PurchaseOrderSearch

/specialresources/PurchaseOrderSearch/

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
updated_date	datetime	True	False	False	False	True	A date & time as a string. Ex: "2010-11-10T03:07:43"
shipping_state	string		False	False	False	True	Unicode string data. Ex: "Hello World"
finalized	boolean	False	False	False	False	True	Boolean data. Ex: True
tax	decimal	0.00	False	False	False	False	Fixed precision numeric data. Ex: 26.73
invoiced_status	string	No default provided.	False	True	False	False	One of [partially_invoiced, uninvoiced, fully_invoiced]
vendor_zip	string		False	False	False	True	Unicode string data. Ex: "Hello World"

shipping_contact_name	string		False	False	False	True	Unicode string data. Ex: "Hello World"
receive_status	string	No default provided.	False	True	False	False	One of [new, partially_received, fully_received, sent, finalized]
shipping_email	string		False	False	False	True	Unicode string data. Ex: "Hello World"
contact_name	string		False	False	False	True	Unicode string data. Ex: "Hello World"
total	decimal	0.0000	False	False	False	False	Fixed precision numeric data. Ex: 26.73
vendor_address2	string		False	False	False	True	Unicode string data. Ex: "Hello World"
id	integer		False	False	True	True	Integer data. Ex: 2673
contact_name_for_authorization	string		False	False	False	True	Unicode string data. Ex: "Hello World"
vendor_contact_name	string		False	False	False	True	Unicode string data. Ex: "Hello World"

vendor_state	string		False	False	False	True	Unicode string data. Ex: "Hello World"
comments	string		False	False	False	True	Unicode string data. Ex: "Hello World"
vendor_fax	string		False	False	False	True	Unicode string data. Ex: "Hello World"
is_sent	boolean	False	False	False	False	True	Boolean data. Ex: True
vendor_vat_id	string		False	False	False	True	Unicode string data. Ex: "Hello World"
fob	integer	No default provided.	True	False	False	False	Integer data. Ex: 2673
vendor_email	string		False	False	False	True	Unicode string data. Ex: "Hello World"
establishment	Establishment (FK)	No default provided.	False	False	False	False	A single related resource. Can be either a URI or set of nested resource data.
shipping_terms	string		False	False	False	True	Unicode string data. Ex: "Hello World"

shipping_name	string	No default provided.	False	False	False	False	Unicode string data. Ex: "Hello World"
finalized_by	User (FK)	No default provided.	True	False	False	False	A single related resource. Can be either a URI or set of nested resource data.
vendor_id	string	No default provided.	True	False	False	False	Unicode string data. Ex: "Hello World"
sent_date	datetime	None	True	False	False	False	A date & time as a string. Ex: "2010-11-10T03:07:43"
shipping_city	string		False	False	False	True	Unicode string data. Ex: "Hello World"
vendor_phone_number	string		False	False	False	True	Unicode string data. Ex: "Hello World"
contact_fax	string		False	False	False	True	Unicode string data. Ex: "Hello World"
establishment_id	integer	No default provided.	False	True	False	False	Integer data. Ex: 2673

contact_email	string		False	False	False	True	Unicode string data. Ex: "Hello World"
shipping_address1	string		False	False	False	True	Unicode string data. Ex: "Hello World"
shipping_address2	string		False	False	False	True	Unicode string data. Ex: "Hello World"
vendor_address1	string		False	False	False	True	Unicode string data. Ex: "Hello World"
overridden_created_date	datetime	True	False	False	False	True	A date & time as a string. Ex: "2010-11-10T03:07:43"
shipping_and_handling	decimal	0.00	False	False	False	False	Fixed precision numeric data. Ex: 26.73
vendor_name	string	No default provided.	False	False	False	False	Unicode string data. Ex: "Hello World"
is_deleted	boolean	False	False	False	False	True	Boolean data. Ex: True
shipping_zip	string		False	False	False	True	Unicode string data. Ex: "Hello World"

finalized_date	datetime	None	True	False	False	False	A date & time as a string. Ex: "2010-11-10T03:07:43"
contact_phone	string		False	False	False	True	Unicode string data. Ex: "Hello World"
vendor_city	string		False	False	False	True	Unicode string data. Ex: "Hello World"
created_date	datetime	True	False	False	False	True	A date & time as a string. Ex: "2010-11-10T03:07:43"
misc_amount	decimal	0.00	False	False	False	False	Fixed precision numeric data. Ex: 26.73
vendor_account_no	string		False	False	False	True	Unicode string data. Ex: "Hello World"
vendor_country	string	USA	False	False	False	True	Unicode string data. Ex: "Hello World"
shipping_phone_number	string		False	False	False	True	Unicode string data. Ex: "Hello World"
shipping_country	string	USA	False	False	False	True	Unicode string data. Ex: "Hello World"

orderitems	Purchase OrderItem (FK)	No default provided.	True	False	False	False	Many related resources. Can be either a list of URIs or list of individually nested resource data.
resource_uri	string	No default provided.	False	True	False	False	Unicode string data. Ex: "Hello World"

Resource Changes

AppliedTaxOrder

/resources/AppliedTaxOrder/

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
tax_type	integer	0	False	False	False	False	Integer data. Ex: 2673

AppliedTaxOrderItem

/resources/AppliedTaxOrderItem/

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
flat_tax_units	integer	1	False	False	False	False	Integer data. Ex: 2673

tax_type	integer	0	False	False	False	False	Integer data. Ex: 2673
----------	---------	---	-------	-------	-------	-------	------------------------

Cardswipe

/resources/Cardswipe/

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
moneris_a pi_version _11xx	boolean	No default provided.	True	False	False	False	Boolean data. Ex: True

ComboProductSet

/resources/ComboProductSet/

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
barcode	string	No default provided.	True	False	False	False	Unicode string data. Ex: "Hello World"

Company

/enterprise/Company/

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
call_names	string	['TICKET 1', 'TICKET 2', 'TICKET 3', 'TICKET 4', 'TICKET 5', 'Jacob', 'Ethan', 'Michael', 'Alexander', 'William', 'Joshua', 'Daniel', 'Jayden', 'Noah',]	False	False	False	False	Unicode string data. Ex: "Hello World"

CustomMenu

/resources/CustomMenu/

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
price_tier	PriceTier (FK)	No default provided.	True	False	False	True	A single related resource. Can be either a URI or set of nested resource data.

CustomerGroup

/resources/CustomerGroup/

Removed Fields

brand

Device

/resources/Device/

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
os_version	string	No default provided.	True	False	False	False	Unicode string data. Ex: "Hello World"

DeviceView

/resources/DeviceView/

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
os_version	string	No default provided.	True	False	False	False	Unicode string data. Ex: "Hello World"

Discount

/resources/Discount/

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
receipt_text	string	No default provided.	True	False	False	False	Unicode string data. Ex: "Hello World"
discount_timer	integer	None	True	False	False	False	Integer data. Ex: 2673

Field Changes

Name	Attribute	Old Value	New Value
stackable_discount_type	default	No default provided.	0
stackable_discount_type	nullable	True	False

DiscountLevel

/resources/DiscountLevel/

ProductPriceLifeCycleAction

/resources/ProductPriceLifeCycleAction/

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
price_tier	PriceTier (FK)	No default provided.	True	False	False	True	A single related resource. Can be either a URI or set of nested resource data.

ProductPurchase

/resources/ProductPurchase/

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
flat_tax_units	integer	1	False	False	False	False	Integer data. Ex: 2673
show_on_pos	boolean	True	False	False	False	True	Boolean data. Ex: True
negative_sales_restricted	boolean	False	False	False	False	True	Boolean data. Ex: True

ProductPurchaseOrderItem

/resources/ProductPurchaseOrderItem/

Field Changes

Name	Attribute	Old Value	New Value
reorder_unit	default		Unit

PurchaseLedger

/resources/PurchaseLedger/

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
vendor_vat_id	string		False	False	False	True	Unicode string data. Ex: "Hello World"

Field Changes

Name	Attribute	Old Value	New Value
overriden_created_date	default	2017-12-04 22:31:08.153758+00:00	True
overriden_created_date	blank	False	True

PurchaseOrder

/resources/PurchaseOrder/

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
vendor_vat_id	string		False	False	False	True	Unicode string data. Ex: "Hello World"
finalized_by	User (FK)	No default provided.	True	False	False	False	A single related resource. Can be either a URI or set of nested resource data.

Field Changes

Name	Attribute	Old Value	New Value
overriden_created_date	default	2017-12-04 22:31:08.154320+00:00	True
overriden_created_date	blank	False	True

Removed Fields

object_id

Table

/resources/Table/

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
updated_date	datetime	True	False	False	False	True	A date & time as a string. Ex: "2010-11-10T03:07:43"
created_by	User (FK)	No default provided.	True	False	False	True	A single related resource. Can be either a URI or set of nested resource data.
updated_by	User (FK)	No default provided.	True	False	False	True	A single related resource. Can be either a URI or set of nested resource data.
created_date	datetime	True	False	False	False	True	A date & time as a string. Ex: "2010-11-10T03:07:43"

TableReservation

/resources/TableReservation/

Field Changes

Name	Attribute	Old Value	New Value
order_uuid	unique	True	False

Tax

/resources/Tax/

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
tax_type	integer	0	False	False	False	False	Integer data. Ex: 2673

Field Changes

Name	Attribute	Old Value	New Value
active	blank	True	False

Till

/resources/Till/

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
cash_refunds	decimal	No default provided.	True	False	False	False	Fixed precision numeric data. Ex: 26.73

User

/enterprise/User/

Field Changes

Name	Attribute	Old Value	New Value
last_login	default	2017-12-04 22:31:08.168934+00:00	No default provided.
last_login	nullable	False	True
date_joined	default	2017-12-04 22:31:08.168970+00:00	2017-12-04 22:17:50.143415+00:00

Vendor

/resources/Vendor/

Removed Fields

brand

Added Fields

Name	Type	Default	Null	Read Only	Unique	Blank	Help Text
vat_id	string		False	False	False	True	Unicode string data. Ex: "Hello World"

Removed Filtering Methods
