IMPORTANT INFORMATION:

- Read the Installation Guide in its entirety including all warnings and important information before beginning work. The Installation Guide is available at www.railblazers.ca/installation-guide
- Maximum post spacing of 6' for Residential¹ use.
 - ¹Guards within dwelling units and exterior guards serving not more than two dwelling units.
- Always understand and comply with your local building codes²
 - ²Conditions apply. For details visit: railblazers.ca/compliance
- Ensure that the opening between each of the following is less than 3 1/8": pickets - pickets and posts - pickets and walls - pickets and glass panels - glass panels - glass panels and posts - glass panels and walls
- Do not use regular Pickets & Spacers on stair applications (Stair Pickets & Spacers are not the same size as regular Pickets & Spacers).
- Universal Connectors are required for stair and horizontal angle applications.
- Glass Panels are available in 42" and 66" widths to fit 4' & 6' railing sections, respectively. Space posts accordingly. For custom sizes, please see a store associate.
- If using Glass Panels, also purchase Glass Gaskets.
- For professional looking results, space posts equally.
- For commercial use including multi-residential housing, please call Peak Customer Service at 1-877-883-PEAK (7325) or email: cservice@peakproducts.com

* Pickets & Spacers (including Stair Pickets & Spacers) are designed for Residential¹ use only. Wide Pickets & Spacers (including Wide Stair Pickets & Spacers) are designed for Residential¹ or Commercial² use.
¹ Guards within dwelling units and exterior guards serving not more than two dwelling units.
² For more information, please call Peak Customer Service at 1-877-883-PEAK (7325) or email: cservice@peakproducts.com.

Typical anchoring fasteners For WOOD Applications

Deck Structure	Fasteners Required	Fasteners Included	Minimum Embedment ³		Minimum End and Edge Distance		Pilot Hole

⚠WARNING No representation or warranty is given that your particular application of these products complies with relevant building codes or that the fasteners provided or used are appropriate for your application. Consult with professionals and local building officials before beginning work: (i) to ensure compliance with relevant building codes for your application and for your proposed use of fasteners; (ii) to ensure the integrity of the structural components in connection with which these products are to be used; (iii) to identify appropriate safety gear that is to be used during installation such as a safety harness when working above ground; (iv) to ensure that the work area is free from utilities, services and hazards; and (v) to clarify any instructions or warnings that may not be clear. Work in a safe manner wearing protective gear such as gloves, eyewear, headwear, footwear and clothing. When using tools comply with operation manuals and instructions. Metal and glass may have sharp edges and could fragment or splinter during or as a result of handling or cutting. Do not use these products in connection with any substance that is or may be harmful or corrosive to the products. Inspect and maintain these products and the structural components that they are used in connection with on a regular basis, using professionals when appropriate.

No member of The Peak Group of Companies (as defined at www.peakproducts.com) shall be liable for any loss or damage resulting from the improper installation or use of this product. In the unlikely event that any member of The Peak Group of Companies becomes liable for any loss or damage, the aggregate liability shall be limited to the retail purchase price of the product.
