

20116-E | Universal Transmitter

The 20116-E Universal Transmitter allows easy connection to supervise contact closures such as doors, windows, and other related security devices.

The universal transmitter can be used in conjunction with a variety of devices.

When the contact switch is activated within the device, the transmitter's ID information is sent to the Crisis Controller® software showing the location of the alarm.

Features & Benefits

-  Compatible with the PALS® 9000 systems and Crisis Controller® Software
-  Will accept N/O or N/C external contacts
-  Constructed of heavy duty ABS plastic
-  Easy installation and programming
-  Available in surface or flush mounting
-  Full supervision of transmitters to include low battery, tamper, and inactivity

Specifications

DIMENSIONS
Height: 3.5" Width: 1.7" Depth: 0.9"
CONNECTION
Screw Terminal Block for External Contact Connection
WEIGHT
Approximately 3 oz
BATTERY TYPE
3 V Lithium
FREQUENCY RANGE
900 MHz spread spectrum, 902 to 928 MHz
ANTENNA/RADIATED POWER
Internal wire/10 mW
SPURIOUS EMISSIONS
Meets FCC Limits

Accurate Location

24/7 Support

Affordable System

Optimize Workflow
