

20131-E | Emergency Call Box

The 20131 Emergency Call Box transmitter allows easy access in an emergency situation. This large weatherproof emergency call box includes a bright red mushroom button and "EMERGENCY" label. Completely wireless, a simple push of the mushroom button sends an alarm to the Crisis Controller® software showing the location of the alarm.

Features & Benefits

-  Compatible with the PALS® 9000 systems and Crisis Controller® Software
-  Able to transmit in the harshest RF environments
-  Weather Resistant
-  Long range transmission
-  Extended battery life *(up to 12 months depending on features and usage)*
-  Full transmitter supervision includes alarms for low battery and inactivity
-  Returns accurate RF location and tracking information
-  Easy Installation
-  Enclosed and shielded connectors

Specifications

DIMENSIONS
9.125" L x 9.125" W x 4" H
CURRENT CONSUMPTION
114 mA average, dependent on programmed features
WEIGHT
6 ounces <i>(approximate weight with battery)</i>
OPERATING TEMPERATURE
0° to 50° Centigrade
BATTERY TYPE
3 V Lithium Battery, Duracell 123A
ANTENNA
Internal, 900 MHz
MATERIAL
Single Gang Plate ABS Plastic

*Battery Life when deployed will vary as a function of duty time used, frequency of alarm transmissions sent, LED brightness/frequency, location broadcast interval settings and environmental conditions at your site. Based upon 240mAh CR 2032 (Energizer). Ask your Actall Sales Representative for more details.
