, and subject-verb agreement. Each LightUnit contains a creative writing lesson. Students learn to use contents pages, indexes, dictionaries, and encyclopedias.

Using the Course

Use our Diagnostic Test (page 74) to place new students. The teacher should introduce the new concepts; students can then work on the lesson independently.

The Teacher's Guide includes LightUnit pages with answers, review questions, teaching notes, alternate tests, and spelling words.

The two Answer Keys (one for the LightUnits and one for quizzes and tests) are not required if the Teacher's Guide is purchased.

Math

Math LightUnit 301 reviews concepts that must be mastered to succeed in Math 3. LightUnits 302-310 teach new skills, including multiplication and division tables through 10. We teach U.S. and metric measurements simultaneously. Story problem themes include insects, cooking, the ocean, and a family vacation to Yellowstone National Park.

Using the Course

Students new to the curriculum should take our Math Diagnostic Test (page 74) to ensure proper grade level placement. Each LightUnit contains two quizzes and a test. Flash cards are required for daily fact drills. The Elementary Math Reference Chart contains multiplication tables, symbols, terms, abbreviations, definitions, metric/U.S. tables of measures, and more.

The Teacher's Guide gives teaching tips, extra practice, LightUnit answers, and alternate tests.

Science

Science 3 explores scientific fundamentals. The ten LightUnit themes are as follows:

- 301 You Grow and Change
- 302 Plants
- 303 Animals: Growth and Change
- 304 You Are What You Eat
- 305 Properties of Matter
- 306 Sounds and You
- 307 Times and Seasons
- 308 Rocks and Their Changes
- 309 Heat Energy
- 310 Physical Changes

Using the Course

Each LightUnit can be completed in about three weeks and includes self checks and a LightUnit test. Answer keys are required. The ten LightUnits provide a year's work. Affordable science supplies correlating with this science course are available from Home Science Tools.

No Teacher's Guide is available; the lessons are geared for self-study.

Reading Christian Light Education Sunrise 2nd Edition

Reading 4 uses five LightUnits and is based on the reader *Bridges Beyond*, illustrated with full-color art. The stories build bridges to real people, historical events, the animal world, and other cultures. Exercises build vocabulary and employ skills such as inferring, summarizing, recognizing basic story elements, understanding cause and effect, working with figures of speech, and understanding the mechanics of poetry. New concepts are reviewed systematically.

Using the Course

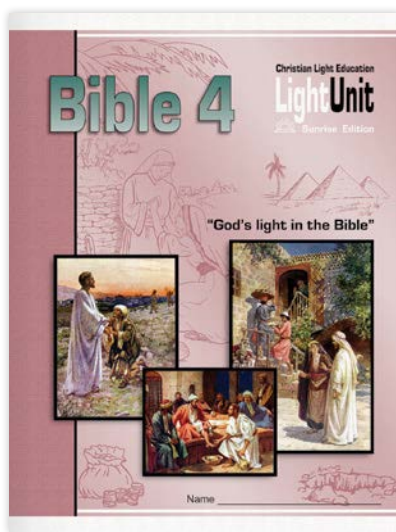

Two or three lessons per week provide a full year's work, or you may cover the course in one semester.

Bible Christian Light Education Sunrise Edition

Bible 4 expands the study of the Gospels begun in Bible 3. The first LightUnit is a fictional story of children in New Testament times that acquaints students with Jewish culture and geography during Jesus' life on earth. LightUnits 402-405 focus on Christ's earthly ministry, His teachings, and His death and resurrection. Each lesson contains a Bible story followed by workbook activities. Some Bible memory work is included.

Using the Course

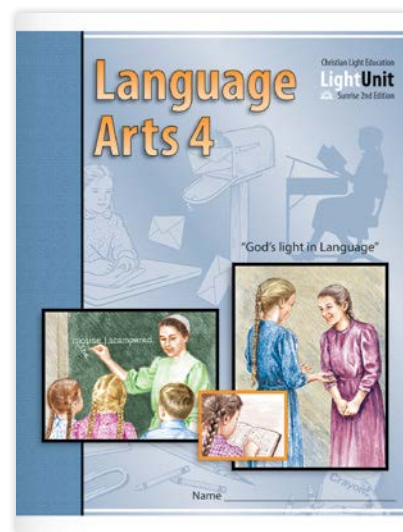

Each LightUnit consists of sixteen lessons, providing two or three Bible lessons a week for a full school term. Each LightUnit includes two quizzes and a test.

The Teacher's Guide gives the corresponding Bible text for each story, detailed lesson plans, and discussion questions. Reproductions of the LightUnit pages, quizzes, and tests are included with answers.

Math

Along with math skills such as long division, fractions, and decimals, Math 4 lays a foundation for later geometry and algebra. Unit themes take students from Italy to Australia to Antarctica.

Using the Course

Use Diagnostic Tests (page 74) to place students new to the curriculum. Choose a study method:

LightUnit Study Method: Students can write in the ten LightUnits. LightUnit 401 is a review of Math 3.

Textbook Study Method: The textbook makes it easy to refer to previous lessons. Students write answers on other paper (except on quizzes and tests). There are two options for answers: Teacher's Guide without solutions or Full Solution Answer Key (see page 19).

Science

In Science 4, students learn science vocabulary. They have opportunities to try hands-on experiments and activities that enhance their learning. The LightUnit themes are as follows:

- 401 Plants
- 402 Animals
- 403 Man and His Environment
- 404 Machines
- 405 Electricity and Magnetism
- 406 Changes in Water
- 407 Weather
- 408 Our Solar System and the Universe
- 409 The Planet Earth
- 410 Understanding God's Wonderful Creation

Using the Course

Bible Sunrise Edition

Bible 6 picks up the study of the Old Testament where Bible 5 ended. It begins with Joshua and the crossing of the Jordan and closes with the return from the Captivity and a look forward to the coming Messiah. Each lesson contains a well-written Bible story and includes workbook activities. In the later LightUnits of the course, students begin reading from the KJV Bible as a part of their lesson text. Map exercises show the geography of the different periods covered.

Using the Course

Bible 6 has ten LightUnits with 16 lessons in each, including the two quizzes and a test. This provides for one lesson per day for one school year. The Teacher's Guides give objectives and suggestions for teaching each lesson, provide alternate tests, and include the LightUnit pages complete with answers to all activities.

Bible Christian Light Education Sunrise Edition

Bible 7 is a study of the Gospels. The first LightUnit gives a brief overview of each Gospel's unique characteristics. The rest of the course follows the chronological order of Luke but includes events and teachings from the other Gospels. Each lesson directs the student to read a portion of Scripture. The passage is then explained in the LightUnit and followed by activities where students interact with what they have learned. The course also teaches students how to use *Strong's Concordance*. Bible memory work is included.

Using the Course

Bible 7 has ten LightUnits with 16 lessons in each, including the two quizzes and a test. This provides one lesson per day for one school year.

Math

Unit themes center on occupations and a Biblical worldview of business and personal finances. Geometry and pre-algebra concepts include using formulas for area and volume problems, scale drawings, proportions, and solving and graphing linear equations on a coordinate plane.

Using the Course

Use Diagnostic Tests (page 74) to place students new to the curriculum. Choose a study method:

LightUnit Study Method: Students can write in the ten LightUnits. LightUnit 701 is a review of Math 6.

Textbook Study Method: The textbook makes it easy to refer to previous lessons. Students write answers on other paper (except on quizzes and tests). There are two options for answers: Teacher's Guide without solutions or Full Solution Answer Key (see page 19).

Science

Science 7 covers a variety of general science subjects that lay a foundation for the high school sciences. Students are given many opportunities to try hands-on experiments and enrichment activities. The LightUnits are as follows:

- 701 God-Designed Plant Systems
- 702 God-Designed Body Systems
- 703 The Behavior of Living Things
- 704 Molecular Genetics
- 705 Chemical Structure and Change
- 706 Light and Sound
- 707 Motion and Its Measurement
- 708 Planet Earth
- 709 The Sun and Other Stars
- 710 Review

Using the Course

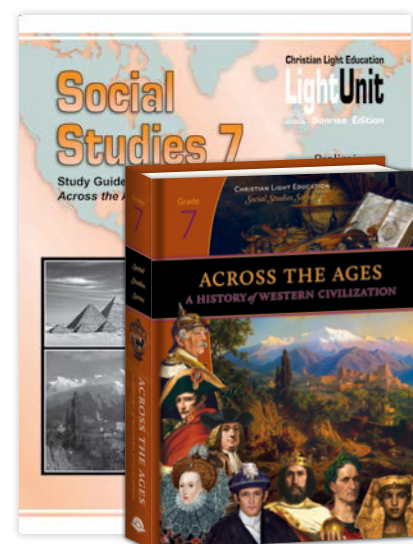

Each LightUnit can be completed in about three weeks and includes self checks and a LightUnit test. No Teacher's Guide is needed; the lessons are geared for self-study. Affordable science supplies correlating with this science course are available from Home Science Tools.

Reading Christian Light Education Sunrise 2nd Edition

Reading 8 uses five LightUnits and is based on the reader *Where Roads Diverge*, continuing the theme of choices begun in the seventh-grade reader.

Using the LightUnits, students build vocabulary; examine literary elements such as conflict, theme, and tone; interpret literary techniques such as metaphors, symbols, allusions, irony, and foreshadowing; identify literary genres; practice types of writing; learn critical thinking skills; and respond to truths illustrated in the stories.

Using the Course

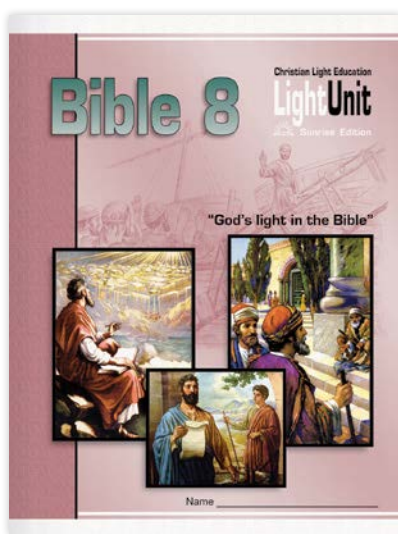

Two or three lessons per week provide a full year's work, or you may cover the course in one semester.

The Teacher's Guide includes LightUnit pages with answers, teaching instructions, oral reading activities, discussion questions, and alternate tests.

The two Answer Keys (one for the LightUnits and one for quizzes and tests) are not required if the Teacher's Guide is purchased.

Course Components

- 1 Reader *Where Roads Diverge* \$14.50
- 5 LightUnits 801-805 \$21.00
- 1 Teacher's Guide 801-805 \$14.75
- 1 Answer Key 801-805 \$7.20

Bible Christian Light Education Sunrise Edition

Bible 8 continues the study of the New Testament begun in Bible 7. The first four LightUnits cover the Book of Acts, and the remaining LightUnits give brief overviews of the epistles and Revelation. Each lesson directs the student to read a passage of Scripture. This passage is then explained and followed by activities where students interact with what they have learned. The course includes exercises using *Strong's Concordance* and *Baker's Bible Atlas*. Bible memory work is included.

Using the Course

Bible 8 has ten LightUnits with 16 lessons in each, including two quizzes and a test. This provides one lesson per day for one school year.

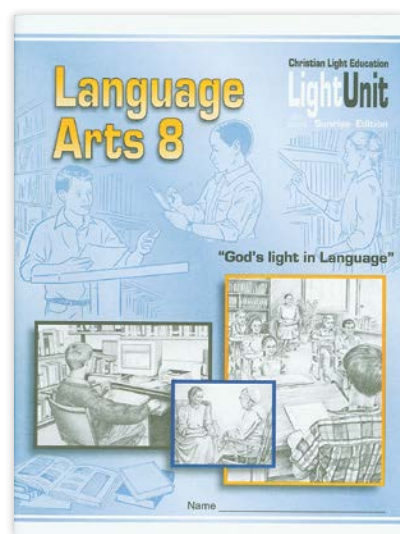

The Teacher's Guides include teacher meditations, lists of lesson emphases, and suggestions for presenting and discussing the lessons. Extra practice sheets and alternate tests are also provided. The Teacher's Guides contain the LightUnit pages complete with answers.

The Answer Keys are not needed if you buy the Teacher's Guide.

Course Components

- 10 LightUnits 801-810 \$49.50
- 2 Teacher's Guides 801-810 \$23.50

Language Arts Christian Light Education Sunrise Edition

In Language Arts 8, new grammar and punctuation skills are introduced each day, followed by review of previous skills, plus penmanship and spelling practice. New skills taught include transitive and intransitive verbs, perfect verb tenses, concrete and abstract nouns, and demonstrative, indefinite, and relative pronouns. Students learn library skills and write a research paper, including a bibliography.

Using the Course

Use our Diagnostic Test (page 74) to correctly place new students. Students do most work independently. Use the Extra Practice Sheets for extra review of difficult concepts. Use *On Teaching Writing* for creative writing assignments.

The optional Teacher's Guide provides notes, spelling word lists, and alternate LightUnit tests.

Math

Math 801 reviews concepts needed for success in Math 8. This pre-algebra course, prepares students for any high school Algebra 1 course. Concepts covered include irrational square roots, Pythagorean theorem, surface area, and basic trigonometry.

LightUnit themes are based on Christian occupations and a Biblical worldview of business and personal finances. Math 810 teaches personal finance skills, including budgeting and credit cards.

Using the Course

Students new to the curriculum should take our Math Diagnostic Test (page 74) to ensure proper grade level placement. LightUnits contain two quizzes and a test. The Advanced Math Reference Chart includes rules for integer operations, prime number concepts, geometry formulas, angle classifications, and basic trigonometry rules.

The Teacher's Guides give teaching tips, extra practice, solutions, LightUnit answers, and alternate tests.

Studio Articulations

Are you at a loss in knowing how to teach art? Are you ready to move beyond random craft projects? Studio Articulations art curriculum gives students a well-rounded, wide-ranging art education. Students learn art history, study the work of many different artists, and complete projects in a variety of mediums. Art examples are designed for Christian schools and homeschools and do not include inappropriate content.

Each level provides material for two years of instruction and is presented in twenty-four unit plans that each cover three class periods. Includes supply lists, teacher scripts, grading rubrics, step-by-step illustrations, and inspiration posters. Pictures illustrate each step in a project. Each level includes a teacher's book and poster packet.

13 Christ Foreshadowed in the Sacrifices

“Without shedding of blood is no remission” (Hebrews 9:22). In the tabernacle sacrifice, the Levites had a grey object lesson of this truth. Spilled blood was necessary for atonement and redemption. It typified and pointed forward to the death of the Lamb of God, “ slain from the foundation of the world” (Revelation 13:8).

The altar of burnt offering just inside the courtyard beckoned the sinner: “Come as you are. Don’t wait until you’re perfect and clean. You’ll never qualify that way.” The location of this altar in the open courtyard just outside the tabernacle let them know they could approach God even in their imperfect state. The altar is the first step toward restoring fellowship between God and man. Without it, we cannot have communion with Him. We come to God repenting of and confessing our sin. This is the way to forgiveness and cleansing.

The Burnt Offering

When an Israelite didn’t have a specific sin in mind, but wanted to acknowledge his general state of sinfulness, he could offer a burnt offering. This was God’s solution at that time for man’s fallen condition. It is our sinful state that separates us from God, not just one certain sin. Jesus died to redeem us from our fallen state as well as to forgive our specific sins.

Words to Know

atonement: the reconciliation of God and sinful mankind through the sacrificial death of Jesus Christ
 restitution: actions that right a wrong; for example, repaying what one has stolen

Read Leviticus 1:1-9.

KJV Vocabulary

Use the definitions to enhance your understanding of the passage as you read.
 make atonement for him (v. 4); purge his sin and
 sweet savour (v. 9); pleasing odor

Complete the sentences.

- The burnt offering was to be a _____ without _____.
- It was to be offered of one’s own _____.

Circle the letter of the best answer.

- Why did the sinner lay his hand on the head of the animal to be slaughtered?
 - It kept the animal from running away.
 - It was a way to atone for the killing of the innocent animal.
 - It showed compassion and pity to the animal.
 - It showed that he acknowledged the animal as an atonement for his own sins.

Lesson 8

► The Dominican Republic is on the island of Hispania, [which lies east of Cuba in the Caribbean Sea.]

Generally, the least important idea should be placed in the dependent clause. Usually details of color, size, time, or place are subordinate, while people and actions are important. A sentence with an action verb tends to be best as an independent clause, while sentences with being verbs can often be subordinated. Be careful not to overuse subordinate clauses in writing; use them only for a specific purpose or to provide variety.

✎ Rewrite each pair of sentences, making the italicized portion into a dependent clause.

- Abner Doubleday supposedly invented baseball. Abner Doubleday was a Union officer in the Civil War. (adjective clause)
- Some people believe this legend. Historians have proven that baseball existed before Doubleday's birth. (adverb clause)
- Softball was invented as an indoor game. Softball could be played in the winter. (adjective clause)
- Soccer had spread through Europe by the end of the 1800s, and to South America in the early 1900s, and it did not become popular in North America until later. (adverb clause)
- Medieval Europeans played a version of football. Their version was much different than today's game. (adjective clause)

Looking Back

✎ Bracket the adverb clauses, including elliptical clauses. Draw an arrow from each to the word it modifies. (2) (77-79)

- Although one role of the forest service is preservation, it also provides for the proper cutting of trees.

English 2600 & 3200

Useful for remedial work for students who struggle with English grammar and usage. The programmed material in each work-text is presented in frames (small segments), which prompt the student to learn, respond, and check/correct their own work in small increments. The constant reinforcement aids remedial learning. See page 60 for pricing.

Literature I (Grade 10)

A course based on *Perspectives of Life in Literature* that includes short stories, poetry, biographies, selections on Christian victory, and allegories. Exercises develop vocabulary, understanding of literary technique, reading comprehension, and thinking and composition skills.

LU1-2 The Short Story
LU3-5 Poetry
LU 6 Biography
LU7-8 Reflections
LU9-10 Allegory

The teacher's material includes Light-Unit overviews, grading information, a scope and sequence of the course, and alternate tests.

Algebra I (Grade 9) Sunrise Edition

Algebra I is designed with the Sunrise model of incremental learning and continuous review. The course is available in two formats: ten LightUnits or a textbook. The exercises and solution keys are the same for both options. The solution keys feature a complete list of steps for each problem.

LightUnits Study Method

Students can write in the LightUnits. Quizzes and tests are included and do not need to be ordered separately.

Textbook study method

The textbook is printed in color. It requires students to work exercises on other paper (except on quizzes and tests). The textbook makes it easy to refer to previous lessons. Quizzes and tests must be purchased separately.

Geometry (Grade 10)

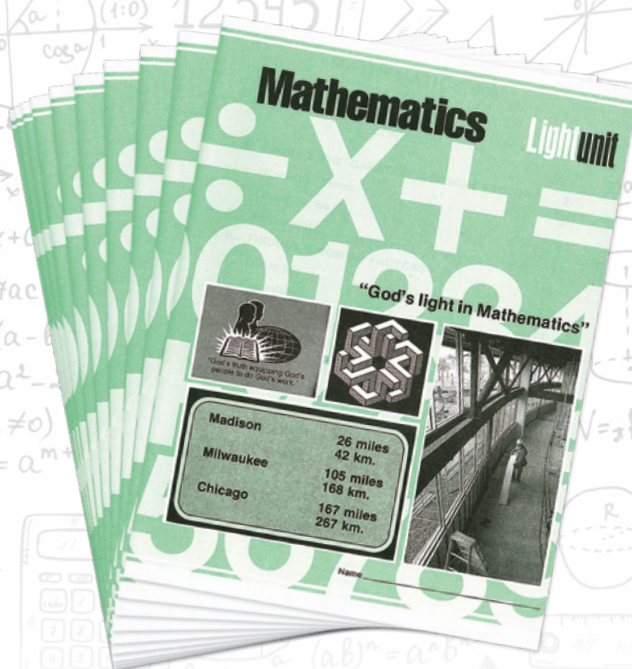

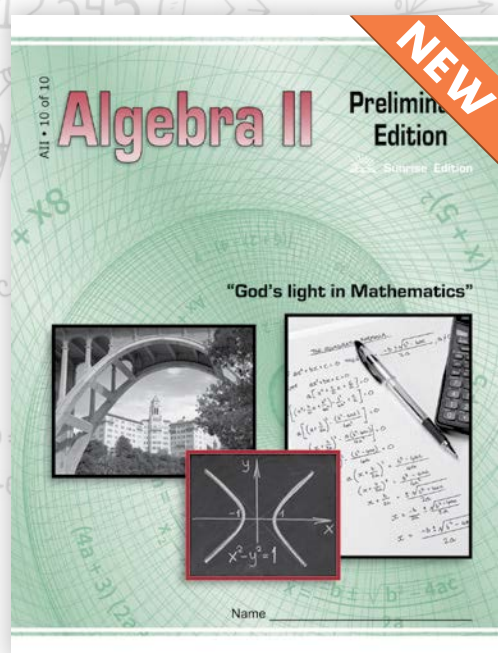

This geometry course is based on a course from Alpha Omega Publications. Each LightUnit can be completed in about three weeks. Because this is not a Sunrise Edition course, the material is presented in sections rather than daily lessons. Each section ends with a self test, which is similar to a quiz.

A Teacher's Guide with answers shows how each math problem or a similar one is solved and can be used in place of the Answer Keys. Because the Teacher's Guide developed by Alpha Omega does not always match the Christian Light LightUnits, an update booklet is included.

Algebra II (Grade 11) Sunrise Edition

Preliminary Edition

Sunrise Algebra II follows the methods of incremental teaching and continuous review used in Algebra I. It reviews and expands on algebraic concepts from Algebra I, and introduces new concepts such as matrices, probability, conic sections, logarithms, complex numbers, and trigonometry.

These preliminary edition LightUnits will be available for several years while the material is being refined for a textbook. Daily lessons do not have space for student computations. Quizzes and tests are contained in the LightUnits.

The solution key features a list of steps for each problem to make it easy to find errors in the student's work.

1 Solution Key	\$16.95

Functions and Trigonometry (Grade 12)

Algebra I and Algebra II are prerequisites for this course from Alpha Omega Publications. Each LightUnit can be completed in about three weeks. Because this is not a Sunrise Edition course, the material is presented in sections rather than daily lessons. Each section ends with a self test, which is similar to a quiz.

A Teacher's Guide with answers shows how each math problem or a similar one is solved and can be used in place of the Answer Keys. Because the Teacher's Guide developed by Alpha Omega does not always match the Christian Light LightUnits, an update booklet is included.

We offer these Apologia courses as an alternative to Christian Light science LightUnit courses.

Apologia Science

These textbooks offer a defense of Christianity along with excellent science. Some content is not in harmony with Anabaptist principles, particularly military references in the physical science and physics texts.

Companion CDs provide animations, videos, narrations, and audio pronunciation guides. While a few demonstrations are included in the videos, the goal of the courses is to have students do as many hand-on experiments as possible. The Notebooks are designed to help students develop independent study skills with daily schedules, note-taking pages, and lab report forms for each experiment. The Solutions/Test manuals may be photocopied.

Some courses are available as a complete course on CD. Apologia Multimedia Companion and Full Course CD-ROMs run on Windows XP through Windows 10. A drive capable of reading CD-ROMs, such as a DVD drive, is required. Apologia does not offer full technical support for Macs, but their products have been successfully tested on Mac OSX and higher.

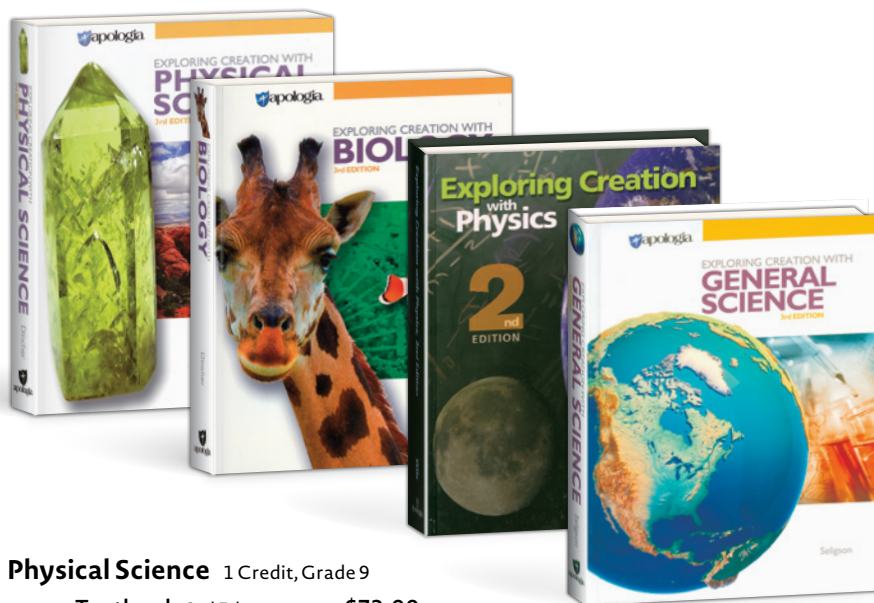

Advanced Biology: The Human Body

1 Credit, Grade 12

This advanced biology course covers both the anatomy and physiology of each of the human body's organ systems for those students who have successfully completed high school biology and chemistry. Please note that the reproductive system is covered in detail, including accurate yet respectful illustrations and descriptions. Although the Anatomy Coloring Book is optional, the textbook does assign activities from the coloring book.

Elective Courses help students gain practical experience and learn valuable information they will use for the rest of their lives. The chart below lists each elective and at what grade level we recommend it be taken.

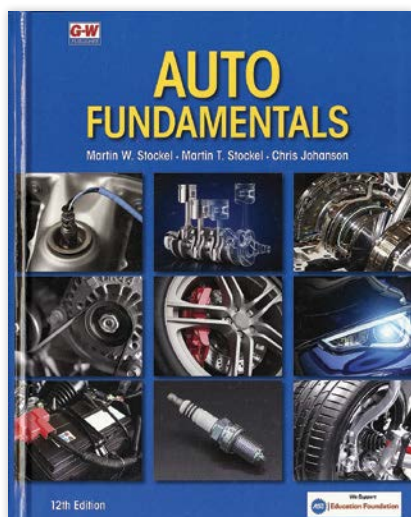

Textbook-based electives consist of a quality textbook from another publisher accompanied by Christian Light student guides and tests. Textbooks are carefully screened for objectionable content, but may not measure up to standards for books we

publish. Courses are as reasonably priced as possible, but are often expensive. Used and less expensive textbook copies may be found online by searching with the ISBN.

LightUnit-based electives consist of five or ten self-contained workbooks.

Computer Basics

Business Edition

½ Credit, Grade 9+

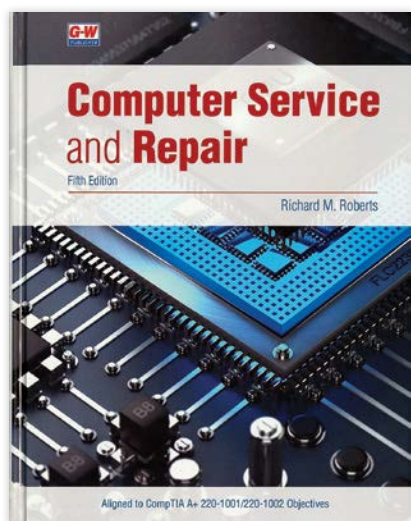

LightUnits

This five-LightUnit course gives students a foundation for learning computer applications. LightUnits 1 and 2 are a basic history of computers and describe how computers work. LightUnits 3 and 4 deal with computer software, including word processing, databases, spreadsheets, and desktop publishing. LightUnit 5 deals with computers in the workplace.

With the many changes in technology since this course was published in 2004, some details are outdated. However, much of the course is still relevant in learning the history of computing and how computers and software work.

LightUnits

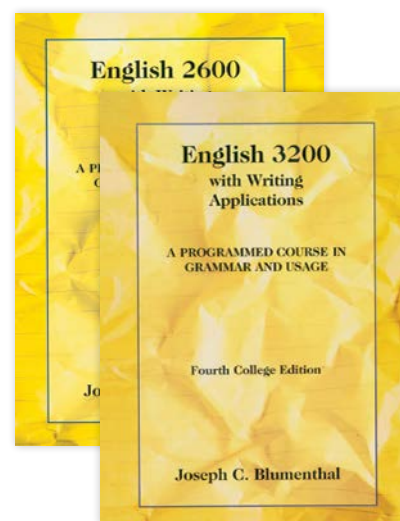

This ten-LightUnit course applies math to everyday situations. There is no Teacher's Guide because the LightUnits are geared for self-study. Each LightUnit takes about seventeen days to complete.

Because consumer prices and technology have changed from when the course was published in 1980, many examples and student problems are outdated. This course can still be useful in helping students learn practical math skills because the principles have not changed. The themes for each LightUnit are as follows:

- LU 1 Creative Arithmetic
- LU 2 Fractions, Decimals, and Percent
- LU 3 Family Finances 1
- LU 4 Family Finances 2
- LU 5 Construction and Building Trades
- LU 6 Service Occupations
- LU 7 Transportation

The Pilgrim's Progress

½ Credit, Grade 9+

Textbook

The Pilgrim's Progress

John Bunyan's allegory of the Christian life, written from a prison cell, is one of the greatest masterpieces of literature. Making his way to the Celestial City, the pilgrim Christian traverses the hill Difficulty, the Valley of the Shadow of Death, and Vanity Fair; and encounters characters such as Hopeful, Mr. Worldly Wiseman, Mercy, and the Giant Despair. Literature I also includes a study of Pilgrim's Progress.

Spanish A & B

½ Credit each, Grade 8+

Textbook

Though the textbooks for these two Spanish courses are called *Spanish for Children*, the depth and scope of grammar they teach is worth one-half credit each. These courses teach students how to form their own sentences and express themselves in Spanish rather than memorizing hundreds of phrases. Because of this systematic approach, students learn how the language works.

Student Material

Spanish A A five-LightUnit workbook (with five tests) guides students through the *Spanish for Children Primer A*. Includes pronunciation CD.

Spanish B A LightUnit (with five tests) guides students through *Primer B*. There is no pronunciation CD.

NEW! Conversational English for Second-Language Learners

Talk It Out and Talk It Over are the first two levels in a three-level series (Levels A, B, and C) for teaching conversational English to international learners. Each level contains forty lessons for a total of 120 lessons.

Lessons include vocabulary and sentence structures that students practice in class and then use in daily life. The Teacher's Guide provides step-by-step teaching instructions, activities, and games to simulate real-life contexts. Each of the flash cards includes a picture and accompanying label.

The Teacher's Guide is required. Lessons are designed for ages 11-16, but the Teacher's Guide provides activities to adapt lessons for a range of class lengths, styles, and ages. This course is not just about learning English—it helps teachers and students build relationships around conversation. Contact us for other options in international or mission settings.

Church History

Keith Crider The history of the church is a history of real people—popes and priests, monks and martyrs, and many ordinary folks like us. All claimed to follow Christ, but not all had the same understanding of what it meant to be Christian. This account of the church up to the beginning of the Anabaptist movement helps us understand how the church grew and changed over the centuries. It inspires us to faithfulness to Christ and His teaching in our day.

BECOME BETTER EQUIPPED FOR SERVICE

Attend a summer teacher training session.

Christian Light holds several one-week training sessions each summer. These sessions include course materials in addition to lectures and discussions directed by experienced Christian Light personnel.

At these sessions, you can:

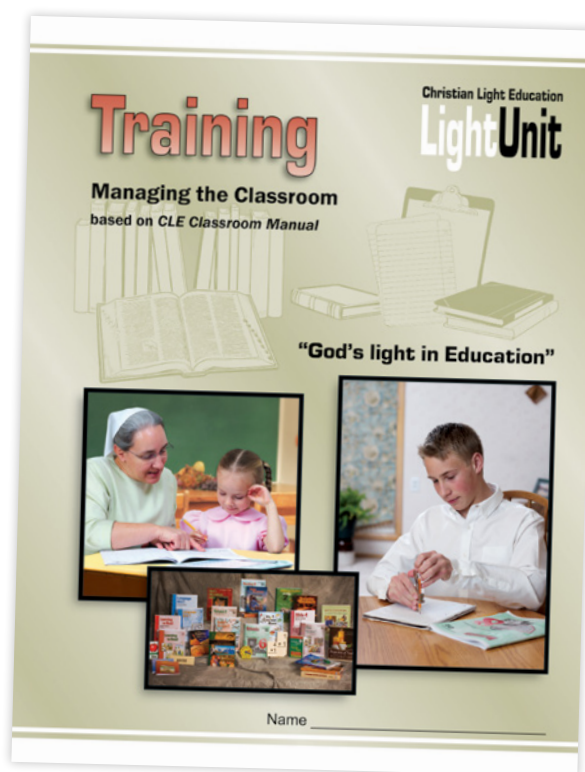

- ✓ Gain inspiration for your task.
- ✓ Gain insights from other teachers.
- ✓ Stay up-to-date on Christian Light's curriculum.

You'll learn about classroom management, Christian Light curriculum structure, and Biblical principles of Christian education. Upon successful completion of the course, you will be awarded a Christian Light Teacher Training Certificate.

New teachers are highly encouraged to attend, but board members and experienced teachers are also welcome.

Contact us for session locations and dates.

ACCREDITED DIPLOMAS

When a school is enrolled with Christian Light, students can choose between three diploma levels to accommodate their interests, academic abilities, and vocational plans. The credit requirements for each course of study are given in the chart below.

Academic Diploma

The Academic diploma is recommended for students who are academically capable or who plan to go to college. All courses must be high school level, and a foreign language credit and physical education credit are required.

General Diploma

The General diploma does not require a foreign language credit and allows some eighth-grade courses to count for credit if they are completed in high school.

Vocational Diploma

The Vocational diploma accommodates students who struggle academically. This level does not require a foreign language or physical education credit and allows credit for some elementary courses if they are completed in high school.

GRADUATION REQUIREMENTS FOR A HIGH SCHOOL DIPLOMA

A student receives high school credit when he enters his ninth year of school or when he begins working in 900 level material, whichever comes first. Credit cannot be earned for LightUnits numbered 501-810 unless they are completed after the student enters ninth grade. One credit = 10 LightUnits. One credit = 120 hours of classroom work or 240 hours of laboratory-type activity.
