

## 70101 | Heavy Duty Tag Test Station Kiosk

The 70101 Heavy Duty Tag Test Station Kiosk provides end users with an easily accessible location to quickly test a Heavy Duty Tag. ADA compliant screen placement can range from 52" to 48" in height, providing self-service options for your ATLAS and PALS 9K users. The kiosk communicates directly with the Crisis Controller Software and can be installed as a standalone unit, or in multiple locations at your facility.

### Features & Benefits

-  Compatible with the ATLAS and PALS 9K systems and Crisis Controller Software
-  Easy Installation and Programming
-  Test results are immediately displayed on kiosk monitor following testing
-  Durable steel enclosure
