

## 90201 | Uninterruptible Power Supply

The 90201 Uninterruptible Power Supply is equipped with battery backup, providing superior, full time surge protection for the Alert Monitoring Center. It supplies instantaneous battery power during utility fluctuations and power outages. The Power Supply provides swappable, user replaceable batteries reducing service costs and down time by allowing the user to replace and dispose of exhausted batteries without powering down the system.

### Features & Benefits

-  Allows for uninterrupted Alarm Monitoring in event of temporary power loss
-  Eliminates lost data from utility fluctuations and power outages
-  Quick and easy installation
-  Small and compact
-  High-efficiency charger optimizes power use, meets the strictest global environmental standards and utilizes packaging made entirely from recycled materials
-  Low battery and overload alarms
-  LED status indicators (replace battery and building wiring fault)

### Specifications

<b>DIMENSIONS</b>
Height : 3-1/2" Width : 7-1/8" Depth : 13-1/2"
<b>INPUT VOLTAGE</b>
110 VAC
<b>WEIGHT</b>
12.50 lbs. per Each
<b>VOLTAGE</b>
750 VAC
<b>WATTAGE</b>
450 Watts
<b>FULL LOAD RUNTIME</b>
2 Min
<b>HALF LOAD RUNTIME</b>
9 Min
