

## 60110 | IR Lapel Reader

The 60110 IR Lapel Reader is an attachment to the PALS® 9000 Personal Mobile Transmitters (PMT). Lapel readers plug directly into the side of the PMT and extend the IR polling device when the PMT is inadvertently covered. The lapel reader comes standard with a clip that is used to attach the unit to clothing, for comfortable placement.

### Features & Benefits

- Compatible with PALS® 9000 Personal Mobile Transmitters (PMT)
- Quick and easy installation
- Small and compact
- No extra programming required
- Customizable cable length up to 6 feet
- Constructed of heavy duty ABS plastic for durable operation
- System can provide alert tones for confirmation of IR signal to PMT unit
