OUR STORY

More than 30 years ago, a handful of surfers made a powerful statement by founding the Surfrider Foundation. The waves they surfed in Malibu, California, were threatened by development and pollution. They wanted to protect what they loved, so they organized a group to protest the threats to their local surf break. They took action. Not even they could have envisioned the history they were making when they succeeded in protecting their beloved surf spot.

Today, the Surfrider Foundation protects much more than surfing waves, but one thing remains the same—we are coastal defenders who share a deep passion for the ocean, waves and beaches because we live, work and play there. It’s our love for the coasts that drives us to be daily stewards of the coastal environment and to protect clean water and healthy beaches for the future.

Surfrider has built a nationwide network of volunteers who transform passion into lasting protection. Bridging local knowledge with national experts in law, policy and science, our formula for success produces coastal victories that drive scalable change. We don’t just play. We win.

Our focus is 100% on our ocean, waves and beaches. We care for the area where the land meets the sea, with one foot in the sand and another in the water.

Our vision is to keep our beaches open to everyone, promote smart development that avoids coastal impacts, protect special ocean and coastal places before they are threatened, ensure the water is clean to surf and swim in and beaches are free of plastic pollution.

Our members and supporters, like you, empower local citizens to be leaders in their coastal communities and defenders of our coasts.

Thank you for your continued support.

Our motto at the Surfrider Foundation in 2017 was “It’s a Sprint and a Marathon.” A sprint because the Trump administration wasted no time in issuing a number of executive orders that put the health of our ocean and coasts at risk. Those executive orders included expanding offshore drilling along all of America’s coastlines, eliminating important clean water and climate change programs, and efforts to shrink national monuments and sanctuaries. We quickly sprang into action, launching national campaigns to mobilize our network of coastal defenders.

Coastal and ocean conservation is also a marathon because many of the issues we face are chronic and will take years, if not decades, to solve. Plastic pollution, climate-induced sea level rise and water pollution are issues that take constant pressure, endlessly applied. Fortunately, our chapter and student club network is up to that task and our volunteers are making extraordinary efforts day in and day out to promote clean water and healthy beaches.

The Surfrider Foundation works at the local, state and federal levels of decision-making, so we can play defense at the federal level while still making progress at the local and state levels around the country. And that we did. Surfrider’s network achieved 50 coastal victories in 2017 to protect our ocean, waves and beaches.

Some significant achievements included saving federal funding for the BEACH Act that ensures water quality testing and reporting at beaches across the U.S. so you know if it's safe to swim or surf at your favorite beaches; banning plastic bags in Boston; expanding California’s Coastal Monument; protecting beach access in York, Maine and Miami Beach, Florida; and passing a beach access law in California to improve lower cost accommodations along the coast.

Sprinting while also running a marathon is not easy, but we didn’t have a choice. Our significant work continued, while we addressed a relentless stream of threats to ocean and coastal health from the Trump administration. Our staff, chapter leaders and volunteer network proved that they are up to this very important task, as did you, our supporters. Our extraordinary response to these extraordinary threats would not have been possible without your support. These threats continue and the health of our ocean, coasts and planet is on the line, so we intend to continue our all-out effort to protect our ocean, waves and beaches.

Thank you for your involvement and support.

For clean water and healthy beaches,

Dr. Chad Nelsen
CEO, Surfrider Foundation
THE OCEAN BELONGS TO ALL OF US

- General and Administrative: $829,508 (11%)

**Total Expenses**: $7,238,685 (100%)
A coastal victory is a decision made in favor of the coastal and ocean environment that results in a positive conservation outcome, improves coastal access, or both. Policy advancement establishes a policy that will support future protection of our ocean, waves and beaches.

For more information on our victories visit surfrider.org/campaigns.
OUR WORK

Our ocean faces growing challenges from water pollution, coastal development and climate change. At the same time, expanding industries, such as offshore oil drilling, threaten to destroy the health of the ocean, marine ecosystems and coastal economies.

Every day poses new challenges to our ocean and beaches. To turn the tide before further damage is done to the ocean’s health, our coasts must be proactively protected before they are threatened.

This is precisely why the Surfrider Foundation built a network of passion-driven people who are on the ground and serve as the voice for our ocean and beaches. With one foot in the sand and the other in the water, the Surfrider Foundation is the only nonprofit organization with 100% focus on protecting our coasts.
OUR INITIATIVES

Clean Water
We protect our water resources and prevent pollution along our coasts and waterways through community engagement, water testing, planting ocean-friendly landscapes and by advocating for holistic clean water solutions.

surfrider.org/programs/clean-water

Beach Access
Our beaches mean so much to us. The coasts are where we live, work and visit. They are the entryway to our ocean. We need access to beaches in order to enjoy these special places. We work hard to ensure that our beaches are accessible for all to enjoy.

surfrider.org/programs/beach-access

Ocean Protection
Our ocean faces growing challenges from pollution, habitat loss, development, and climate change. To protect the ocean, we work to establish marine protected areas (MPAs), stop offshore oil drilling, support regional ocean planning and apply best practices to renewable energy development.

surfrider.org/programs/ocean-protection

Coastal Preservation
Our network of volunteers address threats, including poorly planned coastal development, shoreline armoring and sand dredging projects. We also work proactively with community planners to address the impacts of climate change and sea level rise.

surfrider.org/programs/coastal-preservation

Plastic Pollution
Plastic pollution is suffocating the ocean and the many animals that call it home. To address the plastic pollution crisis, we work to educate the public, clean up litter at beaches, pass laws that reduce plastic consumption and register Ocean Friendly Restaurants.

surfrider.org/initiatives/plastic-pollution
OUR PROGRAMS

Blue Water Task Force
Our volunteer-run, water testing, education and advocacy program provides valuable water quality information to beach communities, identifies problems with beach and coastal water pollution, works to raise awareness for pollution issues and implements solutions.
surfrider.org/blue-water-task-force

Ocean Friendly Gardens
Our volunteers help local communities create Ocean Friendly Gardens to conserve water and wildlife habitats with native plants, restore soil, sponge up rainwater, filter out pollution and ultimately reduce the amount of runoff reaching the ocean.
surfrider.org/programs/ocean-friendly-gardens

Rise Above Plastics
Our Rise Above Plastics program raises awareness about the dangers of plastic pollution and also provides tools for our chapters to advocate for the reduction of single-use plastics and the recycling of all plastics in local communities.
surfrider.org/programs/rise-above-plastics

Beach Cleanups
Beach cleanups can reduce litter, protect our ocean and raise awareness about litter and plastic pollution. The Surfrider Foundation’s volunteer network conducts beach cleanups throughout the West, East, Gulf, Hawaiian and Puerto Rican Coasts.
surfrider.org/programs/beach-cleanups

Ocean Friendly Restaurants
Our Ocean Friendly Restaurants program recognizes businesses that adopt sustainable practices to protect our ocean. Partnering with Ocean Friendly Restaurants increases awareness, drives change in behavior and ultimately creates scalable impact to reduce our plastic (and water!) footprint.
surfrider.org/programs/ocean-friendly-restaurants
Student Club Network

In 2008, Surfrider launched our Student Club Network, providing young people opportunities to influence environmental action through service, development, leadership, civic engagement and organizing by way of collective empowerment of our chapter network. The Student Club Network sets the stage to ensure our network grows and builds the next generation of leaders and provides us with the opportunity to expand beyond the coastal zone.

surfrider.org/programs/student-clubs

Surfrider Leadership

Surfrider’s chapter network is an integral part to accomplishing the Surfrider mission. Our volunteers are the key to our success as they provide vital support for our community-based work and national campaigns. On an annual basis, we host Surfrider Leadership Conferences in the different regions where Surfrider staff, chapter leadership and special guests provide tools, resources and hands-on training for the issues our coasts are facing.

Chapter leadership may begin at Surfrider, but our volunteers also become leaders within their community. In 2015, the Surfrider Foundation launched its Leadership University, aimed at providing interactive learning and development opportunities to all of our Surfrider coastal defenders. It increases the knowledge and skills of individual activists and the effectiveness of our chapter network. The curriculum offered online in both a self-guided format and an interactive webinar format is taught by Surfrider Foundation staff and activist-experts. Volunteers earn a certificate upon completion of the curriculum.
PROTECT 100% OF THE COASTS
COMMUNICATION CHANNELS

Surfrider.org

The Surfrider Foundation’s website, surfrider.org, shares with our visitors the threats that our ocean and coasts face and the solutions Surfrider and our chapter network are providing. We are tackling these issues through our initiatives, programs and campaigns, resulting in successful victories achieved for the protection of our nation’s coastal zones. In addition, nearly all Surfrider chapters maintain websites of their own, enabling them to post information on local issues and events. Chapter websites can be accessed directly through the Surfrider Foundation website.

surfrider.org/chapters

Making Waves

The Surfrider Foundation publishes a bi-monthly digital newsletter, Making Waves, which shares campaign developments and victories, chapter updates, and environmental and scientific news stories. Making Waves remains one of the Surfrider Foundation’s most effective vehicles for educating and communicating with our members on activities and achievements within the organization.

Sign up at surfrider.org

Beachapedia

Beachapedia is the Surfrider Foundation’s community-driven online reference tool that catalogs combined coastal science information taken from the Surfrider Foundation activist network and environmental experts. Beachapedia captures relevant and timely information related to the protection of our coastal resources using Wiki technology. With its constant influx of content, Beachapedia serves as a relevant and valuable tool for the general public, media and decision-making bodies. Beachapedia covers a vast assortment of topics related to the coastal environment, including articles ranging from coastal access to water quality testing, to seawater desalination.

beachapedia.org
State of the Beach Report

Surfrider’s State of the Beach Report is available on Beachapedia. It is continuously updated as new information becomes available, state policies change and important developments in beach health occur in more than 30 coastal and Great Lakes states and the territory of Puerto Rico. The Surfrider Foundation also releases an annual State of the Beach Report Card, which evaluates U.S. states and regions against key indicators on their policies to protect our nation’s beaches from coastal erosion, beach fill, sea level rise and shoreline structures. This resource serves as a tool to empower concerned citizens to work with coastal municipalities and ensure that their local communities actively protect coastal resources. The report is also intended to provide a basis for decision-makers and agencies to form proactive, long-term solutions for increased coastal protection for the future.

beachapedia.org/state_of_the_Beach

Social Media

The Surfrider Foundation makes the most effective use of social networks including Twitter, Facebook, YouTube and Instagram by engaging with supporters and followers, posting organizational updates, answering questions and providing resources. They are also tools for staff and chapter leaders to help amplify efforts through social media.

Action Network

With just a click of the mouse, activists can make their voices heard. Through the Action Network, the Surfrider Foundation mobilizes activists by email, inviting them to weigh in when it counts by sending a message or petition to key policymakers—locally, nationally or around the world. A personalized letter is included simply by replying to each email or by clicking on the website. The Action Network does the rest, sending handcrafted email messages to elected officials, corporate leaders and other important decision-makers.
Ways to Give

We hope the information provided below will be helpful as you consider making a contribution to the Surfrider Foundation while possibly receiving tax and financial benefits.

Current Gifts

Cash
A gift of cash is the simplest and most popular gift to the Surfrider Foundation. It provides immediate support for our mission-related work and gives the donor a charitable income tax deduction in the year of the gift.

Securities
Gifts of appreciated securities are an excellent vehicle for giving to Surfrider. If you have appreciated securities that you have owned for more than one year, you may want to consider using such an asset to make charitable gifts. When a gift of long-term appreciated securities (securities held for more than a year) is made directly to Surfrider, there is no tax on your capital gains, even though the gain is counted as part of your charitable deduction. To receive the greatest tax benefit, gifts of appreciated securities should be made directly to Surfrider, rather than selling them first and making a donation of the proceeds (you would then have to pay tax on the gains).

If your gift of appreciated stock, combined with other gifts, exceeds 30% of your adjusted gross income—the maximum deduction allowed for most appreciated securities gifts—the excess might be carried forward for five additional years. The value of the gift is based on the date the transfer of shares is complete.

Future Gifts

In addition to these current gifts, individuals may make contributions to the Surfrider Foundation through one or more of the following planned giving opportunities. Maximizing your gift and participating in planned giving are wonderful strategic ways to leave the legacy of a healthy ocean environment and help secure the work of the Surfrider Foundation into the future. The Legacy Circle recognizes and honors those who have included Surfrider Foundation in their financial plans. They have done so by naming Surfrider as a beneficiary of wills, living trusts, IRAs, life insurance and other life-income gifts or have made an outright gift to the Surfrider Foundation Endowment Fund.

If you qualify for membership in the Legacy Circle or would like to learn more about becoming a member, please contact Surfrider Foundation’s Director of Development.

We would be happy to show you the potential benefits to you and/or your heirs of a planned gift supporting our efforts. Such a consultation creates absolutely no obligation on your part and all information is completely confidential.

Bequests
You can establish a legacy that will reflect your commitment to the coastal environment by including the Surfrider Foundation in your will or living trust. Bequests to Surfrider are generally exempt from federal or state inheritance taxes, and subject to an unlimited deduction. Please consult with your financial and tax advisors, in selecting a program or specific target for such a bequest.
**Individual Retirement Account (IRA)**

Naming the Surfrider Foundation as a beneficiary of your IRA is a very tax-efficient way to make a charitable gift. In fact, retirement plans and IRAs should be the first asset considered in planned giving. This is because retirement funds have never been taxed. So, when you make a withdrawal from your IRA or retirement plan you must pay taxes on it as ordinary income. At your death, whatever remains in these plans does not escape taxes and is actually subject to both income tax and estate tax. In the highest estate tax bracket this could reduce the value of your retirement funds by 70 percent or more! Making a gift via your IRA or retirement plan is simple to do and can be changed if your financial or estate plans change.

**Life Insurance**

Naming the Surfrider Foundation as a beneficiary of your life insurance is a simple way to provide support without giving up current assets. You may also create a new policy or transfer ownership of your existing life insurance policy to Surfrider Foundation and receive an immediate charitable gift deduction. If you continue making premium payments to maintain the policy, those payments are tax deductible.

**Charitable Remainder Trusts (CRT)**

A charitable remainder trust can be used to bypass capital gains taxes on the sale of highly appreciated assets, generate an increase in income, receive a charitable income tax deduction, and help you fulfill your philanthropic objectives. Typically, property or money is donated to Surfrider, but you, the donor, continue to use the property and/or receive income from it while living. The beneficiaries receive the income and Surfrider receives the principal after a specified period of time. You avoid any capital gains tax on the donated assets, and you receive an income tax deduction in the year the trust is created. In addition, the donated asset(s) are removed from the estate, reducing subsequent estate taxes. While this contribution is irrevocable, you may have some control over the way the assets are invested, and may even switch from one charity to another (as long as it’s still a qualified charitable organization). CRTs come in two main types: charitable remainder annuity trust (which pays a fixed dollar amount annually) and a charitable remainder unitrust (which pays a fixed percentage of the trust’s value annually).

**Charitable Lead Trust**

Some individuals would like to have use of their gift now, while reserving benefits from the gift for family members for later. Charitable lead trusts are essentially the opposite of Charitable Remainder Trusts. In this type of gift a donor contributes property to an irrevocable trust. The trustee pays an income to the charity for the donor’s lifetime or a specified time period. At the end of the term the trust property is distributed either back to the donor or to the donor’s heirs. The primary advantage of this arrangement is that the property contributed to the lead trust is valued for estate and gift-tax purposes as of the date of the contribution. For assets that are likely to appreciate substantially in value over time, a donor may wish to remove it from their estate now by contributing it to a lead trust.

**Charitable Gift Annuity (CGA)**

With a charitable gift annuity you, the donor, will receive fixed payments, based on your age, for the rest of your life. These payments are partially tax-free, plus you will receive an immediate tax deduction in the year you fund the annuity. If you create your annuity with appreciated assets you will also avoid immediate capital gains taxes. When the annuity matures, the remainder passes to Surfrider Foundation. The minimum age for an immediate CGA is 55. Others may consider a deferred CGA.
OTHER GIVING OPTIONS

Workplace Giving

The Surfrider Foundation is a member of EarthShare, a nationwide network of the most respected environmental and conservation organizations. EarthShare partners with employees and employers across the country to support hundreds of environmental groups through efficient and effective payroll deduction giving and offers a simple way to care for the environment.

Workplace giving is probably the easiest way to make a charitable gift. If your company offers an EarthShare workplace-giving program, you can choose an amount that you wish to have deducted from your paycheck each pay period. These payroll deductions are fully tax deductible and take place automatically.

Through EarthShare’s workplace giving programs, you can elect to contribute only to the Surfrider Foundation or you can donate to all of the environmental and conservation charities you normally support by designating them in your EarthShare gift. Federal employees and military personnel can get involved too. Each year the US government offers its employees the chance to participate in the Combined Federal Campaign (CFC). Surfrider’s CFC code is 10642. EarthShare is a part of many state and municipal government agencies’ giving programs as well.

If EarthShare is not offered in your campaign, or if there is no campaign at your workplace, you can help us introduce the program to your employer.

Employer Matching Contributions

Many employers sponsor matching gift programs and will match any charitable contributions made by their employees. Some corporations set aside millions of dollars for matching gifts each year and only a small portion of the funds are ever used. Most companies match dollar for dollar, and some will even double or triple match your gift. To find out if your company offers gift matching, please contact your human resources department.

Tributes and Memorials

Honor someone’s accomplishment or memory, celebrate a friend’s birthday or recognize an individual’s achievement with a tribute or memorial to the Surfrider Foundation. Tribute or memorial acknowledgement cards are sent directly to the recipient to recognize your gift in their honor. You receive a letter for tax purposes and honor a friend while supporting Surfrider at the same time.

Dillon Henry Memorial Endowed Fund Donors

Created in 2007 by Harriet Zaretsky and Stephen Henry, the Dillon Henry Memorial Internship was created to honor their son Dillon’s memory, recognize his commitment to the oceans and coastal environment and to help young people to pursue a career in coastal and marine conservation. The Endowment provides funds on an annual basis for two interns working with Surfrider Foundation’s Environmental and/or Legal Departments. The Henry Family welcomes additional donations to the fund.

For more information please visit dillonslist.org.
2017 CORPORATE PARTNERS
